B. An appeal shall be taken within ten (10) days from the determination complained of by filing with the building inspector and with the secretary of the board a notice of appeal, specifying the

grounds thereof. The building inspector, upon receipt of notice, shall transmit to the secretary of the board and the City Clerk certified copies of all the papers constituting the record of the matter. Upon receipt of the record, the secretary shall cause an investigation to be made upon the appeal and shall set the matter for public hearing.

C. The board shall hold the public hearing. The board may reverse or affirm, wholly or in part, or may modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision, or determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken. The board shall make its decision within thirty (30) days after the final hearing, and the decision shall be in writing and filed of record in the office of the City Clerk. The concurring vote of three members of the board shall be necessary to reverse any order, requirement, decision, or determination of the building inspector. A decision of the board shall not become final until the expiration of fifteen (15) days from the date such decision is made, unless the board shall find the immediate taking of the decision is necessary for the preservation of property or personal rights and shall so certify on the record.

D. An appeal stays all proceedings in furtherance of the action appealed from, unless the building inspector from whom the appeal is taken certifies to the board of adjustment, after the notice of appeal shall have been filed with him or her, that by reason of facts stated in the certificate, a stay would in his or her opinion cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by a restraining order granted by the board or by the court of proper jurisdiction on due and sufficient cause shown. (Prior code § 12-306)

Section 2.56.070 Interpretation.

A. The board shall interpret the text of the zoning regulations or the official zoning map upon an appeal from a determination of the building inspector after compliance with the procedural standards of Section 2.56.060 of this chapter.

B. Where a question arises as to the zoning district classification of a particular use, the board of adjustment, upon written request of the building inspector, may find and determine the classification of the use in question and may, prior to such determination, order the giving of notice and hold a public hearing. (Prior code § 12-307)

Section 2.56.080 Variances.

A. The board of adjustment, upon application, and after notice and public hearing, and subject to the procedural and substantive standards hereinafter set forth, may grant such variance from the terms of this code as will not cause substantial detriment to the public good or impair the spirit, purposes and intent of the city's zoning regulations, or the comprehensive plan, where by reason of exceptional narrowness, shallowness, shape, topography, or other extraordinary or exceptional situation, condition, or circumstance peculiar to a particular property, the literal enforcement of the zoning regulations will result in unnecessary hardship. The board shall not vary any jurisdictional requirement, such as notice, when it is required. The board shall not permit by variance a principal use not otherwise permitted in the applicable district, it being the expressed spirit and intent of the zoning regulations that a change of the permitted principal uses shall be made by ordinance amendment of the zoning code or official zoning map.

B. A request for a variance shall be initiated by the filing of an application with the city and shall be set for public hearing by the secretary in accordance with the rules established by the board.

C. The board shall hold the public hearing and, upon the concurring vote of three members, may grant a variance after finding:

1. That by reason of extraordinary or exceptional conditions or circumstances which are peculiar to the land, structure, or building involved, the literal enforcement of the terms of the zoning

Sand Springs Code of Ordinances

code would result in unnecessary hardship;

2. That such extraordinary or exceptional conditions or circumstances do not apply generally to other property in the same use district; and

3. That the variance to be granted will not cause substantial detriment to the public good or impair the purposes, spirit, and intent of the zoning code, or the comprehensive plan.

D. The board in granting a variance shall prescribe appropriate conditions and safeguards, and may require such evidence and guarantee or bond as it may deem necessary to enforce compliance with the conditions attached.

E. A variance which has not been utilized within two years from the date of the order granting the variance shall thereafter be void. For the purpose of this provision, utilization shall mean actual use or the issuance of a building permit, when applicable, provided construction is diligently carried to completion. (Prior code § 12-308)

Section 2.56.090 Special exceptions.

A. The board of adjustment, upon application, and after notice and public hearing, and subject to the procedural and substantive standards hereinafter set forth, may grant the following special exceptions:

1. Special exception uses as designated and regulated within the permitted use provisions of the zoning districts;

2. The change of a nonconforming use as provided in Section 13.03(6), Chapter 13, Nonconformities, in the zoning code;

3. The restoration of a partially destroyed structure containing a nonconforming use as provided in Section 13.03(7), Chapter 13, Nonconformities, in the zoning code;

4. The restoration of a partially destroyed nonconforming structure as provided in Section 13.06, Chapter 13, Nonconformities;

5. The modification of a screening requirement, as provided in Section 2.14, Chapter 2, District Provisions, General; and

6. Off-street parking use of property located within a residential district, when the property is abutting an office, commercial, or industrial district.

B. A request for a special exception shall be initiated by the filing of an application with the city and shall be set for public hearing by the secretary in accordance with the rules established by the board.

C. The board of adjustment shall hold the public hearing and, upon the concurring vote of three members, may grant the special exception after finding that the special exception will be in harmony with the spirit and intent of the zoning code, and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. The board in granting a special exception shall prescribe appropriate conditions and safeguards, and may require such evidence and guarantee or bonds as it may deem necessary to enforce compliance with the conditions attached.

D. A special exception which has not been utilized within two years from the date of the order granting same shall thereafter be void. For the purpose of this provision, utilization shall mean actual use or the issuance of a building permit, when applicable, provided construction is diligently carried to completion. (Prior code § 12-309)

Section 2.56.100 Appeals to the district court.

A. An appeal from any action, ruling, decision, judgment, or order of the board of adjustment may be taken by any person or persons aggrieved, or any taxpayer or officer, department, board, or bureau of the city to the district court, by filing with the City Clerk and with the secretary of the board within ten (10) days from the date of such action, a copy of the petition of appeal as filed in the

Sand Springs Code of Ordinances

district court of the county wherein the land is located, which shall specify the grounds of such appeal. No bond shall be required for such appeal unless ordered by the district court. Upon filing of the copy of the petition with the City Clerk, the City Clerk shall transmit to the court clerk of the county the original or certified copies of all the papers constituting the record in the case, together with the order, decision or ruling of the board. The case shall be heard and tried de nova in the district court of the county wherein the land is located. An appeal shall lie from the action of the district court as in all other civil actions. All issues in any proceedings under this section shall have preference over all other civil actions and proceedings. Costs shall not be allowed against the board unless it shall appear to the court that it acted with gross negligence or in bad faith, or with malice in making the decision being appealed.

B. An appeal to the district court stays all proceedings in furtherance of the action appealed unless the chairperson of the board certifies to the court clerk, after a copy of the petition of appeal is filed with the City Clerk, that by reasons of fact stated in the certificate, a stay would cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by a restraining order granted by the district court. (Prior code § 12-310)

A. This chapter became effective after approval of a majority of the registered voters of the city voting on the ordinance in the manner prescribed by Section 16-112 of Title 11 of the Oklahoma Statutes.

B. Ordinance 827 shall become and be effective on June 1, 1993, subject to approval of a majority of the registered voters of the City of Sand Springs, state of Oklahoma, voting on the same in the manner provided by law; provided that this ordinance shall be automatically repealed in its entirety on the date upon which the final payment of principal of the General Obligation Street Improvement Bonds of the city approved at an election held on May 11, 1993, is made to bondholders, and shall be of no further force and effect from and after that date. However, such automatic repeal shall not be construed so as to prevent any future ordinance of a similar nature from being submitted to a vote of the qualified electors of the City of Sand Springs either before or after such date of repeal. (Prior code § 7-106)

Section 3.04.070 Purpose of revenues.

A. It is the purpose of the first one-cent sales tax to provide revenues for the support of the functions of the municipal government of the city.

B. It is hereby declared to be the purpose of the second one-cent tax to provide revenues for the payment of sinking fund requirements of the City of Sand Springs Sewer Bonds of 1971 and payment of twenty-five thousand dollars (\$25,000.00) annually to the park and recreation program of the city. To that end from the first revenues derived herefrom, there shall be paid into the Sinking Fund for the City of Sand Springs Sewer Bonds of 1971 each month, a sum equal to one-twelfth (1/12th) of the annual Sinking Fund requirements for the bonds, sufficient to prevent the Sinking Fund from beginning a levy upon the taxable property within the city. Further, from the revenues derived herefrom, if sufficient funds remain after payment to the Sinking Fund of the City of Sand Springs Sewer Bonds of 1971 as first required hereunder, there shall be annually set over for park and recreation purposes the sum of twenty-five thousand dollars (\$25,000.00). Further, any and all revenues derived hereunder remaining may be expended by the governing body of the city for any purpose for which funds may be lawfully expended as authorized by the statutes of the state.

C. It hereby is determined to be in the best interest of the city and its citizens that all of the proceeds derived from the levy of the third one percent sales tax (pursuant to Ordinance 456) approved by the electors as aforesaid be appropriated to the trustees of the authority to enable the trustees to proceed with the construction and equipping of the utility system improvements aforesaid. There hereby is appropriated the proceeds to be derived from the one percent sales tax levied and collected by the city pursuant to Ordinance 456 to the trustees of the authority. Such proceeds so appropriated shall be utilized solely and only in the payment of the costs of operation and maintenance of and making capital improvements to the utility systems owned by the city and leased to the authority and for debt service on indebtedness incurred by the authority for such purposes. The mayor, City Clerk and City Treasurer are hereby authorized and directed, after having deposited the proceeds of the aforesaid one percent sales tax monthly, as received, in the general fund of the city to forthwith pay the necessary sum calculated at the rate aforesaid, to the trustees of the authority. A certified copy of this ordinance shall be delivered to each of the officials and shall constitute their continuing authority to make such monthly deposits and payments hereinabove directed.

D. It is hereby declared to be the purpose of Ordinance 827, levying a one-half percent tax,

Sand Springs Code of Ordinances

After such hearing, the City Council shall give written notice of its determination to the person against whom the tax is assessed and such determination shall be final. B. Cable Operator Response. Within thirty (30) days of receiving notice from the city a cable operator shall file with the city its current basic cable service rates and any supporting material concerning the reasonableness of those rates.

C. Expedited Determination and Public Hearing.

1. If the City Council is able to expeditiously determine that the cable operator's basic cable service rates are within the FCC's reasonable rate standard, as determined by the applicable benchmark, the City Council shall:

a. Hold a public hearing at which interested persons may express their views; and

b. Act to approve the basic cable service rates within thirty (30) days from the date the cable operator filed its basic cable service rates with the city;

2. If the City Council takes no action within thirty (30) days from the date the cable operator filed its basic cable service rates with the city, the proposed rates shall continue in effect;

D. Extended Review Period.

1. If the City Council is unable to determine whether the cable operator's basic cable service rates are within the FCC's reasonable rate standard based on the material before it, or if the cable operator submits a cost-of-service showing, the City Council shall, within thirty (30) days from the date the cable operator filed its basic cable service rates with the city and by adoption of a formal resolution, invoke the following additional periods of time, as applicable, to make a final determination:

a. Ninety (90) days, if the City Council needs more time to ensure that a rate is within the FCC's reasonable rate standard; or

b. One hundred fifty (150) days, if the cable operator has submitted a cost-of-service showing seeking to justify a rate above the applicable benchmark.

2. If the City Council has not made a decision within the ninety (90) or one hundred fifty (150) day period, the City Council shall issue a brief written order at the end of the period requesting the cable operator to keep accurate account of all amounts received by reason of the proposed rate and on whose behalf the amounts are paid.

E. Public hearing. During the extended review period and before taking action on the proposed rate, the City Council shall hold at least one public hearing at which interested persons may express their views and record objections.

F. Objections. An interested person who wishes to make an objection to the proposed initial basic cable service rate may request the council secretary record the objection during the public hearing or may submit the objection in writing any time before the decision resolution is adopted. In order for an objection to be made part of the record, the objector shall provide the council secretary with the objector's

Sand Springs Code of Ordinances

s name and address.

G. **Benchmark analysis.** If a cable operator submits its current basic cable service rate schedule as being in compliance with the FCC' s reasonable rate standard, the City Council shall review the rates using the benchmark analysis, in accordance with the standard form authorized by the FCC. Based on the City Council' s findings, the initial basic cable service rates shall be established as follows:

1. If the current basic cable service rates are equal to or below the benchmark, those rates shall become the initial basic cable service rates and the cable operator' s rates shall be capped at that level;

2. If the current basic cable service rates exceed the benchmark, the rates shall be the greater of the cable operator' s per channel rate on September 30, 1992, reduced by ten (10) percent, or the applicable benchmark, adjusted for inflation and any change in the number of channels occurring between September 30, 1992 and the initial date of regulation; or

3. If the current basic cable service rates exceed the benchmark, but the cable operator' s per channel rate was below the benchmark on September 30, 1992, the initial basic cable service rate shall be the benchmark, adjusted for inflation.

H. **Cost-of-Service Showings.** If a cable operator does not wish to reduce the rates to the permitted level, the cable operator shall have the opportunity to submit a cost-of-service showing in an attempt to justify a initial basic cable service rates above the FCC' s reasonable rate standard. The City Council shall review a cost-of-service submission pursuant to FCC standards for review. The City Council may approve initial basic cable service rates above the benchmark if the cable operator makes the necessary showing; however, a cost-of-service determination resulting in rates below the benchmark or below the cable operator' s September 30, 1992 rates minus ten (10) percent, shall prescribe the cable operator' s new rates.

I. **Decision.**

1. **By Formal Resolution.** After completion of its review of the cable operator' s proposed rates, the City Council shall adopt its decision by formal resolution. The decision shall include one of the following:

a. If the proposal is within the FCC' s reasonable rate standard or is justified by a cost-of-service analysis, the City Council shall approve the initial basic cable service rates proposed by the cable operator; or

b. If the proposal is not within the FCC' s reasonable rate standard and the cost-of-service analysis, if any, does not justify the proposed rates, the City Council shall establish initial basic cable service rates that are within the FCC' s reasonable rate standard or that are justified by a cost-of-service analysis.

2. **Rollbacks and Refunds.** If the City Council determines that the initial basic cable service rates, as submitted, exceed the reasonable rate standard or that the cable operator' s cost-of-service showing justifies lower rates, the City Council may order the rates reduced in accordance with subsection G, or H of this section, as applicable. In addition, the City Council may order the cable operator to pay to subscribers refunds of the excessive portion of the rates, with interest (computed at applicable rates published by the Internal Revenue Service for tax refunds and additional tax payments), retroactive to September 1, 1993. The method for paying any refund and the interest rate shall be in accordance with FCC regulations as directed in the City Council' s decision resolution; and

3. **Statement of Reasons for Decision and Public Notice.** If rates proposed by a cable operator are disapproved in whole or in part, or if there were objections made by other parties to the proposed rates, the resolution shall state the reasons for the decision and the City Council shall give public notice of its decision by publication of the council' s resolution, once, in a newspaper of general circulation within the corporate limits of the city.

A. Notice. A cable operator in the city who wishes to increase the rates for the basic cable service tier or associate equipment shall file a request with the city and notify all subscribers at least thirty (30) days before the cable operator desires the increase to take effect. This notice may not be given more often than annually and not until at least one year after the determination of the initial basic cable service rates.

B. Expedited Determination and Public Hearing.

1. If the City Council is able to expeditiously determine that the cable operator's rate increase request for basic cable service is within the FCC's reasonable rate standard, as determined by the applicable price cap, the City Council shall:

a. Hold a public hearing at which interested persons may express their views; and

b. Act to approve the rate increase within thirty (30) days from the date the cable operator filed its request with the city.

2. If the City Council takes no action within thirty (30) days from the date the cable operator filed its request with the city, the proposed rates shall go into effect.

C. Extended Review Period.

1. If the City Council is unable to determine whether the rate increase is within the FCC's reasonable rate standard based on the material before it, or if the cable operator submits a cost-of-service showing, the City Council shall, by adoption of a formal resolution, invoke the following additional periods of time, as applicable, to make a final determination:

a. Ninety (90) days, if the City Council needs more time to ensure that the requested increase is within the FCC's reasonable rate standard as determined by the applicable price cap; and

b. One hundred fifty (150) days, if the cable operator has submitted a cost-of-service showing seeking to justify a rate increase above the applicable price cap.

2. A proposed rate increase shall be tolled during any extended review period; or

3. If the City Council has not made a decision within the ninety (90) or one hundred fifty (150) day period, the City Council shall issue a brief written order at the end of the period requesting the cable operator to keep accurate account of all amounts received by reason of the proposed rate increase and on whose behalf the amounts are paid.

D. Public Hearing. During an extended review period and before taking action on the requested rate increase, the City Council shall hold at least one public hearing at which interested persons may express their views and record objections.

E. Objections. An interested person who wishes to make an objection to the proposed rate increase may request the council secretary to record the objection during the public hearing or may submit the objection in writing any time before the decision resolution is adopted. In order for an objection to be made part of the record, the objector shall provide the council secretary with the objector's name and address.

F. Delayed Determination. If the City Council is unable to make a final determination concerning a requested rate increase within the extended time period, the cable operator may put the increase into effect, subject to subsequent refund if the City Council later issues a decision disapproving any portion of the increase.

G. Price cap analysis: if a cable operator presents its request for a rate increase as being in compliance with the FCC's price cap, the City Council shall review the rate using the price cap analysis in accordance with the standard form authorized by the FCC. Based on the City Council's findings, basic cable service rates shall be established as follows:

1. If the proposed basic cable service rate increase is within the price cap established by the FCC, the proposed rates shall become the new basic cable service rates; or

2. If the proposed basic cable service rate increase exceeds the price cap established by the FCC, the City Council shall disapprove the proposed rate increase and order a basic cable service rate that

Sand Springs Code of Ordinances

is in compliance with the price cap.

H. Cost-of-Service Showings. If a cable operator submits a cost-of-service showing in an attempt to justify a rate increase above the price cap, the City Council shall review the submission pursuant the FCC standards for cost-of-service review. The City Council may approve a rate increase above the price cap if the cable operator makes the necessary showing; however, a cost-of-service determination resulting in a rate below the price cap or below the cable operator's then current basic cable service rate shall prescribe the cable operator's new rate.

I. Decision. The City Council's decision concerning the requested rate increase, shall be adopted by formal resolution. If a rate increase proposed by a cable operator is disapproved in whole or in part, or if objections were made by other parties to the proposed rate increase, the resolution shall state the reasons for the decision. Objections may be made at the public hearing by a person requesting the council secretary record the objection or may be submitted in writing at any time before the decision resolution is adopted.

b. The cable operator implemented the rate increase at the end of the extended review period; and

c. The City Council determines that the rate increase as submitted exceeds the applicable price cap or that the cable operator failed to justify the rate increase by a cost-of-service showing, and the City Council disapproves any portion of the rate increase.

Sand Springs Code of Ordinances

C. City Council Action. Requests which comply with the requirements of subsection B of this section shall be acted upon by the City Council. The City Council shall grant the request if the cable operator presents, by a preponderance of the evidence, a case for nondisclosure consistent with applicable federal regulations. If the request is granted, the ruling shall be placed in a public file in lieu of the information withheld from public inspection. If the cable operator does not establish a case for nondisclosure and the City Council denies the request, the City Council shall take one of the following actions:

1. If the information has been submitted voluntarily without any direction from the city, the cable operator may request that the city return the information without considering it. Ordinarily, the city will comply with such a request; however, when the public interest so requires, the information shall be made available for public inspection; or

2. If the information was required to be submitted by the City Council, the information shall be made available for public inspection.

D. Appeal. If the City Council denies the request for confidentiality, the cable operator may seek review of that decision from the FCC within five working days of the City Council's decision, and the release of the information shall be stayed pending review. (Prior code § 17-505)

Section 5.08.060 Automatic rate adjustments.

A. Annual Inflation Adjustment. In accordance with FCC regulations, the cable operator may adjust its capped base per channel rate for the basic cable service tier annually by the final gross national product price index.

B. Other External Costs.

1. FCC regulations allow the cable operator to increase its basic cable service rates automatically to reflect certain external cost factors to the extent that the increase in cost of those factors exceeds the gross national product price index. These factors include retransmission consent fees, programming costs, state and local taxes applicable to the provision of cable television service, and costs of permit or franchise requirements. The total cost of an increase in a permit or franchise fee may be automatically added to the base per channel rate, without regard to its relation to the gross national product price index; and

2. For all categories of external costs other than retransmission consent and franchise fees, the starting date for measuring changes in external costs for which the basic service per channel rate may be adjusted shall be the date on which the basic cable service tier becomes subject to regulation or February 28, 1994, whichever occurs first. The permitted per channel charge may not be adjusted for costs of retransmission consent fees or changes in those fees incurred before October 6, 1994.

C. Notification and Review. The cable operator shall notify the city at least thirty (30) days in advance of a rate increase based on automatic adjustment items. The city shall review the increase to determine whether the item or items qualify as automatic adjustments. If the city makes no objection within thirty (30) days of receiving notice of the increase, the increase may go into effect. (Prior code § 17-506)

Section 5.08.070 Enforcement.

A. Refunds. The city may order the cable operator to refund to subscribers a portion of previously paid rates under the following circumstances:

1. A portion of the previously paid rates have been determined to be in excess of the permitted tier charge or above the actual cost of equipment; or

2. The cable operator has failed to comply with a valid rate order issued by the city.

B. Fines. If the cable operator fails to comply with a rate decision or refund order, the cable operator shall be subject to punishment as provided in Section 1.20.010 of this code. (Prior code §

"Presumptive priority classification" means the designation by a system status controller (SSC) of a request for service as Priority 1, 2, 3, or 4, in accordance with telephone algorithms and priority dispatching protocols approved by the medical control board.

"Primary provider of emergency medical services" means a public or private ambulance service organization which has been designated by one or more governmental entities to provide emergency ambulance coverage throughout a defined geographic area.

"Priority" means the call priority number (i.e., Priority 1, 2, 3, or 4) assigned to every request for service received by an EMS control center. Such priorities shall be assigned only by a certified SSC, pursuant to telephone algorithms and priority dispatch protocols established by the medical director and approved by the medical control board. Classifications shall be consistent with the following definitions:

1. "Priority 1 call" means a presumptively classified life-threatening emergency call;
2. "Priority 2 call" means a presumptively classified nonlife-threatening emergency call;
3. "Priority 3 call" means a presumptively classified request for routine patient transport scheduled less than twenty-four (24) hours in advance of the requested time of pickup; and
4. "Priority 4 call" means a presumptively classified request for routine patient transport scheduled twenty-four (24) hours or more in advance of the requested time of pickup.

"Quality assurance fund" means the fund account which is established pursuant to the EMS interlocal cooperation agreement and, concurrently, by adoption of this chapter, and which is administered by EMSA on behalf of the medical control board, and which shall be used solely to fund the activities and related expenses of the medical control board in carrying out its duties and responsibilities as set forth herein and in the EMS interlocal cooperation agreement.

"Regional EMS system" means that network of organizations, individuals, facilities, and equipment which provides emergency medical services, as defined herein, to this jurisdiction and other jurisdictions within the regulated service area, subject to the system standard of care approved by the medical control board.

"Regulated service area" means the combined area which is contained within the boundaries of the municipalities and EMS districts which have adopted and agreed to enforce this chapter, and which have approved the EMS interlocal cooperation agreements.

"Response time--ambulance" means the actual elapsed time between receipt by the EMS control center of the "essential information" needed to initiate dispatch, and the arrival of a permitted ambulance or mutual aid ambulance (approved by the medical director) at the scene of the incident. For purposes of this provision, the "essential information" shall include location, callback number, chief complaint or nature of problem and, if the initial location information was obtained from a 911 data base, confirmation that the patient's location is the same as that of the caller, or the patient's actual location.

"Response time--first responder" means the actual elapsed time between notification of the first responder agency by the EMS control center that a first response unit is needed at a given location, and the arrival of a first response unit at the incident scene.

"Routine transport call" means a request for ambulance service by or for a patient whose apparent condition, at the time the call is received, presumptively meets the criteria for classification as Priority 3 or Priority 4, when classified in accordance with telephone algorithms and priority dispatch protocols approved by the medical control board.

"Special events ambulance standby service" means the positioning of an ambulance and crew at the location of a publicly or privately-sponsored event.

"System standard of care" means the written body of standards, policies, and protocols governing all clinical aspects of the EMS system, which is approved by the governing bodies of the beneficiary member jurisdictions, and which is developed and periodically updated in accordance with procedures set forth in the EMS interlocal cooperation agreement. As used in this context, system standard of care is a

Sand Springs Code of Ordinances

comprehensive term including:

1. Input standards includes but is not limited to personnel certification requirements, in-service training requirements, equipment specifications, on-board inventory requirements, and other requirements which the system must fulfill before receipt of a request for service;

2. Performance standards includes but is not limited to priority dispatching protocols and prearrival instructions, medical protocols, standing orders, response time standards, protocols governing authority for on-scene control of patient care, and other performance specifications describing how the system should behave upon receipt of a request for service; and

3. Outcome standards includes but is not limited to target survival rates for certain narrowly defined presenting problems or presumptive diagnoses, such as witnessed cardiac arrests involving patients whose medical histories meet defined criteria. Outcome standards are results the system intends to achieve by meeting its input and performance standards.

"System status controller (SSC)" means a person certified by the medical director as trained and competent to properly employ telephone algorithms, priority dispatching protocols, and prearrival instructions approved by the medical control board, and to operate the EMS control center's computer-aided dispatch system in accordance with the system status plan, so as to maintain the best possible ambulance coverage of the regulated service area, given the remaining resources available at any point in time.

"System status plan" means the plan and protocols for staffing, deployment, and redeployment of ambulances which is developed and utilized by an ambulance service, and which specifies how many ambulances will be staffed and available within the regulated service area each hour of the day, each day of the week, including the locations of available ambulances (not assigned to calls) within the regulated service area, specified separately for each hour of the day, for each day of the week, at every remaining number of ambulances then available in the system, and including protocols for event-driven redeployment of those remaining ambulances.

"Western division" means that portion of the regulated service area which is located west of Stroud, and which may include the city of Stroud subject to requirements set forth in the EMS interlocal cooperation agreement.

"Zone" means that geographic area extending twenty-five (25) miles outward from the legal boundary of each jurisdiction which is located within the regulated service area. (Prior code § 9-501)

Section 8.04.020 Medical director.

The medical director shall be appointed by the medical control board as provided for in the EMS interlocal cooperation agreement; and shall recommend a system standard of care designed to achieve a state-of-the-art quality of emergency medical care within the regulated service area; and shall have those powers and duties granted and ascribed to him or her in the EMS interlocal cooperation agreement, plus such additional powers and duties as are granted and ascribed to him or her herein. (Prior code § 9-502)

Section 8.04.030 Medical control board.

The medical control board is hereby designated as the elected representatives constituting the board of directors of the EPF. Its members shall be appointed by the emergency physicians foundation as provided for in the EMS interlocal cooperation agreement. The medical control board shall be the policy-making, rule-making, and fact-finding body of the EPF, and shall review and establish all aspects of the system standard of care; and shall have those powers and duties granted and ascribed to it in the EMS interlocal cooperation agreement. (Prior code § 9-503)

Section 8.04.040 Emergency physicians foundation (EPF).

Sand Springs Code of Ordinances

The emergency physicians foundation, acting through its appointed medical control board, is established, concurrently herewith, by adoption of the EMS interlocal cooperation agreement as the administrative agency to oversee clinical aspects of the care rendered by the regional EMS system to the citizens of the regulated service area. The EPF shall have the powers and duties granted and ascribed to it in the EMS interlocal cooperation agreement. (Prior code § 9-504)

Section 8.04.050 Emergency medical services authority (EMSA).

Because experience has shown that regulation alone does not guarantee the reliable availability of quality ambulance services, EMSA is hereby authorized and directed to take such steps as are necessary to ensure the availability of both emergency and routine ambulance services within the regulated service area beginning upon the effective date of this chapter, subject to the following requirements:

A. EMSA shall at all times comply with the terms of: the EMS interlocal cooperation agreement, the amended and restated trust indenture, this chapter, and all other applicable laws, rules, and regulations;

B. Except during emergencies as provided by law, EMSA shall at all times employ a competitively-selected operations contractor who shall operate the EMS control centers (Eastern and Western Divisions) and directly provide all ambulance services rendered under EMSA's trade name;

C. In contracting for the provision of ambulance services, EMSA shall employ such bidding processes and contracting methods as are reasonable and effective in ensuring the uninterrupted and reliable delivery of quality ambulance service to the citizens of the regulated service area;

D. All services provided by EMSA through its operations contractor or, in the event of an emergency directly by EMSA, shall meet or exceed the standards set forth herein and in the system standard of care, as approved and periodically updated by the medical control board; and

E. Within one hundred twenty (120) days after the effective date of this chapter, EMSA shall require its operations contractor to apply for, obtain and maintain throughout the term of its contract an emergency ambulance service license and routine transport ambulance service license; provided, however, that such licenses issued to the operations contractor shall be restricted solely to the delivery of services rendered in its capacity as subcontractor to EMSA, and under EMSA's state EMS license. (Prior code § 9-505)

Section 8.04.060 Mandatory centralized call processing.

A. All telephone requests for ambulance services, both emergency and routine, originating within the regulated service area shall terminate at an EMS control center designated by the medical director, where a certified system status controller (SSC) shall establish the call's priority classification, determine the patient's location, and if appropriate, deliver prearrival instructions. The SSC shall also determine the need for first responder service; alert the first responder agency if appropriate; determine the ambulance service to which the call shall be allocated; and transfer the required information to that ambulance service, or directly dispatch the call, if that ambulance service has so directed.

B. It shall be unlawful for any ambulance service to publish or advertise a telephone number for the purposes of soliciting requests for emergency ambulance service, except the emergency number (911) of the EMS control centers. It shall also be unlawful for any ambulance service to publish or advertise a telephone number for the purposes of soliciting routine transport calls, except telephone numbers which terminate at an EMS control center.

C. If multiple ambulance services are simultaneously licensed hereunder, the allocation of emergency calls among the multiple ambulance services shall be in accordance with "nearest unit" dispatch protocols approved by the medical control board. Routine transport calls shall be allocated to ambulance service whose service is requested by the caller. If no preference is stated, routine transport calls shall be allocated to the operations contractor.

Sand Springs Code of Ordinances

D. For any provider receiving centralized dispatch services from the EMS control centers, the control centers shall prepare a quarterly analysis of the EMS control centers' average cost per run dispatched, using generally accepted accounting principles (GAAP), and shall bill to each ambulance service the actual average cost of such dispatches to the ambulance service, and each ambulance service shall make payment to the control centers within thirty (30) days after receipt of the billing, as a condition of maintenance of the ambulance service's license in good standing. Failure to pay within thirty (30) days shall result in the immediate suspension of such license, which suspension shall remain in effect until full payment is made.

E. During times of disaster or severe EMS system overload, declared by the medical director or his or her designee, the EMS control center shall at all times have full authority to direct the positioning, movements, and run responses of all ambulance units of all ambulance services until such time as the declaration has been lifted.

F. All calls processed by an EMS control center shall be recorded to facilitate subsequent auditing of the SSC's actions and decisions by the medical director, and all such recordings shall be safely stored and shall be erased after an appropriate interval or as provided by law. (Prior code § 9-506)

Section 8.04.070 Mandatory EMS data system and reporting standards.

A. As a condition of maintaining its license in good standing, each ambulance service, and every certified first responder agency, shall comply with EMS data system and reporting standards as prescribed by the medical director; provided, however, that changes in data collection or reporting requirements which may reasonably be expected to require costly modification of existing computer hardware or software shall be approved by EMSA prior to implementation.

B. Failure to comply with data system and reporting requirements, or to keep the EMS control center completely informed concerning the location and status of all ambulance units at all times, or failure to carry out EMS control center directives shall constitute grounds for immediate suspension or revocation of the ambulance service license. (Prior code § 9-507)

Section 8.04.080 Insurance requirements.

A. Each ambulance service shall keep in full force and effect a policy or policies of public liability and property damage insurance, issued by a casualty insurance company authorized to do business in the state, with coverage provisions insuring the public from any loss or damage that may arise to any person or property by reason of the operation of the ambulance service's ambulance, and providing that amount of recovery shall be in limits of not less than the following sums:

1. For the damages arising out of bodily injury to or death of one person in any one accident, not less than five hundred thousand dollars (\$500,000.00);
2. For damages arising out of bodily injury to or death of two or more persons in any one accident, not less than one million dollars (\$1,000,000.00); and
3. For any injury to or destruction of property in any one accident, not less than five hundred thousand dollars (\$500,000.00).

B. Each ambulance service shall keep in full force and effect a general comprehensive liability and professional liability policy or policies issued by a casualty insurance company authorized to do business in the state, with coverage provisions insuring the public from any loss or damage that may arise to any person or property by reason of the actions of the ambulance service or any of his or her employees, and providing that the amount of recovery shall be in limits of not less than three million dollars (\$3,000,000.00).

C. Each ambulance service shall furnish, prior to issuance of its license, an original and duplicate certificates of insurance which shall indicate the types of insurance, the amount of insurance and the expiration dates of all policies carried by the ambulance service. Each certificate of insurance shall

Sand Springs Code of Ordinances

name this jurisdiction as an additional named insured, and shall contain a statement by the insurer issuing the certificate that the policies of insurance listed thereon will not be cancelled or materially altered by the insurer absent thirty (30) days written notice received by this jurisdiction.

D. Cancellation or material alteration of a required insurance policy or coverage shall automatically revoke the ambulance service's license, and the ambulance service shall thereupon cease and desist from further ambulance service operations. (Prior code § 9-508)

Section 8.04.090 Ambulance service license required.

A. No person may provide ambulance services in response to a request for emergency ambulance transport originating within the regulated service area without first obtaining an emergency ambulance service license issued pursuant to the provisions of this chapter, except for those uses exempted in subsection B of Section 8.04.160.

B. No person may provide routine transport ambulance services in response to a request for routine transport originating within the regulated service area without first obtaining a routine transport ambulance service license issued pursuant to the provisions of this chapter, except for those uses exempted in subsection B of Section 8.04.160.

C. No person may provide special events ambulance standby service within the regulated service area without first obtaining an emergency ambulance service license issued pursuant to the provisions of this chapter.

D. No license shall be issued, and no license application shall be processed, unless the applicant has paid a license application processing fee payable to the quality assurance fund in the amount of five hundred dollars (\$500.00), and no license shall be continued in good standing unless the holder is current in its obligations to pay the medical quality assurance fee for the right to engage in the ambulance business within the regulated service area, as provided for in subsection E of this section.

E. Every holder of an emergency ambulance service license, routine transport ambulance service license, or specialized mobile intensive care permit, probationary or other, shall, as a condition of maintaining its license or permit in good standing, pay a medical quality assurance fee of three dollars (\$3.00) per each patient transported by the holder from a location within the regulated service area. Such fee shall be paid to the quality assurance fund of the medical control board, and shall be paid for all transports made during each calendar month within thirty (30) days after the end of the month. Beginning the month of January 1993, such three dollars (\$3.00), amount shall be increased annually by the same percentage as the increase, if any, in the consumer price index over the most recent twelve (12) month period for which published statistics are then available.

F. No license or permit shall be assignable or transferable by the person to whom issued except as herein provided.

G. No transfer or assignment of existing licenses or permits shall be effective absent the recommendation of the licensing officer and approval of the medical control board.

H. Any transfer of shares of stock or interest of any person or ambulance service so as to cause a change in the directors, officers, shareholders, or managers of such person or ambulance service shall be deemed a transfer or assignment, subject to these provisions.

I. This jurisdiction has elected to become a member jurisdiction, as defined herein, in order to obtain for its citizens the following advantages over monojurisdictional EMS regulation: Improved economies of scale and cost containment; shared access to EMS resources superior in quality, quantity, and economic stability to those obtainable under monojurisdictional regulation; more aggressive periodic bid competition among better qualified bidders for the right to serve this jurisdiction as part of more economically desirable EMS market, pursuant to EMSA's competitively-awarded operations contract; and, access to disaster response capabilities superior to those which would otherwise be available to the citizens of this jurisdiction. To achieve and preserve these advantages of multijurisdictional EMS regulation, all licenses, certifications, and permits issued by the licensing officer pursuant to this chapter

Sand Springs Code of Ordinances

shall be valid throughout the entire regulated service area.

J. Except in regard to licenses and permits issued to the operations contractor, who shall operate solely as a subcontractor to EMSA and under EMSA's state EMS permit, the issuance of any ambulance service license by the license officer shall be made only to an ambulance service holding a valid state emergency permit, and such issuance by the licensing officer shall be conditioned upon recommendation by the medical control board, based upon the following items:

1. A proforma system status plan which shall describe the applicant's coverage plan for the entire regulated service area by time-of-day and day-of-week, and which shall include post locations and priorities, and which shall demonstrate a reasonable probability that the applicant, if licensed, will meet or exceed all required levels of response time reliability required hereunder throughout all parts of the regulated service area;

2. A proforma internal medical quality assurance plan, which shall describe applicant's medical quality assurance program, and demonstrate a reasonable probability that the applicant, if licensed, will deliver medical care meeting the system standard of care, as recommended by the medical control board;

3. A proforma staffing plan which shall result in all ambulances operating within the regulated service area being equipped and staffed to operate at the then-applicable level or levels of clinical capability;

4. Evidence of insurance, as required in Section 8.04.080 of this chapter; and

5. Valid permits for each EMS vehicle and EMS personnel as indicated in the proforma staffing and system status plans.

K. Upon approval by the medical control board of the applicant's submission, the licensing officer shall issue a probationary emergency ambulance license valid for a period of six months. Such probationary license shall allow applicant to respond, from the effective date of the probationary license, to emergency calls originating within the regulated service area.

L. Each holder of a probationary license shall fully comply with its proforma system status plan, as approved by the medical control board, from the effective date of its probationary license, unless a change in the plan to correct response time deficiencies is proposed by the holder of the probationary license, and approved by the medical director.

M. During the six month probationary period, the applicant's response time performance and clinical quality of care shall be carefully evaluated by the medical director. If performance is consistently and substantially within the proforma plans, and in compliance with the requirements of this chapter, such probationary emergency ambulance service license shall become a valid emergency ambulance service license, renewable annually upon continual compliance with this chapter.

N. After the probationary period, chronic failure to comply with response time standards or clinical quality of care requirements or data and reporting requirements shall be grounds for revocation of the emergency ambulance service license.

O. If any ambulance service's emergency ambulance service license is suspended three times within any three-year period for failure to make required payments under subsection E of this section, such license shall be automatically revoked, upon the third event.

P. Any holder of a valid emergency ambulance service license issued pursuant to this chapter shall, upon application to the medical control board, be issued a routine transport ambulance service license to transport Priority 3 and 4 patients from locations within the regulated service area, and such license shall be valid so long as the emergency ambulance service license remains in effect, and shall automatically expire upon the expiration, suspension, or revocation of the emergency ambulance service license. (Prior code § 9-509)

Section 8.04.100 Specialized mobile intensive care permits.

Any hospital, or ambulance service licensed hereunder, shall be eligible to apply to the medical

Sand Springs Code of Ordinances

control board for a permit to operate a specialized mobile intensive care unit, which unit shall be used solely for interhospital transport of patients requiring specialized enroute medical monitoring and advanced life support which exceed the capabilities of the equipment and personnel on board a paramedic ambulance. Such special permits shall be issued for a period of two years. Failure by the holder of such permit to limit the vehicle to interhospital transports of the types of patients specified within the permit shall constitute grounds for revocation of the permit. (Prior code § 9-510)

Section 8.04.110 Clinical quality of ambulance services.

Upon the effective date of this chapter, every ambulance responding to a Code 1, 2, 3, or 4 call at any location within the Eastern Division of the regulated service area shall be equipped, staffed, and licensed to operate at the EMT-Paramedic level; and every ambulance responding to a Code 1, 2, 3, or 4 call at any location within the Western Division of the regulated service area shall be equipped, staffed, and licensed to operate at the EMT-Paramedic level, or at the EMT-Intermediate level. Not later than eighteen (18) months after the effective date of this chapter, every ambulance responding to a Code 1, 2, 3, or 4 call at any location within the regulated service area shall be equipped, staffed, and licensed to operate at the EMT-Paramedic level. (Prior code § 9-511)

Section 8.04.120 Ambulance response time performance required.

A. Every ambulance service, as a condition of obtaining and maintaining its license, shall employ sufficient personnel, acquire sufficient equipment, and manage its resources as necessary to achieve the following response time standards on all emergency calls and routine transport calls originating within the regulated service area and received by the ambulance service, or referred to the ambulance service by an EMS control center:

1. Eastern Division Response Time Standards. On the effective date of this chapter, subject to the exemptions set forth in subsection D of this section, the following standards of response time reliability shall be applicable to all patient transports originating from within each member jurisdiction of the Eastern Division of the regulated service area:

a.	Priority 1 standard	90% reliability or better;
b.	Priority 2 standard	90% reliability or better;
c.	Priority 3 standard	90% reliability or better; and
d.	Priority 4 standard	90% reliability or better.

2. Western Division Response Time Standards. On the effective date of this chapter, subject only to the exemptions set forth in subsection D of this section, the same standards of response time reliability as are applicable to Priority 3 and 4 patient transports originating within the Eastern Division shall also be applicable to all Priority 3 and 4 patient transports originating within the Western Division of the regulated service area. However, to allow reasonable opportunity to upgrade emergency response time reliability in the Western Division to the level required in the Eastern Division prior to adoption of this chapter, the following schedule of response time improvement shall apply:

a. On the effective date of this chapter, each ambulance service shall meet Priority 1 and 2 response time standards on not less than fifty (50) percent of all such calls originating with each member jurisdiction of the Western Division;

b. Beginning the fourth month after the effective date of this chapter, each ambulance service shall meet Priority 1 and 2 response time standards on not less than sixty (60) percent of all such calls originating with each member jurisdiction of the Western Division;

c. Beginning the seventh month after the effective date of this chapter, each ambulance service shall meet Priority 1 and 2 response time standards on not less than seventy (70) percent of all

Sand Springs Code of Ordinances

such calls originating with each member jurisdiction of the Western Division;

d. Beginning the nineteenth month after the effective date of this chapter, each ambulance service shall meet Priority 1 and 2 response time standards not less than eighty (80) percent on all such calls originating with each member jurisdiction of the Western Division;

e. Beginning the twenty-fifth month after the effective date of this chapter, each ambulance service shall meet Priority 1 and 2 response time standards on not less than ninety (90) percent of all such calls originating with each member jurisdiction of the Western Division, i.e., the same standard as the Eastern Division standard for Priority 1 and 2 calls;

3. Special Response Time Standards. Those standards of response time reliability which are specified in subsections 1 and 2 immediately above shall be applicable throughout the respective divisions of the regulated service area unless specifically amended by separate ordinance by a given jurisdiction which, because of location or other barriers to efficient service delivery, is unable to obtain the standard levels of response time reliability for that jurisdiction at a user-fee schedule or subsidy level acceptable to that jurisdiction. Such amended response time standards, if adopted by separate ordinance, shall be applicable only within that jurisdiction, and shall not affect response time requirements in any other portion of the regulated service area.

B. Response time performance measurement for each ambulance service shall be calculated, maintained, and reported on a monthly basis for each member jurisdiction separately. Provided, however, that for jurisdictions experiencing low call volumes, monthly response time data shall be accumulated for reporting when the data from not less than seventy-five (75) emergency calls are available for inclusion in response time performance calculations.

C. Within the cities of Tulsa and Oklahoma City, response time performance shall also be measured separately for each ward or councilmanic district, on all Priority 1 and 2 calls. A chronic pattern of response time discrimination against any ward or district, as determined by the medical control board, shall be a violation of this section and may, subject to notification and reasonable opportunity to correct the deficiency, constitute grounds for suspension or revocation of the emergency ambulance service license.

D. In the event of an onset of such inclement weather that the medical director or his or her designee, in his or her sole discretion, believes that the threat to system-wide patient care in attempting to comply with response time standards outweighs the threat to individual patient care from a delayed response, the medical director or his or her designee may declare a weather emergency in either or both divisions of the regulated service area, thus suspending these response time requirements until the declaration is lifted. During such periods, all ambulance services shall use best efforts to provide maximum safe coverage throughout the entire regulated service area. Runs made to calls originating from within a division in which a weather emergency has been declared shall be excluded from response time calculations until the declaration has been lifted. A weather emergency will be declared only in times of unusual and extremely hazardous driving condition, such as ice storms, freezing drizzle, extensive flooding, thick fog or similarly dangerous or impassible road conditions.

E. The medical control board may, at its option, establish recommended response time standards for certified first responder agencies. Response times of certified first responder agencies shall be measured and reported to each member jurisdiction. However, no mandatory requirements for response time performance shall be applicable to first responder agencies, except as may be adopted by each member jurisdiction separately. (Prior code § 9-512)

Section 8.04.130 Prohibition against refusal to transport.

It shall be a violation of this chapter for any ambulance service to fail to respond to a call or to transport or to render emergency medical patient assessment and treatment, as appropriate, or to otherwise refuse or fail to provide any ambulance services originating within the regulated service area because of the patient's perceived, demonstrated or stated inability to pay for such services, or because of the

Sand Springs Code of Ordinances

location of the patient within the regulated service area or because of the unavailable status or the location of any ambulance unit at the time of the request. Chronic violation of this provision, as determined by the medical control board, shall be grounds to revoke the emergency ambulance service license. (Prior code § 9-513)

Section 8.04.140 First responder agency certification.

Within eighteen (18) months after the effective date of this chapter, every first responder agency responding to calls within this jurisdiction shall qualify for issuance of a valid first responder agency certification issued by the licensing officer of the appropriate division. (Prior code § 9-514)

Section 8.04.150 Procedures for denial, revocation or suspension of a permit.

For any proposed denial, suspension or revocation of a permit of either a permitted provider or a certified EMS personnel operating within the regulated service area, the following standards, which shall not be less than those standards contained in the Health Care Quality Improvement Act of 1986, 42 U.S.C. 11112, or less than any standards contained in applicable Oklahoma Statutes or applicable Oklahoma case law, shall apply. Such procedures in any event, shall contain at least the following:

A. Written notice of the charges pending against the provider or EMS personnel whose license or certification may be suspended or revoked;

B. A right to an appeal, requested in writing within thirty (30) days of any adverse action by the medical director to the medical control board;

C. The right to a de novo hearing on any adverse action by the medical control board conducted by an impartial and independent hearing officer, including a right to cross-examine witnesses, and to present witnesses and evidence on the person's own benefit, provided such hearing is requested in writing within thirty (30) days; and

D. A right to an appeal, referred to in subsection C of this section, of any adverse action by the hearing officer to the governing body of the beneficiary jurisdiction designated to hear such appeal by the hearing officer who conducted the preceding hearing. (Prior code § 9-515)

Section 8.04.160 Violations.

A. It shall be unlawful and an offense for any person to commit any of the following acts:

1. To perform duties as an ambulance driver, attendant (EMT-Basic, Intermediate, or Paramedic), system status controller, or certified first responder without a current valid certification issued pursuant to this chapter, or for any EMT, EMT-D, EMT-Intermediate, or EMT-Paramedic to seek or accept medical direction by radio contact from anyone who is not a certified base station physician, as defined herein;

2. To allow any person to work as an ambulance driver, attendant or dispatcher without a current valid certification issued pursuant to this chapter;

3. To use, or cause to be used, an ambulance service other than an ambulance service holding a valid license issued pursuant to this chapter, except for those services described in subsection B of this section;

4. For any person, firm or organization to respond to emergency calls originating within the regulated service area, other than an ambulance service which is a holder of a valid emergency ambulance service license issued pursuant to this chapter;

5. For any person, firm or organization to provide rescue helicopter service to emergency incidents within the regulated service area, other than a rescue helicopter service which is a holder of a valid rescue helicopter service license issued pursuant to this chapter;

6. For any person, firm or organization to respond to routine transport calls originating

Sand Springs Code of Ordinances

within the regulated service area, other than an ambulance service which is a holder of a valid routine transport ambulance service license issued pursuant to this chapter; or

7. To knowingly give false information to induce the dispatch of an ambulance, first responder unit, or helicopter rescue unit.

B. It shall not be a violation of this chapter, and no emergency or routine transport license shall be required if the vehicle or ambulance is:

1. A privately owned vehicle not used in the business of transporting patients who are sick, injured, wounded, incapacitated or helpless;

2. A vehicle rendering services as an ambulance in the event of a major catastrophe or emergency when ambulances with permits based in the locality of the catastrophe or emergency are incapacitated or insufficient in number to render the services needed;

3. An ambulance owned or operated by, or under contract with, the federal or state government;

4. An ambulance transporting a patient to a location within the regulated service area, which transport originated from a point outside the regulated service area;

5. An ambulance responding to a call pursuant to a mutual aid agreement with the holder of a valid emergency ambulance service license issued pursuant to this chapter;

6. A vehicle engaged in a routine transport call to transport a patient from a hospital, nursing home or free-standing dialysis center (i.e., a dialysis center not located on hospital grounds) which is located within the regulated service area to any jurisdiction outside the regulated service area (the "receiving jurisdiction"), if the receiving jurisdiction allows any ambulance service licensed hereunder to lawfully engage in routine transport calls to transport patients from hospitals, nursing homes, and free-standing dialysis centers located within that receiving jurisdiction to destinations within the regulated service area;

7. A vehicle engaged in a routine transport call to transport a patient from a hospital, nursing home, or free-standing dialysis center located within the regulated service area to any unincorporated area;

8. A vehicle engaged in a routine transport call to transport a patient from a hospital, nursing home, or free-standing dialysis center located within the regulated service area to any point outside the regulated service area and the zone;

9. A vehicle engaged in a routine transport call to transport a patient from a hospital, nursing home, or free-standing dialysis center located in either the Eastern or Western Division of the regulated service area, to a destination in the other division of the regulated service area; or

10. A vehicle engaged in the interstate transport of a patient. (Prior code § 9-516)

Section 8.04.170 Penalties.

A. Any person convicted of violating any of the provisions of this chapter shall be punished by a fine of not to exceed one hundred dollars (\$100.00).

B. Each day that any violation of the provisions of this chapter is committed or permitted to continue shall constitute a separate offense. (Prior code § 9-517)

Oil and gas drilling within the corporate limits of the City of Sand Springs is hereinafter prohibited and it shall be an offense for any person or his agent, servant or employee to hereafter drill or produce or cause to be drilled or produced, any oil or gas or to perform any work or labor of any kind upon or in connection with the drilling or producing of oil or gas products; however, it shall not be an offense to do either of the above under the following conditions:

- A. When the operation or maintenance of any oil or gas or mining operation was being lawfully carried on before the effective date of this ordinance; or
 - B. When the cleaning out or plugging of oil or gas wells has been determined necessary, by resolution or ordinance of the City of Sand Springs, to be in the best interest of the public health, safety and welfare.
2. Any violation of this ordinance shall be punishable pursuant to Chapter 1.20 of the Code of Ordinances of the City of Sand Springs.

(Prior code § 5-1002)

Section 8.40.030 **All future drilling to be regulated.**

In order to protect areas of this city which have been developed or are planned to be developed in the future, in which drilling operations and production of oil, gas and other hydrocarbons are to be carried on, such operations are hereby regulated in order to protect the character of these areas from the inherent

Sand Springs Code of Ordinances

hazards of these operations and to provide protection from noise, congestion, heavy traffic and encourage a suitable environment for people, their homes, businesses, schools and parks. (Prior code § 5-1003)

However, the City Council may permit the depositing, placing or discharging of mud or slush in such places as they may approve or into pipelines properly approved by the City Council. Section 8.40.180 Inspection of site, waste, weeds, grass.

The building official shall check each well location within the corporate limits of the city to see that each is kept clean, and that all papers, trash and other flammable waste is picked up and removed. Sufficient quantities of shale or rock shall be in place to keep down weeds and provide a driving surface which will allow no dirt or mud to be left on public streets. The building official shall also check each well location to see that all grass or weeds, which in the judgment of the inspector constitute a fire hazard or a public nuisance, are removed. (Prior code § 5-1018)

Sand Springs Code of Ordinances

Section 8.40.190 Permit fee.

There is hereby provided a first year annual inspection fee of six hundred dollars (\$600.00) per well and two hundred fifty dollars (\$250.00) thereafter per annum per well for the purpose of reimbursing the city for annual expenses in conducting the well inspections that are herein set forth and incident thereto. (Prior code § 5-1019)

Section 8.40.220 Cleanup of site if well abandoned.

In the event of abandoning operation because of failure of the well or wells to produce oil or gas in paying quantities, it is the duty of every person, firm, corporation, or lessee owning any oil or gas well within the corporate limits of the city, and of the officers, agents and employees of such owners, to begin to remove all derricks, machinery, concrete foundations and any and all other objects that interfere with the leveling of the land, and to grade, level and restore the property to the same surface condition as nearly as possible as when the oil or gas well thereon was first commenced. The cleanup to begin within thirty (30) days from the day of such abandonment and to continue in a workmanlike manner which shall not exceed sixty (60) days. (Prior code § 5-1022)

The City Manager or his or her designee may shut down the drilling or production of any oil and gas wells which are an immediate threat to the public safety and may also shut down the wells for violation of this chapter which are not corrected in a twenty-four (24) hour period after verbal notice to the operator of the particular violation involved. A written log of such communications will be on file. (Prior code § 5-1025)

Section 8.40.260 Penalty.

Any person, company or other business entity violating any of the provisions of this chapter or causing or permitting the same to be done, shall be deemed guilty of an offense and upon conviction thereof shall be punished as provided in Section 1.20.010 of this code. Each day of violation shall be deemed a separate offense under this chapter. (Prior code § 5-1026)

Section 8.40.270 Fire hazards/gasoline prohibited near wells.

No gas or gasoline vapor in sufficient quantity to constitute a fire hazard shall be allowed to accumulate within a radius of one hundred (100) feet from any oil and gas well and the determination of the gas or vapor being in sufficient quantity to constitute a fire hazard shall be at the sole discretion of the city. (Prior code § 5-1027)

Section 8.40.280 Casing and pipe to be securely anchored.

Each string of casing or pipe within any well (except the outside surface casing) shall have the fitting thereon securely anchored to the casing immediately enclosing it. The provisions of this section in regard to requiring two master gates and the stems and valves used in connection with the master gates shall not apply to wells which are on artificial lift or on pump. It is the duty of the building official to see that the provisions of this section are in compliance. (Prior code § 5-1028)

Section 8.40.290 Mud weighted for deep drilling.

Drilling below three thousand (3,000) feet shall be done with mud weighing at least 8.8 pounds per gallon. The hole should be kept full at designated weight at all times until the producing sand is reached. The mud shall be weighted at such intervals as may be determined by the inspector. When withdrawing the drill pipe, pipe shall be filled with mud after each eleven (11) stands have been withdrawn. Drilling the producing oil sand, however, may be done with oil in lieu of mud; provided, however, that if the oil is in circulation such oil shall not be over 30-B gravity with a flash point of not less than three hundred fifty (350) degrees Fahrenheit and after being so used shall be by the operation turned into a circulating tank instead of into the pits. If, at any time, the weight of such mud shall be less than specified herein, the building official of the city shall have the right to suspend drilling and all operations in or about such well until the weight of such mud shall comply herewith or the conditions of the oil shall be made to comply with the provisions of this chapter. (Prior code § 5-1029)

Section 8.40.300 Slush pits permitted, filled in.

Oil and gas wells drilled in the city may use slush pits constructed to prevent pollution of the surrounding land surfaces with the consent of the City Council. Within three months after any oil and gas well within the limits of the city shall have been completed for production of oil or gas, or within three months after the same shall have been completed in cases where the same is abandoned for the reason that

Sand Springs Code of Ordinances

A. All earthen pits shall be above the one hundred (100) year floodplain or properly diked above the one hundred (100) year floodplain with a dike which is sufficient to repel floodwater. Prior to the commencement of any drilling operation, an artificial barrier shall be constructed completely surrounding the well site no closer than fifty (50) feet from the well bore. The top of the artificial portion of the barrier to be constructed down drainage from the well shall be level at all points, at a height of no less than two feet above the ground level at the well bore, in order that any deleterious matter from the well or operations thereon would be trapped and stored before such matter can enter the natural drainage of the area. An adequate diversion ditch or dike shall be constructed across and around the uphill edge of the well site so that no surface drainage water can enter the area of the well location.

B. Any valve in the barrier shall be kept closed at all times. Any fluid trapped within the well site shall be pumped into steel tanks for storage and removal. The gate in the barrier may be temporarily opened under supervised conditions for rainwater drainage, and then only if it can be demonstrated that such rainwater has not been contaminated with oil, chemicals, salt or any other deleterious substances. (Prior code § 5-1031)

Section 8.40.320 Reserve pits.

Reserve pits shall be constructed within the barrier or as an alternative, drilling mud operations may be conducted in steel tanks inside the barrier which tanks shall be removed from the property immediately upon completion of the well. (Prior code § 5-1032)

Conductor casing shall be set a minimum of fifty (50) feet or to any greater depth required to penetrate the overlying alluvium, and thirty (30) feet into the red beds. The conductor hole shall be drilled with air or fresh water and native mud. No chemicals or foreign substances are to be added to the drilling fluid and cement shall be circulated to the surface. (Prior code § 5-1033)

Section 8.40.340 Surface casing holes, allowable substances.

The surface casing holes shall be drilled with air or fresh water using native mud or near location mud. Chemically inert substances such as bentonite, barite, or lost-circulation material may be added to the fluid system as long as testing of the fresh water filtrate from a solution of the added material remains inert and of a nonpolluting nature. (Prior code § 5-1034)

Section 8.40.350 Centralizers, setting of cement.

Centralizers shall be placed near the base of the shoe joint, and at least every sixty (60) feet above that depth to the surface, in order to assure a good cement sheath. Cement shall be circulated to surface and allowed to set at least twenty-four (24) hours before reentering the well bore. (Prior code § 5-1035)

Section 8.40.360 Affidavit of well operator as to drilling, setting of well.

The operator shall certify by written affidavit that the well has been set according to good engineering practices. Such affidavit shall stipulate the number of sacks of cement, the class of cement,

Sand Springs Code of Ordinances

blended materials, weight of cement in pounds per gallon, cement displacement pressure, and final pumping pressure. Certification shall also stipulate whether check valves (float shoes, float collar) held the pressure. Beginning and ending times of the operation shall be stipulated. The form shall be completed by a cementing service company, signed by both the operator and the cementing service operator. (Prior code § 5-1036)

Section 8.40.370 Blowout preventer required.

A blowout preventer shall be installed on the surface casing prior to drilling below the casing shoe. The preventer shall be tested to assure it is in good working order and drilling or working over the well shall cease if the preventer is inoperative. (Prior code § 5-1037)

Section 8.40.380 Separators for oil and gas, requirements.

Separators shall be used at each well to adequately care for the output of the well, or both oil and gas without spraying oil through the separator vent lines. No gas shall be produced, wasted or allowed to escape through a separator vent line at any time when the noise caused by such wasting, producing or escaping of gas shall be audible for a distance of three hundred (300) feet or more from the well. When it shall appear that an explosive mixture of gas may be accumulating near the ground, the inspector may require that the well be shut down until the gas is dissipated. All separators shall be vented either separately or through a manifold into a vent, the minimum shall be twenty-five (25) feet above the normal ground surface. The vent shall not be less than two inches in diameter. It shall not be closer than sixty-five (65) feet to the well hole, center line of street or the lease boundary. No separator shall be used which has less than one hundred twenty-five (125) pounds working pressure; provided, that all separators on which a pressure of greater than one hundred twenty-five (125) pounds per square inch shall be carried, shall be tested by the hydrostatic method to at least one and one-half times the working pressure to be carried on the separator. (Prior code § 5-1038)

Section 8.40.390 Vent lines.

All vent lines shall be fastened with at least three steel guy lines to each vent, the guy lines to be securely anchored to "deadmen" buried not less than two feet under ground and not less than twenty (20) feet from such vent. (Prior code § 5-1039)

Section 8.40.400 Permits for crude oil tank storage.

Permits shall be obtained from the City Council for the erection of tanks for the storage of crude oil within the city limits other than those specified in the original permit; each request or permit must be accompanied by a diagram showing exact location, arrangement, size and construction of each tank. (Prior code § 5-1040)

Section 8.40.410 Storage requirements of crude oil.

A. The storage of crude oil shall be outside buildings in aboveground tanks. Tanks must be set no nearer than fifty (50) feet from non-fireproof buildings or from outside block lines; provided however, that an application in writing may be made to the City Manager and, when approved by him or her and the City Council, setting the tanks at a nearer distance may be allowed. Such distance may be increased at the discretion of the City Council after consideration of special features such as topographical conditions, nature of occupancy and proximity to buildings or adjoining property, and height and

Sand Springs Code of Ordinances

character of construction of such buildings, capacity and construction of proposed tanks and degree of public fire protection in the vicinity.

B. A total capacity of an aboveground battery of crude oil storage tanks shall be limited to one thousand fifty (1,050) barrels utilizing low profile tanks and each tank shall have the capacity not to exceed two hundred ten (210) barrels.

C. All tanks shall be provided with pressure vacuum vent system sufficient to adequately dispense excess gas from the tanks. Vent openings may be made removable, but shall be kept firmly attached. The covers for manholes, handholes and gauge holes shall be made tight fitting and lockable. (Prior code § 5-1041)

Section 8.40.420 Portable pumping unit requirements.

Every person, firm or corporation operating a portable pumping unit used for the pumping of oil within the corporate limits of the city shall equip the same, before the operation or use thereof, on both the suction and discharge sides, with steel flexible tubing or pipe composed of some other material that is approved by the City Manager. All pumping units shall be operated by electric motors unless otherwise permitted by the City Council. (Prior code § 5-1042)

Section 8.40.430 Valves, gates, pipelines to be inspected.

The building official may check all the master gates, valves, pipes, pipelines, tank batteries, pipe connections and fitting upon each well to see if they are maintained in sufficient number and size as provided by the ordinances of the city and the state and shall also check to see if they are tight, safe and not leaking. A high-low safety valve pressure control shall be installed adjacent to the well head in the flow line to control high and low pressure. The high-low pressure valve may be checked once a month. (Prior code § 5-1043)

Section 8.40.440 Tubing, fittings may be inspected.

The building official may check any pressure line, tubing or fittings, equipment or connections maintained in connection with such lines or tubing to see if they are tight, safe and not leaking. (Prior code § 5-1044)

Section 8.40.450 Transmission lines to comply with rules.

All transmission lines for the gathering or transmission of gas or oil shall comply with ordinances of the city and all applicable state and federal laws regulating these lines. (Prior code § 5-1045)

Section 8.40.460 Performance bond required.

All persons, firms, partnerships, corporations or individuals, who drill or produce oil, gas or other hydrocarbons, shall furnish the city with a good and sufficient performance bond, unconditioned irrevocable letter of credit or cash equivalent in joint deposit in the principal amount of ten thousand dollars (\$10,000.00), as a guarantee that the drilling or production done shall be in accordance with the requirements of this chapter. Section 8.44.010 Definitions.

For the purpose of this chapter, the terms defined in this section have the meanings respectively ascribed to them herein:

"Health officer" means the director of the Tulsa City-County Health Department or his or her authorized representative.

"Open-burning" means the burning of any matter in such manner that the products of combustion resulting from the burning are emitted directly into the open atmosphere.

"Refuse" means any combustible waste material other than liquids or gases.

"Salvage operation" means any business, trade, industry or other activity conducted in whole or in part for the purpose of salvaging or reclaiming any product or material such as metals or chemicals.

"Trade waste" means solid, liquid or gaseous material resulting from the construction or the prosecution of any business, trade or industry, or any demolition operation, including but not limited to, plastics, cartons, grease, oil, chemicals and cinders. (Prior code § 8-701)

Section 8.44.020 Open-burning restrictions.

No person shall dispose of refuse or trade waste by open-burning, or cause or permit such disposal except as provided below:

A. Any open burning of refuse permitted by this section shall be permitted only between three hours after sunrise and three hours before sunset, and no additional fuel may be intentionally added to the fire at times outside the limits above stated;

B. Open-burning of refuse on residential premises or refuse originating in dwelling units on the same premises shall not be a violation of this chapter in areas of low population density. The health officer, after consultation with the City Manager or refuse collection and disposal, shall select and publish

Sand Springs Code of Ordinances

the specific boundaries of areas in which such open-burning of refuse will not be in violation of this chapter. In selecting such areas, he or she shall use a density of one dwelling unit per ten (10) acres as an approximate definition of areas of low population density. The health officer shall select and publish revised boundaries, as described above, from time to time as population density changes;

- C. Outdoor burning in connection with the preparation of food;
- D. Campfires and fires used solely for recreation purposes or for ceremonial occasions, not burning refuse or trade wastes;
- E. Fires purposely set for purposes of training public or private firefighting personnel, when authorized by the appropriate governmental entity; and
- F. Fires set or required by a public officer for the abatement of nuisances and which are necessary and unavoidable in carrying out public health and safety functions. (Prior code § 8-702)

Section 8.44.030 Prohibition of salvage operations by open-burning.

No person shall conduct or cause or permit the conduct of a salvage operation by open-burning. (Prior code § 8-703)

Section 8.44.040 Exceptions.

The open-burning of trade wastes may be permitted when it can be shown that such open-burning is necessary and in the public interest. Any person intending to engage in open-burning of trade wastes shall file a request to do so with the health officer. The application shall state the following:

- A. The name, address and telephone number of the person who submitted the application;
 - B. The type of business or activity involved;
 - C. A description of the proposed equipment and operating practices; the type, quantity and composition of trade wastes to be burned;
 - D. The schedule of burning operations;
 - E. The exact location where open-burning will be used to dispose of trade waste;
 - F. Reasons why no method other than open-burning can be used for disposal of trade waste;
 - G. Evidence that the proposed open-burning has been approved by the city fire department;
- and
- H. Upon approval of the application by the health officer, the person may proceed with the operation without being in violation of this chapter. (Prior code § 8-704)

Section 8.44.050 Restrictions on open-burning of agricultural wastes.

The open-burning of plant life is prohibited. Provided that the open-burning of plant life grown on the premises in the course of any agricultural operation may be permitted when it can be shown that such open-burning is necessary and that no fire hazard will occur. Any person intending to dispose of plant life by open-burning shall file a request to do so with the health officer, on forms provided by him or her. Such form may require the provisions of such information as the health officer may reasonably need to determine the air pollution aspects of the situation and whether the request should be granted. The applicant shall furnish the health officer evidence that the proposed open-burning has been approved by the city fire department. Upon approval of the application by the health officer, the person may proceed with the operation without being in violation of this chapter. Any open-burning permitted under provisions of this section shall be permitted only between the hours of six a.m. and ten a.m. (Prior code § 8-705)

Section 8.44.060 Incinerators--Definitions applicable.

Sand Springs Code of Ordinances

It is the purpose of this section to establish controls for the construction and operation of incinerators to prevent undesirable levels of air contaminants in the atmosphere, while maintaining compliance with the existing fire prevention code of the city. The definitions in Section 8.44.010 of this chapter apply to this section and the additional terms defined in this section have the meanings given them herein when used in this section:

"Incinerator" means any device, structure or contrivance intended or used to dispose of refuse or other wastes by burning and the processing of salvable material by burning.

"Multiple chamber incinerator" means any incinerator consisting of two or more refractory-lined combustion chambers in series, physically separated by refractory walls, interconnected by gas passage ports or ducts and adequately designed for maximum combustion of the material to be burned.

"Refuse," notwithstanding definitions in other sections, as used in this section, the word refuse includes garbage, rubbish, trade wastes, leaves, salvable material, agricultural wastes and other wastes. (Prior code § 8-706)

Section 8.44.070 Incinerators.

All incinerators shall meet the following provisions:

A. No incinerator shall emit into the atmosphere any air contaminant in quantities detrimental to health or property, or adversely affecting the use or enjoyment of property;

B. Two copies of plans and specifications or manufacturers' descriptive literature, or both, if available, shall be filed with the health officer thirty (30) days prior to the installation, construction, reconstruction or alteration of any incinerator. The material so filed shall show the general location, design, capacity, amount and type of waste to be incinerated, fire chamber details, stack or chimney details and location with reference to neighboring properties; and

C. All new incinerators shall be multiple-chamber incinerators, provided that the health officer may approve any other kind of incinerator if he or she finds in advance of construction or installation that such other kind of incinerator is equally effective for purposes of air pollution control as an approved multiple-chamber incinerator. (Prior code § 8-707)

Section 8.44.080 Restrictions on emission color.

A. Emissions from new incinerators shall not be:

1. Of a shade or density equal to or darker than that designated as No. 1 on the Ringelmann Chart; or

2. Of such opacity as to obscure an observer's view to a degree equal to or greater than No. 1 on the Ringelmann Chart except that air contaminants of a shade or opacity not greater than that designated as No. 2 on the Ringelmann Chart may be emitted for aggregate periods not to exceed six minutes, in any sixty (60) minutes; the shade or opacity of air contaminants shall be measured at its point of emission.

B. Emissions from existing incinerators shall not be:

1. Of a shade or density equal to or darker than that designated as No. 2 on the Ringelmann Chart; or

2. Of such opacity as to obscure an observer's view to a degree equal to or greater than No. 2 on the Ringelmann Chart, exclusive of water vapor. (Prior code § 8-708)

Section 8.44.090 Restrictions on particulate matter.

No person shall cause, suffer, allow or permit to be discharged into the outdoor atmosphere:

A. From any incinerator burning less than two hundred (200) pounds of refuse per hour, particulate matter to exceed 0.3 grains per standard cubic foot of dry flue gas, adjusted to twelve (12)

Sand Springs Code of Ordinances

percent carbon dioxide and calculated as if no auxiliary fuel had been used; or

B. From any incinerator burning two hundred (200) pounds or more of refuse per hour, particulate matter to exceed 0.2 grains per standard cubic foot of dry flue gas, adjusted to twelve (12) percent carbon dioxide and calculated as if no auxiliary fuel had been used. (Prior code § 8-709)

Section 8.44.100 Existing incinerators must comply.

All existing incinerators shall meet all of the provisions of the foregoing sections. (Prior code § 8-710)

Section 8.44.110 Control of air pollution from smoke and particulate matter--Definitions.

It is the purpose of this section to establish air standards for the city in order to define and prevent undesirable levels of smoke and particulate matter. The definitions of Sections 8.44.010 and 8.44.060 apply to Sections 8.44.120 to 8.44.190. The additional terms defined in this section have the meanings given to them herein when used in these sections:

"Emergency" means any departure from normal operations resulting in the temporary emissions of smoke or particulate matter above the specified standards.

"Equivalent opacity" means the degree to which an emission, other than gray or black smoke, obscures the view of an observer, expressed as an equivalent of the obstruction caused by a gray or black smoke emission of a given density, as measured by a Ringelmann Smoke Chart.

"Particulate matter" means any material, except uncombined water, that exists in a finely divided form as a liquid or solid. The term "suspended particulate matter" is used to distinguish such liquid or solid matter from material which settles rapidly due to gravity.

"Smoke" means small gas-borne particles resulting from incomplete combustion, consisting predominantly of carbon and other combustible materials, and present in sufficient quantity to be observable. (Prior code § 8-711)

Section 8.44.120 Control of smoke emissions from new installations.

The emission of smoke from any new combustion unit or from any type of burning in a combustion unit, including the incineration of industrial, commercial and municipal wastes, shall not be of a shade or density equal to or darker than that designated as No. 1 on the Ringelmann Smoke Chart, except that smoke emitted during the cleaning of a fire box or the building of a new fire, soot-blowing, equipment changes, ash removal and rapping of precipitators may be as dark as or darker than No. 1 on the Ringelmann Smoke Chart for a period or periods aggregating not more than six minutes in any sixty (60) consecutive minutes. (Prior code § 8-712)

Section 8.44.130 Emissions from installations.

All existing installations shall meet the provisions of Section 8.44.120. The emission of smoke from any existing combustion unit or from any type of burning in a combustion unit, including the incineration of industrial, commercial and municipal wastes, shall be controlled so that the shade or appearance of the emission is not as dark as nor darker than No. 2 on the Ringelmann Smoke Chart, except that smoke emitted during the cleaning of a fire box or the building of a new fire, soot-blowing, equipment changes, ash removal and rapping of precipitators may be as dark as or darker than No. 2 on the Ringelmann Smoke Chart for a period or periods aggregating not more than six minutes in any sixty (60) consecutive minutes. (Prior code § 8-713)

Section 8.44.140 Emissions from safety flares and other similar devices.

All safety flares and other similar devices used for burning in connection with pressure valve releases and for control over process upsets shall be equipped with air pollution control equipment so as to reduce the smoke emissions so that the shade or appearance of the emission is not as dark as nor darker than No. 1 on the Ringelmann Smoke Chart for more than aggregate time of six hours in any ten (10) day period, except for temporary emission during periods of start-up and shut-down of continuous process units. The temporary emission shall not occur for more than six hours out of any twenty-four (24) consecutive hours. (Prior code § 8-714)

Section 8.44.150 Method of measurement.

The Ringelmann Chart published and described in the U.S. Bureau of Mines Information Circular 7718 or the U.S. Public Health Service Smoke Inspection Guide as described in the Federal Register, Title 42, Chapter 1, Subchapter F, Part 75, shall be used in grading the shade or opacity of visible air contaminant emissions. The health officer may specify other means of measurement which give comparable results or results of greater accuracy. The two publications described in this section are hereby made a part of this chapter by reference. (Prior code § 8-715)

Section 8.44.160 Limits on visible emissions other than gray or black.

No person shall cause, suffer, allow or permit emissions from any existing or new installation a visible plume other than gray or black with an opacity equal to or greater than an equivalent opacity of No. 2 on the Ringelmann Smoke Chart, except uncombined water vapor and except that visible plumes emitted during rapping of precipitators, removal of collected dust and equipment changes may be equal to or greater than an equivalent opacity of No. 2 on the Ringelmann Smoke Chart for a period or periods aggregating not more than six minutes in any sixty (60) consecutive minutes, nor more than six (6) hours in any ten (10) day period. (Prior code § 8-716)

Section 8.44.170 Ambient air quality standards for particulate matter.

The concentrations of particulate matter in the atmosphere higher than the levels specified below for the various land use areas constitute undesirable levels, whether the sources are from natural causes or from the activities of man, and a state of air pollution exists when concentrations of particulates exceed these levels. The ambient air quality for an area shall be determined on the basis of not less than ten (10) twenty-four (24) hour samples taken within a thirty (30) day period of time. The ambient air quality for an area is considered as failing to meet the standards stated below if the ambient atmosphere of the area, based on the requisite twenty-four (24) hour samples, exceeds these levels more than ten (10) percent of the time on a log-normal cumulative frequency distribution.

- A. Concentration Levels:
 - 1. Rural is not to exceed sixty (60) micrograms of particulate matter per cubic meter of air;
 - 2. Residential and recreational are not to exceed eighty (80) micrograms of particulate matter per cubic meter of air;
 - 3. Commercial and business are not to exceed one hundred (100) micrograms of particulate matter per cubic meter of air; and
 - 4. Industrial is not to exceed one hundred twenty (120) micrograms of particular matter per cubic meter of air;
- B. Area Classification. Rural, residential, commercial and industrial area classifications are defined on the basis of their predominant land use and are not to be considered as part of a local or

Sand Springs Code of Ordinances

statewide zoning system. The health officer shall decide the proper definition of an area; and

C. Sampling and analysis to determine the concentration of particulate matter shall be performed in accordance with engineering guides prepared by the health department. These procedures will be consistent with obtaining accurate results which are representative of the conditions being evaluated and will be subject to revision as experience or knowledge dictate. (Prior code § 8-717)

Section 8.44.180 Emission limits for particulate matter from specific activities.

A. Emission of Particulate Matter From Fuel-Burning Equipment. No person shall cause, suffer, allow or permit particulate matter caused by the combustion of fuel to be discharged from any stack or chimney into the atmosphere, in excess of the hourly rate set forth in the following table:

Heat Input in Million British Thermal Units Per Hour	Maximum Allowable Emissions of Particulate Matter in Pound per Million British Thermal Units
Up to and including 10	0.60
100	0.35
1,000	0.20
10,000	0.12

1. For a heat input between any two consecutive heat inputs stated in the preceding table, maximum allowable emissions of particulate matter are shown on Figure 1 set out hereinafter;
2. For the purposes hereof, heat input shall be calculated as the aggregate heat content of all fuels (using the upper limit of their range of heating value) whose products of combustion pass through the stack or chimney;
3. When two or more fuel-burning units are connected to a single stack, the combined heat input of all units connected to the stack shall be used to determine the allowable emission from the stack; and
4. When a single fuel-burning unit is connected to two or more stacks, the allowable emission from all the stacks combined shall not exceed that allowable for the same units connected to a single stack.

Sand Springs Code of Ordinances

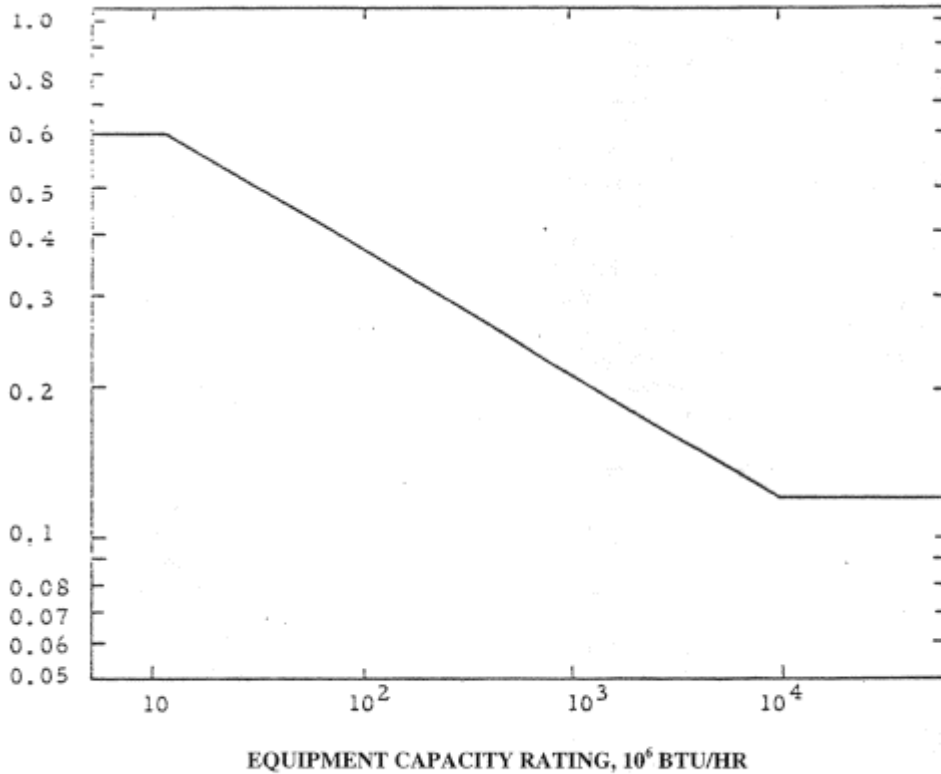

Figure 1. Particulate Matter Emission Limits for Fuel-Burning Equipment.

B. Emission of Particulate Matter From Industrial Processes. General provisions:

1. This section applies to any operation, process or activity except the burning of fuel for indirect heating in which the products of combustion do not come into direct contact with process materials and except the burning of refuse and except the processing of salvageable material by burning, and except existing foundry cupolas;

2. Process weight per hour is the total weight of all materials introduced into any specific process which process may cause any discharge of particulate matter. Solid fuels charged will be considered as a part of the process weight, but liquid and gaseous fuels and combustion air will not. For a cyclical or hatch operation, the process weight per hour will be derived by dividing the total process weight by the number of hours in one complete operation from the beginning of any process to the completion thereof, excluding any time during which the equipment is idle. For a continuous operation the process weight per hour will be derived by dividing the process weight for a typical period of time by the time period;

3. The process weight per hour referred to in this section shall be based upon the normal operation, maximum capacity of the equipment and if such normal maximum capacity should be increased by process or equipment changes, the new normal maximum capacity shall be used as the process weight in determining the allowable;

4. Emission tests relating to this regulation shall be made following the current standards in ASME "Power Test Code PTC 27" entitled "Determining Dust Concentration in a Gas Stream"; and

5. Except as provided for hereinbefore, the emission of particulate matter in any one hour from any source shall be limited as follows:

a. To the amount shown in Table 1 hereinafter, for the process weight allocated to such source; or

Sand Springs Code of Ordinances

b. No person shall cause, suffer, allow or permit the emission of particulate matter from any source in a concentration in excess of 0.3 grain per standard cubic foot of exhaust gases. If provisions of this subsection would permit a greater emission of particulate matter per hour than allowed by other subsections, the provision of this subsection shall not apply.

C. Emission of Particulate Matter From Existing Foundry Cupolas:

1. Every existing foundry cupola shall be equipped with air pollution control equipment which collects not less than eighty-five (85) percent of the particulate matter which would be emitted without the use of such control equipment; and

2. No person shall cause, suffer, allow or permit the emission of particulate matter from any existing foundry cupola in a concentration in excess of 0.4 grains per standard dry cubic foot of exhaust gas. If provisions of this subsection would permit an emission of a greater weight of particulate matter per hour than is allowed by subsection (C)(1) hereof, then the provisions of this subsection shall not apply.

Section 8.44.190 Other exceptions to emission limits.

A. Temporary emissions of particulate matter during periods of cleaning or adjusting process equipment shall not exceed one hundred fifty (150) percent of the limits as set forth in the above sections for a period or periods aggregating not more than six minutes in any sixty (60) consecutive minutes.

B. Upon the occurrence of an emergency, as defined herein, the emitter shall notify the City Manager as to the nature and estimated duration of the emergency. The health officer may waive the requirements of this regulation for a period up to seventy-two (72) hours. Section 8.48.010 Accumulation of trash or weeds unlawful.

It is unlawful for any owner of any lot, tract or parcel of land situated wholly or in part within the corporate limits of the city to allow trash or weeds to grow, stand or accumulate upon such premises and it is the duty of such owner to remove or destroy any such trash or weeds. (Prior code § 8-401)

Section 8.48.020 Definitions.

As used in this chapter, the following terms shall have the meanings respectively ascribed to them in this section:

"Cleaning" means the removal of trash from property.

"Owner" means the owner of record as shown by the most current tax rolls of the County Treasurer;

"Trash" means any refuse, litter, ashes, leaves, debris, paper, combustible materials, rubbish, offal, waste, or matter of any kind or form which is uncared for, discarded or abandoned; and

"Weeds" means and includes but is not limited to poison ivy, poison oak or poison sumac and all vegetation at any stage of maturity which:

1. Exceeds twelve (12) inches in height, except healthy trees, shrubs or produce for human consumption or grown in a tended and cultivated garden unless such trees, shrubbery, or produce by their density or location constitute a detriment to the health, benefit and welfare of the public and community or a hazard to traffic or create a fire hazard to the property or otherwise interfere with the mowing of the weeds;
2. Regardless of height, harbors, conceals or invites deposits or accumulation of refuse or trash;
3. Harbors rodents or vermin;
4. Gives off unpleasant or noxious odors;
5. Constitutes a fire or traffic hazard; or
6. Is dead or diseased.

The term "weed" does not include tended crops on land zoned for agricultural use which are planted more than one hundred fifty (150) feet from a parcel zoned for other than agricultural use. (Prior code § 8-402; Ord. 961, § 1, eff. December 20, 1999)

Section 8.48.030 Reports of accumulation of grass, weeds or trash on property.

Reports of an accumulation of trash or the growth of grass and weeds, or both of these conditions, shall be received and investigated by the code enforcement officer, or any other person authorized by the city manager, upon citizen complaint or upon his or her own notice. The property where the resulting

Sand Springs Code of Ordinances

accumulation or growth is occurring shall be deemed a public nuisance if it appears to be:

- A. Detrimental to the health, safety or welfare of the public and the community;
- B. A hazard to traffic; or
- C. A fire hazard. (Prior code § 8-403; Ord. 961, § 2, eff. December 20, 1999)

Section 8.48.040 Notice, hearing and abatement.

A. Upon receiving a report and making a determination that a public nuisance exists as provided for in Section 8.48.030 of this chapter, the code enforcement officer, or any other person authorized by the City Manager, shall give at least ten (10) days notice to the owner of the property by mail at the address shown by the current year's tax rolls in the County Treasurer's office before a hearing may be held or action taken.

B. The notice shall order the property owner to clean the property of trash, or to cut or mow the weeds or grass on the property, as appropriate, and such notice shall further state that unless such work is performed within ten (10) days of the date of the notice, the work shall be done by the city and a notice of lien shall be filed with the County Clerk against the property for the costs due and owing the city. At the time of mailing of notice to the property owner, the city shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailee.

C. If the property owner cannot be located within ten (10) days from the date of mailing by the city, notice may be given by posting a copy of the notice on the property or by publication in a newspaper of general circulation, as provided for by state law, one time not less than ten (10) days prior to any hearing or action by the city.

D. The property owner, within ten (10) days from the date of the notice, may give his or her written consent to the city authorizing the removal of the trash or the mowing of the weeds or grass. By giving such written consent, the property owner waives his or her right to a hearing by the city.

E. A hearing may be held by the City Manager or his or her designee upon filing written notice with the City Clerk by the property owner within ten (10) days from the date of the notice. A date and time shall be set for said hearing, and the property owner shall be notified of such hearing in writing. The filing of a written notice of hearing with the City Clerk shall operate to stay any action by the city against the property. The City Manager or his or her designee shall then hear the matter and shall receive information thereon, including anything which may be presented by the owner of the property, personally or by agent or attorney. If the City Manager or his or her designee determines that any of the conditions specified in Section 8.48.030 of this chapter exist upon the property, he or she may order the property to be cleaned of trash and/or the weeds or grass to be cut, removed or destroyed unless within ten (10) days from the issuance of his or her order, the property owner either:

- 1. Cuts, removes or destroys the trash or weeds in accordance with the notice;
- 2. Gives written consent authorizing the city to abate the trash or weeds, thereby waiving his or her right to further hearing; or
- 3. Appeals to the City Council from the order of the City Manager or his or her designee.

F. An appeal to the City Council from the order of the City Manager or his or her designee shall be taken by filing written notice with the City Clerk within ten (10) days after the administrative order is rendered. The filing of written notice of appeal with the City Clerk shall operate to stay the enforcement of the order of the City Manager appealed from. As soon thereafter possible, and upon not less than ten (10) days notice to the property owner, the City Council shall consider the matter de novo.

G. If the public nuisance continues to exist upon expiration of the notice, hearing or appeal processes as provided for in subsections A through F of this section, employees of the city or agents contracted by the city are granted the right of entry on the property for the removal of trash, mowing of weeds or grass, and performance of the necessary duties as a governmental function of the city.

H. Immediately following the cleaning and/or mowing of the property, the City Clerk shall file a notice of lien with the County Clerk describing the property and the work performed by the city, and

Sand Springs Code of Ordinances

stating that the city claims a lien on the property for the cleaning and/or mowing costs.

I. If a notice is given by the city to a property owner ordering the property within the city limits to be cleaned of trash and/or weeds or grass to be cut or mowed in accordance with the procedures provided for in the subsections A through H of this section, any subsequent accumulations of trash or excessive weed or grass growth on the property occurring within a six-month period may be summarily abated without further prior notice to the property owner provided the initial notice to the property owner shall state: "that any accumulations of trash or excessive weed or grass growth on the owner's property occurring within six months from and after the date of this notice may be summarily abated by the city, that the costs of such abatement shall be assessed against the owner, and that a lien may be imposed on the property to secure such payment, all without further prior notice to the property owner." At the time of each summary abatement, the city shall notify the property owner of the abatement and the costs thereof. The property owner may request a hearing regarding the costs of each summary abatement as provided for in Section 8.48.050(A) of this chapter. This subsection shall not apply if the records of the County Clerk show the property was transferred after notice was given. (Prior code § 8-404; Ord. 899, § 1, eff. August 12, 1996; Ord. 961, § 3, eff. December 20, 1999)

Section 8.48.050 Determination and assessment of costs.

A. Upon completion of the work ordered to be performed under Section 8.48.040 of this chapter, the City Clerk shall determine the actual cost of such cleaning and mowing and any other expenses as necessary in connection therewith, including the cost of notice and mailing. The City Manager or his or her designee shall examine the report and, after receiving appropriate information, shall determine the total cost of the work. Thereafter, the City Clerk shall forward by mail to the property owner at the address shown by the current tax rolls of the County Treasurer of the county in which the property is located a statement of the actual costs and demand for payment. If the cleaning and mowing are done by the city, the cost to the property owner for the cleaning and mowing shall not exceed the actual cost of the labor, maintenance and equipment required. If the cleaning and mowing are done on a private contract basis, the contract shall be awarded to the lowest and best bidder.

B. The property owner shall have a right to appeal to the City Council from the assessment rendered by the City Manager or his or her designee. Such appeal shall be taken and held in accordance with the provisions of Section 8.48.040(F) of this chapter. (Prior code § 8-406; Ord. 961, § 5, eff. December 20, 1999)

Section 8.48.060 Lien on the property--Civil remedy.

A. If payment is not made within thirty (30) days from the date of the mailing of the statement, the City Clerk shall forward a certified statement of the amount of the cost to the County Treasurer of the county in which the property is located, and same shall be levied on the property and collected by the County Treasurer as other taxes authorized by law. Until fully paid, the cost and the interest thereon shall be the personal obligation of the property owner from and after the date the cost is certified to the County Treasurer. In addition, the cost and the interest thereon shall be a lien against the property from the date the cost is certified to the County Treasurer, coequal with the lien of ad valorem taxes and all other taxes and special assessments and prior and superior to all other titles and liens against the property, and the lien shall continue until the cost shall be fully paid.

B. At any time prior to collection as provided for in this section, the city may pursue any civil remedy for collection of the amount owing and interest thereon including an action in personam against the property owner and an action in rem to foreclose its lien against the property. A mineral interest, if severed from the surface interest and not owned by the surface owner, shall not be subject to any tax or judgment lien created pursuant to this section. Upon receiving payment, if any, the City Clerk shall forward to the County Treasurer a notice of such payment and directing discharge of the lien. (Prior

Sand Springs Code of Ordinances

code § 8-407; Ord. 961, § 6, eff. December 20, 1999)

Section 8.48.070 Uses and properties exempted.

The provisions of this section shall not apply to any property zoned and used for agricultural purposes, or to railroad property under the jurisdiction of the Oklahoma Corporation Commission. However, the City may cause the removal of weeds or trash from property zoned and used for agricultural purposes pursuant to the provisions of this section but only if such weeds or trash pose a hazard to traffic and are located in, or within ten (10) yards of, the public right-of-way. (Ord. 961, § 8, eff. December 20, 1999)

No individual, firm or corporation shall permit any lot, parcel, yard, parkway or spaces abutting thereon, owned, occupied or controlled by same, or agents thereof, to remain without adequate vegetative cover or sedimentation control measures when the absence of vegetative cover or sedimentation control measures results in the depositing of silt or sediment in such quantities so as to cause a hazard or impediment to pedestrian or vehicular traffic and/or causes or contributes to an obstruction or impediment to any public storm sewers or drainage ways.

Section 8.52.020 Removal of Siltation Upon Streets, Sidewalks, Alleys and Drainage Ways

A. Any silt or sedimentation deposited on streets, sidewalks or alleys in such quantities to as to cause a hazard or impediment to pedestrian or vehicular traffic and/or cause or contribute to an obstruction or impediment to any public storm sewers or drainage ways shall be removed immediately by the individual, firm or corporation, or agents thereof, having control for the lot, parcel, yard, parkway or spaces abutting thereon, where adequate vegetative cover or sedimentation control measures are absent.

B. Upon failure of the individual, firm or corporation, or agents thereof, to remove same, the City of Sand Springs, Oklahoma, shall effect removal in a manner adequate to restore the customary use of streets, sidewalks and alleys by vehicles and pedestrians and/or restore the customary function of public storm sewers or drainage ways.

(Prior code § 15-603)

though no devices are erected or in place. (Prior code § 15-604)

Section 10.12.050 Traffic control signal legend.

The display of signal lights, arrows and words shall be deemed to have the following meanings and requires the appropriate response on the part of vehicular traffic and pedestrians:

- A. Green Alone, "Go":
 - 1. Vehicular traffic facing the signal, except when prohibited, may proceed straight through or turn right or left unless an official sign at such place prohibits such turn, but any vehicle and any pedestrian lawfully within the intersection or adjacent crosswalk at the time the signal displays green shall have the right-of-way over such vehicular traffic; and
 - 2. Pedestrian traffic, facing a green signal may proceed across the roadway within any marked or unmarked crosswalk unless a "Walk" signal indicator is operating.
- B. Steady Yellow or Amber Alone, "Caution":
 - 1. The showing of such signal color following green shall constitute a warning that the "Red" or "Stop" signal will be exhibited immediately thereafter; and
 - 2. Vehicles facing the signal shall stop before entering the near side crosswalk or at the limit line, if it is marked, unless the vehicle is so near the limit line when the "Caution" signal first flashes that a stop cannot be made in safety, in which event vehicles may proceed cautiously through the intersection and clear the same before the "Red" signal flashes;
- C. Red Alone, "Stop":
 - 1. Vehicular traffic facing the signal shall stop before entering the crosswalk and shall remain standing until green or "Go" is shown alone. Except where official signs are erected prohibiting such turns, vehicles in the right traffic lane, after making a full stop as required, may enter the intersection cautiously and make a right turn, but such vehicles shall yield the right-of-way to any pedestrians or other traffic in the intersection and the turn shall be made so as not to interfere in any way with traffic proceeding on a green signal indication on the cross street; and
 - 2. Pedestrians facing the signal shall not enter or cross the roadway when such movement interferes with traffic proceeding on a green signal indication on the cross street, or when the movement cannot be made in safety. No pedestrian facing such signal shall enter the roadway until the green or "Go" is shown alone unless authorized to do so, by a pedestrian "walk" signal;
- D. Steady Red with Green Arrow:
 - 1. Vehicular traffic facing such signal when in the proper traffic lane may cautiously enter the intersection only to make the movement indicated by the arrow, but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection. If the movement indicated by the green arrow is a left turn, the left turn shall be made only on the red with green arrow signal; and
 - 2. No pedestrian facing such signal shall enter the roadway until the green or "Go" is shown alone unless authorized so to do by a pedestrian "Walk" signal.
- E. Green Arrows Alone. Whenever vehicular traffic movements are controlled by green arrows alone and not displayed with any other signal indication, vehicles facing such signals may make the movements indicated by the green arrows and the movements shall be made only when the green arrows are displayed. (Prior code § 15-605)

Section 10.12.060 Pedestrians--Signal indicators--Regulations.

Special pedestrian control signals exhibiting the words "Walk", "Wait" or "Don' t Walk" shall regulate pedestrian movement as follows:

Sand Springs Code of Ordinances

Section 10.12.070 Flashing signals.

A. Whenever an illuminated flashing red or yellow signal is showing, it shall require obedience by vehicular traffic as follows:

1. "Flashing Red." When a red light is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign; and

2. "Flashing Yellow." When a yellow light is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection, or pass such signal only with caution.

B. This section shall not apply at railroad grade crossings. (Prior code § 15-607)

2. Pedestrians shall not proceed in conflict with traffic, but may activate the signal control switch, and shall wait until steady red alone is shown before entering the roadway or intersection controlled by the signal;

B. "Steady Yellow Alone":

1. Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection or pass the signal when the red or "Stop" signal is exhibited; and

2. No pedestrian shall enter the roadway or intersection on which the signal controls vehicular traffic until steady red alone is shown.

C. "Steady Red":

1. Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection, and shall remain standing until flashing yellow is shown alone;

2. Pedestrians may proceed across the road controlled by the signal, and shall be given the right-of-way by the drivers of all vehicles.

D. "Steady Red and Steady Yellow Combined":

1. Vehicular traffic facing the signal is thereby warned that the flashing yellow signal will be exhibited immediately thereafter, and that such vehicular traffic shall remain standing until the flashing yellow is shown alone; and

2. Pedestrians are thereby warned that the flashing yellow signal is about to be shown, and shall not enter the signal-controlled roadway or intersection, or in a direction which conflicts with the movement of vehicular traffic; but any pedestrian who has partially completed his or her crossing shall proceed to the nearest sidewalk or safety island, and shall be given the right-of-way by the drivers of all vehicles. (Prior code § 15-608)

- 12.28.040** **Maximum rehabilitation and redevelopment by private enterprise.**
- 12.28.050** **Personal interest of public officials or employees in project or property.**

Section 12.28.010 **Creation and powers.**

Pursuant to a vote of the people of the city, there is hereby created in the city an urban renewal authority with the powers set out herein and as set out in Title 11, Oklahoma Statutes 38-101 et seq. "Urban Renewal". Such authority shall be called the Sand Springs Development Authority. (Prior code § 12-501)

Section 12.28.020 **Declaration and findings.**

A. It is hereby found and declared that there exists in the city blighted areas as herein defined which constitute a serious and growing menace, injurious and inimical to the public health, safety, morals and welfare of the residents of the city, that the existence of such areas contributes an economic and social liability imposing onerous burdens which decrease the tax base and reduce tax revenues, substantially impairs or arrests sound urban growth, retards sound economic development, aggravates traffic problems and substantially impairs or arrests the elimination of traffic hazards and the improvement of traffic facilities; and that the prevention and elimination of blight is a matter of city policy and city concern; that the city shall not continue to be endangered by areas which are focal centers of disease, promote juvenile delinquency, and consume an excessive proportion of its revenue because of extra services required for police, fire, accident, hospitalization and other forms of public protection, services and facilities; that by such prevention and elimination, property values will be stabilized and tax burdens more equitably distributed, and the financial and capital resources of the city will be strengthened; that this menace can best be remedied by cooperative participation of private enterprise, the city and public agencies.

B. It is further found and declared that certain blighted areas, or portions thereof, may require acquisition, clearance, and disposition subject to use restrictions, as provided in this chapter, since the prevailing conditions of decay may make impracticable the reclamation of the area by conservation or rehabilitation; that the conditions and evils hereinbefore enumerated may be eliminated, remedied or prevented; that the salvable blighted areas can be conserved and rehabilitated through appropriate public action as herein authorized, and the cooperation and voluntary action of the owners and tenants of the property in such area.

C. It is further found and declared that the powers conferred by this chapter are for public uses and purposes for which public money may be expended and the power of eminent domain and police power exercised; and it is hereby declared that it is a matter of legislative determination that the provisions of this chapter are enacted in the public interest. (Prior code § 12-502)

Section 12.28.030 **Workable program for utilization of private and public resources.**

The city, for the purpose of this chapter, shall formulate for its area of operation, a workable program for utilizing appropriate private and public resources to eliminate and prevent the development

or spread of blight, to encourage needed rehabilitation, to provide for the redevelopment of blighted areas, or to undertake any of these activities or other feasible public activities as may be suitably employed to achieve the objectives of the workable program. The workable program may include, without limitation, provision for: the prevention of the spread of blight into areas of the city which are free from blight through diligent enforcement of housing, zoning and occupancy controls and standards; the rehabilitation or conservation of blighted areas or portions thereof by replanning, removing congestion, providing parks, playgrounds and other public improvements, by encouraging voluntary rehabilitation and by compelling the repair and rehabilitation of deteriorated or deteriorating structures; and the clearance and redevelopment of blighted areas or portions thereof. (Prior code § 12-503)

Section 12.28.040 Maximum rehabilitation and redevelopment by private enterprise.

The urban renewal authority and the city to the greatest extent, determined to be feasible in carrying out the provisions of this chapter, shall afford maximum opportunity, consistent with the sound needs of the city as a whole, to the rehabilitation or redevelopment of the urban renewal area by private enterprise. The urban renewal authority and the city shall give consideration to this objective in exercising their powers under this chapter, including the formulation of a workable program, the approval of urban renewal plans which shall be consistent with the general plan of the city, the exercise of its zoning powers, the enforcement of other laws, codes, and regulations relating to the use of land and the use and occupancy of buildings and improvements, the disposition of any property acquired, and the provisions of necessary public improvements. (Prior code § 12-504)

Section 12.28.050 Personal interest of public officials or employees in project or property.

No public official or employee of the city or board or commission thereof, and no commissioner or employee of an urban renewal authority which has been vested by the city with urban renewal project powers under this chapter, shall voluntarily acquire any personal interest, direct or indirect, in any urban renewal project, or in any property included or planned to be included in any urban renewal project of the city or in any contract or proposed contract in connection with such urban renewal project. Where such acquisition is not voluntary, the interest acquired shall be immediately disclosed in writing to the council of the city. If such official, commissioner or employee presently owns or controls, or owned or controlled within the preceding two years, any interest, direct or indirect, in any property which he or she knows is included or planned to be included in an urban renewal project, he or she shall immediately disclose this fact in writing to the council of the city, and any such officials, commissioner or employee shall not participate in any action by the city or board or commission thereof, or urban renewal authority affecting such property. The disclosure required to be made by this chapter to the council of the city shall concurrently be made to the urban renewal authority which has been vested with urban renewal project powers by the city pursuant to the provisions of this chapter. No commissioner or other officer of any urban renewal authority, board or commission exercising the powers pursuant to this chapter shall hold any other public office under the city other than his or her commissionership or office with respect to such urban renewal authority. Section 13.12.060 Permits for disconnecting sewers.

Before any dwelling or other building having a connection to the sewer system is moved or demolished, the building sanitary sewer shall be disconnected at the adjacent property line. The remaining portion of the building sanitary sewer leading into the public sanitary sewer shall be sealed and made water tight. Prior to the disconnection of any such building sanitary sewer, a permit shall be obtained from the inspections section of the city. After the disconnection seal is made and before the work is covered, the plumbing inspector shall be notified. No work shall be covered until the inspection has been made and the work approved. Written notices of approval shall be given. (Prior code § 17-306)

Section 13.12.070 Prohibited discharge standards.

A. No user shall introduce or cause to be introduced into the POTW, directly or indirectly, any pollutant or wastewater which causes pass through or interference. These general prohibitions apply to all industrial users of the POTW whether or not they are subject to categorical pretreatment standards or any other national, state or local pretreatment standards or requirement. In addition, the following pollutants shall not be introduced into the POTW:

1. Pollutants which create a fire or explosive hazard in the municipal wastewater collection and POTW, including, but not limited to, wastestreams with a closed-cup flashpoint of less than one hundred forty (140) degrees fahrenheit sixty (60) degrees centigrade using the test methods specified in 40 CFR 261.21. At no time, shall two successive readings on an explosion hazard meter, at the point of discharge into the POTW, or at any point in the POTW, be more than five percent nor any single reading over ten (10) percent of the lower explosive limit (LEL) of the meter;

2. Solid or viscous substances in amounts which will cause obstruction of the flow in the POTW resulting in interference, but in no case solids greater than one-half inch.

3. Any wastewater having a pH less than five and five tenths or more than twelve S.U., or otherwise causing corrosive structural damage to the POTW or equipment, or endangering city personnel;

4. Any wastewater containing pollutants including oxygen-demanding pollutants (BOD, etc.), released in a discharge at a flow rate or pollutant concentration which, either singly or by interaction with other pollutants, will cause interference with either the POTW; or any wastewater treatment or sludge process, or which will constitute a hazard to humans or animals;

Sand Springs Code of Ordinances

5. Any noxious or malodorous liquids, gases, solids or other wastewater which either singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or to prevent entry into the sewer for maintenance and repair;

6. Any substance which may cause the POTW's effluent or any other product of the POTW such as residues, sludges, or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process. In no case, shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria, guidelines, or regulations developed under Section 405 of the Act; any criteria, guidelines, or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Clean Air Act, the Toxic Substances Control Act, or state criteria applicable to the sludge management method being used;

7. Any wastewater which imparts color which cannot be removed in the treatment process, which consequently imparts color to the treatment plant's effluent thereby violating the POTW's NPDES permit or interferes with the operation of the POTW such as, but not limited to, dye wastes and vegetable tanning solutions;

8. Any wastewater having a temperature higher than sixty-five (65) degrees centigrade, one hundred fifty (150) degrees fahrenheit, or capable of inhibiting biological activity in the POTW resulting in interference, but in no case wastewater with a temperature at the introduction into the POTW which exceeds forty (40) degrees centigrade, one hundred four (104) degrees fahrenheit;

9. Any wastewater containing any radioactive wastes or isotopes except as specifically approved by the industrial pretreatment coordinator in compliance with state or federal regulations;

10. Any free or emulsified fats, waxes, greases or oils of animal or vegetable origin in excess of two hundred (200) mg/L which may solidify or become viscous at temperatures between thirty-two (32) degrees fahrenheit (zero degrees centigrade) and one hundred fifty (150) degrees fahrenheit sixty-five (65) degrees centigrade and which, in the opinion of the control authority, it appears probable that such wastes:

- a. Can deposit grease or oil in the sewer system in such a manner as to obstruct the sewer;
- b. Can overload the discharger's skimming and grease handling equipment;
- c. Are not amendable to bacterial action and will therefor pass to the receiving stream without being affected by normal sewage treatment process;
- d. Can have deleterious effects on the treatment process due to excessive quantities or concentrations.

11. Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-quarters horsepower (hp) or greater shall be subject to the review and approval of the plumbing inspector;

12. Petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin, in amounts that will cause interference;

13. Any pollutants which result in the presence of toxic gases, vapors or fumes within the POTW in a quantity that may cause actual worker health and safety problems;

14. Any trucked or hauled pollutants, except at discharge points designated by the city;

15. Stormwater, surface water, ground water, artesian well water, roof runoff, subsurface drainage, swimming pool drainage, condensate, deionized water, noncontact cooling water, and unpolluted industrial wastewater, unless specifically authorized by the industrial pretreatment coordinator;

16. Any sludges, screenings, or other residues from the pretreatment of industrial wastes;

17. Any medical wastes, except as specifically authorized by the industrial pretreatment coordinator in a wastewater discharge permit;

18. Any wastewater causing the treatment plant's effluent to fail a toxicity test;

19. Any wastes containing detergents, surface active agents, or other substances which may cause excessive foaming in the POTW;

20. Any discharge or discharge creating a condition for the POTW or the receiving waters, which violates any statute, rule, regulation or ordinance of any public agency, including EPA and OSHD.

Sand Springs Code of Ordinances

B. Wastes prohibited by this section shall not be processed or stored in such manner that they could be discharged to the POTW.

C. All floor drains located in process or materials storage areas must discharge to the industrial user's pretreatment facility before connecting with the POTW.

D. Except as to categories in subsections 1, 2, 3, 4, 10, 12, 13 and 14 of subsection A of this section, the remaining categories outlined in subsection A of this section, shall be prohibited. When the industrial pretreatment coordinator determines that a user is contributing to the POTW, any of the enumerated substances in such amounts as to interfere with the operation of the POTW, the superintendent industrial pretreatment coordinator shall take appropriate enforcement action in accordance with the enforcement response plan hereby incorporated herein by reference thereto. (Prior code § 17-307)

Section 13.12.080 Interceptors for grease.

Grease, oil and sand interceptors shall be provided when, in the opinion of the industrial pretreatment coordinator, they are necessary for the proper handling of wastewater containing excessive amounts of grease and oil, or sand; except that such interceptors shall not be required for residential users. All interception units shall be of type and capacity approved by the industrial pretreatment coordinator and shall be so located to be easily accessible for cleaning and inspection. Such interceptors shall be inspected, cleaned, and repaired regularly, as needed, by the owner at his or her expense. (Prior code § 17-308)

Section 13.12.090 Analytical requirements.

All pollutant analyses, including sampling techniques, to be submitted as part of a wastewater discharge permit application or report shall be performed in accordance with the techniques prescribed in 40 CFR Part 136, unless otherwise specified in an applicable categorical pretreatment standard. If 40 CFR Part 136 does not contain sampling or analytical techniques for the pollutant in question, sampling and analyses must be performed in accordance with procedures approved by the EPA. (Prior code § 17-309)

Section 13.12.100 Tampering with sewer system prohibited--Penalty.

No person, as defined in this chapter, shall maliciously, wilfully, or knowingly break, alter, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works POTW. Any person violating this provision shall be subject to a fine for each offense and which shall not release any civil liability for damages and costs incident to replacement of the facilities. All persons charged with violation of this provision shall be entitled to trial by jury if required by Oklahoma Statutes. (Prior code § 17-310)

Section 13.12.110 Compliance monitoring.

A. Inspection and sampling requirements are as follows:

1. The city will conduct at least one inspection and sampling visit annually for each significant industrial user;

2. The city shall have the right to enter the facilities of any industrial user to ascertain whether the purpose of this chapter, and any permit or order issued hereunder, is being met and whether the industrial user is complying with all requirements thereof. Industrial users shall allow the industrial pretreatment coordinator or his or her representatives ready access to all parts of the premises for the purposes of inspection, sampling, records examination and copying, and the performance of any

Sand Springs Code of Ordinances

additional duties:

a. Where an industrial user has security measures in force which require proper identification and clearance before entry into its premises, the industrial user shall make necessary arrangements with its security guards so that, upon presentation of suitable identification, personnel from the city, state, and EPA will be permitted to enter without delay, for the purposes of performing their specific responsibilities;

b. The city, state and EPA shall have the right to set up on the industrial user's property, or require installation of, such devices as are necessary to conduct sampling or metering of the user's operations;

c. The city may require the industrial user to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the industrial user at its own expense. All devices used to measure wastewater flow and quality shall be calibrated periodically to ensure their accuracy;

d. Any temporary or permanent obstruction to safe and easy access to the industrial facility to be inspected or sampled shall be promptly removed by the industrial user at the written or verbal request of the industrial pretreatment coordinator and shall not be replaced. The costs of clearing such access shall be born by the industrial user; and

e. Unreasonable delays in allowing city personnel access to the industrial user's premises shall be a violation of this chapter.

B. Search Warrants. If the industrial pretreatment coordinator has been refused access to a building, structure or property or any part thereof, and if the industrial pretreatment coordinator has demonstrated probable cause to believe that there may be a violation of this chapter or that there is a need to inspect as part of a routine inspection program of the city designed to verify compliance with this chapter or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, then upon application by the City Attorney, the chief of police or any police officer of the city, the judge of the district court of Tulsa County may issue a search or seizure warrant describing therein the specific location subject to the warrant. The warrant shall specify what, if anything, may be searched or seized on the property described. Such warrant shall be served at reasonable hours by the industrial pretreatment coordinator in the company of a uniformed police officer of the city. In the event of an emergency affecting public health and safety, inspections shall be made without the issuance of a warrant. (Prior code § 17-311)

Section 13.12.120 General provisions.

The plumbing inspector shall inspect and approve all drainage and sewer work installed or to be installed in the city. He or she shall pass judgment upon all connections to private or public property, up to and including the place where such sewer work connects with the soil pipe. He or she shall approve such connections when the same shall conform to the provisions of this chapter, and no such connections shall be allowed without such approval. It is his or her duty to cause all excavations to be properly filled and restored to safe condition of usage. (Prior code § 17-312)

Section 13.12.140 Inspection required.

All drainage of buildings and all sewer work inside of private property lines in the city must be

Sand Springs Code of Ordinances

done or installed in accordance with the provisions of this chapter and all other applicable laws; and must be inspected by the plumbing inspector, pursuant to Sections 13.12.170 and 13.12.210 hereinafter, and a certificate of inspection issued therefor before the same may be used or connected with any public sewer, and all sewers and connections in streets or alleys of the city must be inspected by the plumbing inspector. (Prior code § 17-314)

Section 13.12.150 Inspection fees.

The plumbing inspector shall charge a fee as set by the City Council on all inspections of each sewer job. An additional fee shall be charged for each extra trip of the plumbing inspector caused by faulty work or work not being completed or ready for inspection when the plumbing inspector is notified to make such inspection. (Prior code § 17-315)

Section 13.12.160 Certificate of inspection.

Any person, firm or corporation, as defined in this chapter, making sewer connections must report the connections to the plumbing inspector as soon as the job is ready for inspection, and must keep the connections open for inspection until the inspection and compliance with this and other titles and the statutes of the state applicable thereto are complete, then a certificate of inspection shall thereupon be issued upon the payment of the fees therefor. (Prior code § 17-316)

Section 13.12.170 Excavations in street or public property.

No person, as defined in this chapter, shall excavate or cause any excavation in any street, alley, or other public place, or cut or cause to be cut any curb, sidewalk or pavement in the city, in doing or for the purpose of doing any work covered by this chapter, or any other work, without having a permit to do so from the inspections department and without having deposited such sum of money and having entered into such other undertaking as required by this or other chapters of the code of the city, as a guarantee for the replacement and reconstruction of such sidewalk, curb or pavement, approved by the city and shall be located as to be readily and easily accessible for cleaning and inspection. The owner shall be responsible for operation and maintenance of private grease, oil and sand traps. (Prior code § 17-317)

Section 13.12.180 Damages to public property must be repaired.

All damages to sidewalks, curbs, sewers, paving or other property of the city must be properly repaired or replaced by the person, firm or corporation causing the damage, either by themselves or their agents, servants or employees. (Prior code § 17-318)

Section 13.12.190 Excavations must be repaired.

Any person, as defined in the chapter, making, or causing to be made, any excavation in any street, alley or other public place in the city, must cause such excavation to be promptly and carefully refilled and repaired in accordance with this or other chapters of the code of the city, and the failure to do so shall constitute an offense under the provisions hereof. (Prior code § 17-319)

Section 13.12.200 Inspection within forty-eight (48) hours.

It is the duty of the plumbing inspector in all cases when notified, to cause inspection of all sewers in connection with sewage drainage within forty-eight (48) hours after receipt of notice from the

Sand Springs Code of Ordinances

sewer contractor or person doing the work in question that such work is ready for inspection. Holidays and Sundays shall not be included in computing the forty-eight (48) hour period. (Prior code § 17-320)

Section 13.12.210 Unlawful to proceed without permit.

It is unlawful for any person, as defined in this chapter, to proceed with any work connected or to be connected with any sewer system of the city, until a permit for such work has been obtained from the inspections department; provided that no permit shall be required for the making of minor repairs, unless a portion or a section of the drain line or sewer line is out, removed, or replaced. (Prior code § 17-321)

Section 13.12.220 All plumbing must be accessible for inspection.

In all buildings or structures hereafter erected in the city, both public and private, and in all buildings already erected wherein any plumbing is hereafter installed, or wherein any sewer connection pipes shall be repaired or changed on the sewer side of the tap, the drain, soil, waste, or any other pipe or pipes, and all traps, shall be placed in the building and exposed to view for ready inspection and test, and shall remain so exposed until approved by the plumbing inspector. In no case shall a trap be inaccessible at any time. (Prior code § 17-322)

Section 13.12.230 Connection outside building.

The connection of a sewer pipe to the sanitary sewer main shall be made with a proper tapping saddle, of the quality of a Geneco Sealtite C1, or equal. However, this connection shall not be made until the work inside and outside of the building has been tested and approved and inspected by the plumbing inspector. (Prior code § 17-323)

Section 13.12.240 Drains connected with sewer.

It is the duty of each person, as defined in this chapter, connecting or causing to be connected any drain, pipe or passage with any such sewer from any building, structure or premises, to cause such drain, pipe or passage and connection to be at all times adequate for its purpose and of such size and dimension as to convey and allow freely to pass whatever may properly enter the same. Whenever the lowest sewer inlet in a building or structure is less than four feet above the top of the sewer main at the point of connection or junction with the main, then in such event it is the duty of each person, as defined in this chapter, connecting or causing to be connected any sewer pipe to a sewer main to place in the sewer pipe a check valve, of the quality of a Tyler Pipe sewer valve with brass flap (Palmer type) or equal to prevent sewer back-ups in the event the sewer main or sewer pipe connected to the sewer main becomes clogged. Sewer pipe must conform to the requirements set forth in the BOCA, Basic Building Code, as defined in Section 5-201, and be free from defects and cracks and so molded that bells will receive the ends of the pipe freely. The same shall be laid to outlet with an even grade, with a fall of at least one-quarter inch per foot. In laying drain pipe, space must be excavated so that the bell end will have a solid bearing with the entire pipe. Backfilling must be packed up to the top of the pipe. Joints must be properly made and the inside of the joints must be made smooth. Changes of directions must be made with regulation curves, and all connections made with wide junctions. Ends not in immediate use must be tightly stopped to prevent dirt from entering the pipe. (Prior code § 17-324)

Section 13.12.250 Fiber pipe not allowed.

No fiber type pipe or fittings shall be used or permitted to be used for connection to the city

Sand Springs Code of Ordinances

sewage disposal system. (Prior code § 17-325)

Section 13.12.260 Prohibited sewer connections.

No roof or surface water drain pipe shall be connected so as to discharge into a sanitary sewer. No dam or other construction shall be placed in any sewer, unless permission to do so is expressly granted in writing by the city. In case any material discharged from any premises into any public or private sewer cannot, in the opinion of the city be rendered harmless to the public sewer and to the public health, such material shall be ordered excluded from any public, private, or district sewer. The city shall, in writing, notify the person or persons owning or occupying such premises to exclude such material from the sewer, and a failure to comply with such notice shall constitute a violation of this chapter. If catchbasins are needed to accomplish such exclusions, the written notice shall direct the building of such catchbasins, within thirty (30) days after serving of such notice. If after the expiration of the thirty (30) days the order shall not be complied with, the person, firm or corporation owning or controlling the premises shall be deemed guilty of a violation of this chapter. Where no sanitary sewers are accessible, sinks shall waste through a grease trap and not less than thirty (30) feet of filled tile disposal. (Prior code § 17-326)

Section 13.12.270 Drainage obstructions.

If the drainage discharged from any home, business, or establishment shall produce or form a deposit obstructing a sewer, the plumbing inspector shall immediately cause the removal of the obstruction, keeping account of the cost of such removal, and shall certify an account of the cost to the person or persons causing the obstruction; and if such person or persons shall fail, refuse or neglect to pay the sum to the city within five days after demand has been made, they shall be guilty of a public offense. (Prior code § 17-327)

Section 13.12.280 Separate drainage for every building.

Every building shall be separately and independently connected with a public sewer, where there is any such sewer adjacent to such building. The entire plumbing and drainage system of each building shall be entirely separate and independent from that of every other building, except that where there is more than one building on the lot, the sewer of the first building may be extended to serve the adjoining building on permission granted by the city which permission shall be in writing. A lot shall be any plot of ground, regardless of size, containing one dwelling and one garage or servant's quarters. Each and every house occupied or to be occupied as a residence, other than servant's quarters, must have a separate drain to the connection with the sewer. (Prior code § 17-328)

Section 13.12.290 Sewer installation to be underground.

All sewers shall be put in the ground at a sufficient depth to be safe from breaking by the ordinary use to which such property may be subjected. All sewer pipe must be placed at least eighteen (18) inches below the top of the ground measured from the top of such pipe, except when such depth is impossible or impracticable for lack of fall, in which case iron pipe caulked with lead shall be used between the building and the point where the depth above-mentioned may be acquired. (Prior code § 17-329)

Section 13.12.300 Apportionment of cost for connection of property outside sewer district.

When public sewers have been constructed, and the cost thereof has been wholly or partly paid out of the funds of the city, and the owner of any abutting property makes application for a permit to tap

Sand Springs Code of Ordinances

such sewer, no permit shall be issued to such abutting owner unless he or she shall have first paid to the city the assessment or assessments levied against the property for the cost of the sewer, or in the case where his or her property has not been assessed or where any intended assessment has been held invalid or considered invalid by the city, unless he or she pays a sum proportionate to that paid by other similar property owners who have been assessed. (Prior code § 17-330)

Section 13.12.310 Property outside sewer district--How connected.

Any person, as defined in this chapter, owning property or in charge of property not included in any sewer district which has been established, desiring to connect with the sewer owned and operated by the city nearest the property owned by such person, as defined in this chapter, shall first file with the city a written application therefor, signed by the person, as defined in this chapter, giving the legal description of the property and waiving any right to protest any assessment levied against the property for the subsequent installation of such sewer, providing the assessment is of the same proportion as assessments upon other property affected by the installation of the sewer. The plumbing inspector, upon receiving the application, shall make an inspection of the property specified in the application and if found practicable and that the connection will not be likely to overload the sewer if connected thereto, shall grant the permit. The fee for the permit shall be as set by the City Council, the fee to be collected prior to the time any permit is issued. (Prior code § 17-331)

Section 13.12.320 Penalty provisions.

Any person, as defined in this chapter, found to be violating any provisions of this chapter, except Section 3.12.110, shall be served written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations:

A. The owner of any building drains and building sanitary sewers and any private disposal system shall keep such facilities clean and in good repair. Failure to comply with written notice by the city to make repairs or remove violations including those existing at the time of passage of this chapter, shall subject the violator to fine and punishment as provided in Section 1.20.010 of this code. Each day of continued violation shall constitute a separate chargeable offense; and

B. Any person, as defined in this chapter, found guilty of violating any of the provisions of this chapter, or refusing to connect with the public sanitary sewer within the time prescribed by proper order, on conviction thereof, shall be punished by fine which shall not release any civil liability. Each day of continued violation shall constitute a separate offense. (Prior code § 17-332)

Section 13.12.330 Wastewater discharge permit eligibility.

A. Wastewater Survey. When requested by the industrial pretreatment coordinator all industrial users must submit information on the nature and characteristics of their wastewater by completing a wastewater survey. The industrial pretreatment coordinator is authorized to prepare a form for this purpose and may periodically require industrial users to update the survey. Failure to complete this survey shall be reasonable grounds for terminating service to the industrial user and shall be considered a violation of the chapter.

B. Wastewater Discharge Permit Requirement.

1. It shall be unlawful for any significant industrial user to discharge wastewater into the city's POTW without first obtaining a wastewater discharge permit from the industrial pretreatment coordinator. Any violation of the terms and conditions of a wastewater discharge permit shall be deemed a violation of this chapter and subjects the wastewater discharge permittee to the sanctions set out in the enforcement response plan. Obtaining a wastewater discharge permit does not relieve a permittee of its

Sand Springs Code of Ordinances

obligation to comply with all federal and state pretreatment standards or requirements or with any other requirements of federal, state and local law; and

2. The industrial pretreatment coordinator may require other industrial users, including liquid waste haulers, to obtain wastewater discharge permits as necessary to carry out the purposes of this chapter.

C. **Wastewater Discharge Permitting Existing Connections.** Any significant industrial user which discharges industrial waste into the POTW prior to the effective date of this chapter and who wishes to continue such discharges in the future, shall, within thirty (30) days after the date, apply to the city for a wastewater discharge permit in accordance with subsection E, wastewater discharge permit application contents, of this section.

D. **Wastewater Discharge Permitting New Connections.** Any significant industrial user proposing to begin or recommence discharging industrial wastes into the POTW must obtain a wastewater discharge permit prior to the beginning or recommencing of such discharge. An application for this wastewater discharge permit must be filed at least thirty (30) days prior to the date upon which any discharge will begin.

E. **Wastewater Discharge Permit Application Contents.** In order to be considered for a wastewater discharge permit, all industrial users required to have a wastewater discharge permit must submit the information required by Section 13.12.410, baseline monitoring reports, of this chapter. The industrial pretreatment coordinator shall approve a form to be used as a permit application. In addition, the following information may be requested:

1. Description of activities, facilities, and plant processes on the premises, including a list of all raw materials and chemicals used or stored at the facility which are, or could accidentally or intentionally be, discharged to the POTW;

2. Number and type of employees, hours of operation, and proposed or actual hours of operation of the POTW;

3. Each product produced by type, amount, process or processes, and rate of production;

4. Type and amount of raw materials processed (average and maximum per day);

5. The site plans, floor plans, mechanical and plumbing plans, and details to show all sewers, floor drains, and appurtenances by size, location, and elevation, and all points of discharge;

6. Time and duration of the discharge; and

7. Any other information as may be deemed necessary by the industrial pretreatment coordinator to evaluate the wastewater discharge permit application. Incomplete or inaccurate applications will not be processed and will be returned to the industrial user for revision.

F. **Application Signatories and Certification.** All wastewater discharge permit applications and industrial user reports must contain the following certification statement and be signed by an authorized representative of the industrial user:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure the qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

(Prior code § 17-333)

Section 13.12.340 Wastewater discharge permit issuance process.

A. **Wastewater Discharge Permit duration:** wastewater discharge permits shall be issued for

Sand Springs Code of Ordinances

a specified time period, not to exceed five years. A wastewater discharge permit may be issued for a period less than five years, at the discretion of the industrial pretreatment coordinator. Each wastewater discharge permit will indicate a specific date upon which it will expire.

B. Wastewater Discharge Permit Contents. Wastewater discharge permits shall include such conditions as are reasonably deemed necessary by the industrial pretreatment coordinator to prevent pass through or interference, protect the quality of the water body receiving the treatment plant's effluent, protect worker health and safety, facilitate sludge management and disposal, protect ambient air quality, and protect against damage to the POTW.

1. Wastewater discharge permits must contain the following conditions:

a. A statement that indicates wastewater discharge permit duration, which in no event shall exceed five years;

b. A statement that the wastewater discharge permit is nontransferable without prior notification to and approval from the city, and provisions for furnishing the new owner or operator with a copy of the existing wastewater discharge permit;

c. Effluent limits applicable to the user based on applicable standards in federal, state, and local law;

d. Self-monitoring, sampling, reporting, notification, and record keeping requirements. These requirements shall include an identification of pollutants to be monitored, sampling location, sampling frequency, and sample type based on federal, state, and local law; and

e. Statement of applicable civil, criminal, and administrative penalties for violation of pretreatment standards and requirements, and any applicable compliance schedule. Such schedule may not extend the time for compliance beyond that required by applicable federal, state, or local law;

2. Wastewater discharge permits may contain, but need not be limited to, the following:

a. Limits on the average or maximum rate of discharge, time of discharge, or requirements for flow regulation and equalization;

b. Limits on the instantaneous, daily and monthly average or maximum concentration, mass, or other measure of identified wastewater pollutants or properties;

c. Requirements for the installation of pretreatment technology, pollution control, or construction of appropriate containment devices, designed to reduce, eliminate, or prevent the introduction of pollutants into the treatment works;

d. Development and implementation of spill control plans or other special conditions including management practices necessary to adequately prevent accidental, unanticipated, or routine discharges;

e. Development and implementation of waste minimization plans to reduce the amount of pollutants discharge to the POTW;

f. The unit charge or schedule of industrial user charges and fees for the management of the wastewater discharged to the POTW;

g. Requirements for installation and maintenance of inspection and sampling facilities and equipment;

h. A statement that compliance with the wastewater discharge permit does not relieve the permittee of responsibility for compliance with all applicable federal and state pretreatment standards, including those which become effective during the term of the wastewater discharge permit; or

i. Other conditions as deemed appropriate by the industrial pretreatment coordinator to ensure compliance with this chapter, and state and federal laws, rules, and regulations.

C. Wastewater Discharge Permit Appeals. Any person, as defined in this chapter, including the industrial user, may petition the city to appeal the denial or the terms of a wastewater discharge permit within thirty (30) days of its denial or issuance. Such appeal shall be perfected by filing with the public works director, within the time provided, a written appeal petition.

1. Failure to submit a timely petition for review appeal shall be deemed to be a waiver of the administrative appeal;

2. In its written appeal petition, the appealing party must indicate the wastewater discharge

Sand Springs Code of Ordinances

permit provisions objected to, the reasons for this objection, and the alternative condition, if any, it seeks to place in the wastewater discharge permit;

3. The effectiveness of the wastewater discharge permit shall not be stayed pending the appeal;

4. If the public works director fails to act within thirty (30) days of the filing of such appeal, an appeal request for reconsideration shall be deemed to be denied. Decisions not to reconsider a wastewater discharge permit, not to issue a wastewater discharge permit, or not to modify a wastewater discharge permit, shall be considered final administrative action for purposes of judicial review; and

5. Aggrieved parties seeking judicial review of the final administrative wastewater discharge permit decision must do so by filing a complaint with the district court clerk for Tulsa County, state of Oklahoma, within ten (10) days from the date of such denial.

D. Wastewater Discharge Permit Modification. The industrial pretreatment coordinator may modify the wastewater discharge permit for good cause including, but not limited to, the following:

1. To incorporate any new or revised federal, state, or local pretreatment standards or requirements;

2. To address significant alterations or additions to the industrial user's operation, processes, or wastewater volume or character since the time of wastewater discharge permit issuance;

3. A change in the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;

4. Information indicating that the permitted discharge poses a threat to the city's POTW, city personnel, or the receiving waters;

5. Violation of any terms or conditions of the wastewater discharge permit;

6. Misrepresentations or failure to fully disclose all relevant facts in the wastewater discharge permit application or in any required reporting;

7. Revision of or a grant of variance from categorical pretreatment standards pursuant to 40 CFR 403.13;

8. To correct typographical or other errors in the wastewater discharge permit; or

9. To reflect a transfer of the facility ownership or operation to a new owner or operator.

E. Wastewater Discharge Permit Transfer. Wastewater discharge permits may be reassigned or transferred to a new owner or operator only if the permittee gives at least thirty (30) days advance notice to the industrial pretreatment coordinator and the industrial pretreatment coordinator must include a written certification by the new owner or operator which:

1. States that the new owner or operator has no immediate intent to change the facility's operations and processes;

2. Identifies the specific date on which the transfer is to occur; and

3. Acknowledges full responsibility for complying with the existing wastewater discharge permit.

Failure to provide advance notice of a transfer renders the wastewater discharge permit voidable on the date of facility transfer.

F. Wastewater Discharge Permit Revocation. Wastewater discharge permits may be revoked for the following reasons:

1. Failure to notify the city of significant change to the wastewater prior to the changed discharge;

2. Failure to provide prior notification to the city of changed condition pursuant to subsection E of Section 13.12.410. Report of changed conditions;

3. Misrepresentation or failure to fully disclose all relevant facts in the wastewater discharge permit application;

4. Falsifying self-monitoring reports;

5. Tampering with monitoring equipment;

6. Refusing to allow the city timely access to the facility premises and records;

7. Failure to meet effluent limitations;

Sand Springs Code of Ordinances

8. Failure to pay fines;
9. Failure to pay sewer charges;
10. Failure to meet compliance schedules;
11. Failure to complete a wastewater survey or the wastewater discharge permit application;
12. Failure to provide advance notice of the transfer of a permitted facility; or
13. Violation of any pretreatment standard or requirement, or any terms of the wastewater discharge permit or this chapter.

Wastewater discharge permits shall be voidable upon nonuse, cessation of operations, or transfer of business ownership. All wastewater discharge permits are void upon the issuance of a new wastewater discharge permit.

G. **Wastewater Discharge Permit Issuance.** A significant industrial user shall apply for wastewater discharge permit reissuance by submitting a complete wastewater discharge permit application in accordance with subsection E of Section 13.12.330, wastewater discharge permit application contents, a minimum of thirty (30) days prior to the expiration of the industrial user's existing wastewater discharge permit. (Prior code § 17-334)

Section 13.12.350 Confidential information.

Information and data on an industrial user obtained from reports, questionnaires, surveys, wastewater discharge permit applications, wastewater discharge permits and monitoring programs and from city inspections and sampling activities shall be available to the public without restriction unless the industrial user specifically requests and is able to demonstrate to the satisfaction of the city that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets under applicable state law. When requested and demonstrated by the industrial user furnishing a report that such information should be held confidential, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available immediately upon request to governmental agencies for uses related to the NPDES program or pretreatment program, and in enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics and other "effluent data" as defined by 40 CFR 2.302 will not be recognized as confidential information and will be available to the public without restriction. (Prior code § 17-335)

Section 13.12.360 Federal categorical pretreatment standards.

The national categorical pretreatment standards found at 40 CFR Chapter I, Subchapter N, Parts 405-471 are hereby incorporated herein verbatim. (Prior code § 17-336)

Section 13.12.370 Specific pollutant limitations.

1. The following pollutant limits are established to protect against pass through and interference. No discharge of wastewater containing in excess of the following concentrations shall be permitted:

Pollutant	Limitation (mg/L)
Arsenic	1.0
Cadmium	0.4
Chromium	3.0
Copper	3.0
Cyanide	2.0

Sand Springs Code of Ordinances

Lead	5.0
Mercury	0.07
Nickel	7.0
Silver	2.0
Zinc	4.0

2. These are uniform concentration limits and apply to all users at the point where the industrial waste is discharged to the POTW. All concentrations for metallic substances are for "total" metal unless indicated otherwise. At his or her discretion, the industrial pretreatment coordinator may impose mass limitations in addition to or in place of the concentration based limitations above.

B. The city reserves the right to enter into special agreements with industrial users setting out special terms under which they may discharge to the POTW. In no case will a special agreement waive compliance with a pretreatment standard or requirement. However, the industrial user may request a net gross adjustment to a categorical standard in accordance with 40 CFR 403.15. They may also request a variance from the categorical pretreatment standard from EPA. Such a request will be approved only if the industrial user can prove that factors relating to its discharge are fundamentally different from the factors considered by EPA when establishing that pretreatment standard. An industrial user requesting a fundamentally different factor variance must comply with the procedural and substantive provisions in 40 CFR 403.13.

C. In addition, the city shall reserve the right to prohibit the discharge of wastewater which exceeds two hundred fifty (250) milligrams per liter (mg/L) biochemical oxygen demand (BOD) or two hundred fifty (250) mg/L total suspended solids (TSS). In the event the city elects to accept wastewater which contains BOD or TSS in excess of the two hundred fifty (250) mg/L threshold concentration, a surcharge shall be assessed. This surcharge shall be calculated as follows:

$$\text{Industrial Surcharge} = V (A (\text{BOD} - 250) + B (\text{TSS} - 250))$$

Where V equals total volume of wastewater discharged in gallons per month;

A equals BOD surcharge in dollars per gallon of wastewater;

BOD equals the measured concentration of biochemical oxygen demand (five days at twenty (20) degrees centigrade) in mg/L (ppm) of the wastewater;

B equals TSS surcharge in dollars per gallon of wastewater;

TSS equals the measured concentration of Total Suspended Solids in mg/L (ppm) of the wastewater. (Prior code § 17-337; Ord. 877, § 1 (part), eff. August 14, 1995)

Section 13.12.380 City's right of revision.

The city reserves the right to establish, by or in wastewater permits, more stringent standards or requirements on discharges to the POTW if deemed necessary to comply with the general and specific prohibitions of this chapter. (Prior code § 17-338)

Section 13.12.390 Dilution.

No industrial user shall ever increase the use of process water or, in any way, attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the discharge limitation unless expressly authorized by an applicable pretreatment standard or requirement.

Sand Springs Code of Ordinances

(Prior code § 17-339)

Section 13.12.400 Accidental discharge/slug control plans.

The industrial pretreatment coordinator may require any industrial user to develop and implement an accidental discharge/slug control plan. At least once every two years the pretreatment coordinator shall evaluate whether each significant industrial user needs such a plan. Any industrial user required to develop and implement an accidental discharge/slug control plan shall submit a plan which addresses, at a minimum, the following:

1. Description of discharge practices, including nonroutine batch discharges;
2. Description of stored chemicals;
3. Procedures for immediately notifying the POTW of any accidental or slug discharge.

Such notification must also be given for any discharge which would violate any of the prohibited discharges in Section 13.12.070; and

4. Procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site run-off, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants (including solvents), or measures and equipment for emergency response. (Prior code § 17-340)

Section 13.12.410 Reporting requirements.

A. Baseline monitoring reports:

1. Within either one hundred eighty (180) days after the effective date of a categorical pretreatment standard, or the final administrative decision on a category determination under 40 CFR 403.6(a)(4), whichever is later, existing significant industrial users subject to such categorical pretreatment standards, and currently discharging to or scheduled to discharge to the POTW shall be required to submit to the city a report which contains the information listed in subsection 2 below. At least ninety (90) days prior to commencement of their discharge, new sources, and sources that become industrial users subsequent to the promulgation of an applicable categorical standard, shall be required to submit to the city a report which contains the information listed in subsection 2 below. A new source shall also be required to report the method of pretreatment it intends to use to meet applicable pretreatment standards. A new source shall also give estimates of its anticipated flow and quantity of pollutants discharged.

2. The industrial user shall submit the information required by this section including:

- a. Identifying Information. The name and address of the facility, including the name of the operator and owners;

- b. Wastewater Discharge Permits. A list of any environmental control wastewater discharge permits held by or for the facility;

- c. Description of Operations. A brief description of the nature, average rate of production, and standard industrial classifications of the operation carried out by such industrial user. This description should include a schematic process diagram which indicates points of discharge to the POW from the regulated processes;

- d. Flow Measurement. Information showing the measured average daily and maximum daily flow, in gallons per day, to the POTW from regulated process streams and other streams, as necessary, to allow use of the combined wastestream formula set out in 40 CFR 403.6(e);

- e. Measurement of Pollutants.

- i. Identify the categorical pretreatment standards applicable to each regulated process,

- ii. Submit the results of sampling and analysis identifying the nature and concentration (or mass, where required by the standard or by the city) of regulated pollutants in the discharge from each

Sand Springs Code of Ordinances

regulated process. Instantaneous, daily maximum and long term average concentrations (or mass, where required) shall be reported. The sample shall be representative of daily operations and shall be analyzed in accordance with procedures set out in Section 13.12.090, analytical requirements,

iii. Sampling must be performed in accordance with procedures set out in subsection J, sample collection, of this section.

f. Certification. A statement reviewed by the industrial user's authorized representative and certified by a qualified professional, indicating whether pretreatment standards are being met on a consistent basis and, if not, whether additional operation and maintenance (O&M) or additional pretreatment is required to meet the pretreatment standards and requirements;

g. Compliance Schedule. If additional pretreatment or O&M will be required to meet the pretreatment standards; the shortest schedule by which the industrial user will provide such additional pretreatment or O&M. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard;

h. All baseline monitoring reports must be signed and certified in accordance with subsection F of Section 13.12.330; and

i. All notices and self-monitoring reports required by EPA regulations.

B. Compliance Schedule Progress Report. The following conditions shall apply to the schedule required by baseline monitoring reports in subsection (A)(2)(g) above. The schedule shall contain progress increments in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (Such events include hiring an engineer, completing preliminary and final plans, executing contracts for major components, commencing and completing construction, beginning and conducting routine operation.). No increment referred to above shall exceed nine months. The industrial user shall submit a progress report to the industrial pretreatment coordinator no later than fourteen (14) days following each date in the schedule and the final date of compliance including, as a minimum, whether or not it complied with the increment of progress, the reason for any delay, (and, if appropriate) the steps being taken by the industrial user to return to the established schedule. In no event shall more than nine months elapse between such progress reports to the industrial pretreatment coordinator.

C. Report On Compliance With Categorical Pretreatment Standard Deadline. Within ninety (90) days following the date for final compliance with applicable categorical pretreatment standards, or in the case of a new source following commencement of the introduction of wastewater into the POTW, any industrial user subject to such pretreatment standards and requirements shall submit to the city a report containing the information described in this section on baseline monitoring reports in subsection (A)(2)(d) through (f) above. For industrial users subject to equivalent mass or concentration limits established in accordance with the procedures in 40 CFR 403.6(c), this report shall contain a reasonable measure of the industrial user's long-term production rate. For all other industrial users subject to categorical pretreatment standards expressed in terms of allowable pollutant discharge per unit of production (or other measure of operation), this report shall include the industrial user's actual production during the appropriate sampling period. All compliance reports must be signed and certified in accordance with subsection F of Section 13.12.330.

D. Periodic Compliance Reports.

1. Any significant industrial user subject to a pretreatment standard shall, at a frequency determined by the industrial pretreatment coordinator but in no case less than twice per year (in June and December), submit a report indicating the nature and concentration of pollutants in the discharge which are limited by such pretreatment standards and the measured or estimated average and maximum daily flows for the reporting period. All periodic compliance reports must be signed and certified in accordance with subsection F of Section 13.12.330;

2. All wastewater samples must be representative of the industrial user's discharge. Wastewater monitoring and flow measurement facilities shall be properly operated, kept clean, and maintained in good working order at all times. The failure of an industrial user to keep its monitoring

Sand Springs Code of Ordinances

facility in good working order shall not be grounds for the industrial user to claim that sample results are unrepresentative of its discharge;

3. If an industrial user subject to the reporting requirement in and of this section monitors any pollutant more frequently than required by the POTW, using the procedures prescribed in Section 13.12.090, sample collection, of this chapter the results of this monitoring shall be included in the report.

E. Report of Changed Conditions. Each industrial user is required to notify the industrial pretreatment coordinator of any planned significant changes of the industrial user's operations or system which might alter the nature, quality or volume of its wastewater at least thirty (30) days before the change:

1. The industrial pretreatment coordinator may require the industrial user to submit such information as may be deemed necessary to evaluate the changed condition, including the submission of a wastewater discharge permit application under subsection E of Section 13.12.330;

2. The industrial pretreatment coordinator may issue a new wastewater discharge permit or modify an existing wastewater discharge permit;

3. No industrial user shall implement the planned changed condition until and unless the industrial pretreatment coordinator has responded to the industrial user's notice;

4. For purposes of this requirement the discharge of any previously unreported pollutants shall be deemed significant.

F. Reports of Potential Problems.

1. In the case of any discharge including, but not limited to, accidental discharges, discharges of a nonroutine, episodic nature, a noncustomary batch discharge, or a slug load which may cause potential problems for the POTW (including a violation of the prohibited discharge standards in Section 13.12.070 of this chapter, it is the responsibility of the industrial user to immediately telephone and notify the city of the incident. This notification shall include the location of discharge, type of waste, concentration and volume, if known, and corrective actions taken by the industrial user;

2. Within five days following such discharge, the industrial user shall, unless waived by the industrial pretreatment coordinator, submit a detailed written report describing the cause of the discharge and the measures to be taken by the industrial user to prevent similar future occurrences. Such notification shall not relieve the industrial user of any expense, loss, damage, or other liability which may be incurred as a result of damage to the POTW, natural resources, or any other damage to person or property; nor shall such notification relieve the industrial user of any fines, civil penalties, or other liability which may be imposed by this chapter;

3. Failure to notify the city of potential problem discharge shall be deemed a separate violation of this chapter;

4. A notice shall be permanently posted on the industrial user's bulletin board or other prominent place advising employees whom to call in the event of discharge described in subsection 1(F)(1), above. Employers shall ensure that all employees, who may cause or suffer such a discharge to occur, are advised of the emergency notification procedure.

G. Reports From Nonsignificant Industrial Users. All industrial users not subject to categorical pretreatment standards and not required to obtain a wastewater discharge permit shall provide appropriate reports to the city as the industrial pretreatment coordinator may require.

H. Notice of Violation/Repeat Sampling and Reporting. If sampling performed by an industrial user indicates a violation, the industrial user must notify the control authority within twenty-four (24) hours of becoming aware of the violation. The industrial user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the control authority within thirty (30) days after becoming aware of the violation. The industrial user is not required to resample if the POTW performs monitoring at the industrial user's at least once a month, or if the POTW performs sampling between the industrial user's initial sampling and when the industrial user received the results of this sampling.

I. Notification of the Discharge of Hazardous Waste.

1. Any industrial user who commences the discharge of hazardous waste shall notify the

Sand Springs Code of Ordinances

POTW, the EPA regional waste management division director, and state hazardous waste authorities in writing of any discharge into the POTW of a substance which, if otherwise disposed of, would be a hazardous waste under 40 CFR Part 261. Such notification must include the name of the hazardous waste as set forth in 40 CFR Part 261, the EPA hazardous waste number, and the type of discharge (continuous, batch, or other). If the industrial user discharges more than ten (10) kilograms of such waste per calendar month to the POTW, the notification shall also contain the following information to the extent such information is known and readily available to the industrial user: An identification of the hazardous constituents contained in the wastes, an estimation of the mass and concentration of such constituents in the wastestream discharged during that calendar month, and an estimation of the mass of constituents in the wastestream expected to be discharged during the following twelve (12) months. All notifications must take place no later than one hundred eighty (180) days after the discharge commences. Any notification under this subsection need be submitted only once for each hazardous waste discharged. However, notifications of changed discharges must be submitted under subsection E of this section, report of changed conditions, above. The notification requirement in this subsection does not apply to pollutants already reported under the self-monitoring requirements of sections on baseline monitoring reports, report on compliance with categorical pretreatment standard deadline and periodic compliance reports, above;

2. Dischargers are exempt from the requirements of subsection (I)(1) of this section during a calendar month in which they discharge no more than fifteen (15) kilograms of hazardous wastes, unless the wastes are acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e). Discharge of more than fifteen (15) kilograms of non-acute hazardous wastes in a calendar month, or of any quantity of acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e), requires a one-time notification. Subsequent months during which the industrial user discharges more than such quantities of any hazardous waste do not require additional notification;

3. In the case of any new regulations under Section 3001 of RCRA identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the industrial user must notify the POTW, the EPA regional waste management waste division director, and state hazardous waste authorities of the discharge of such substance within ninety (90) days of the effective date of such regulations; or

4. In the case of any notification made under this section, the industrial user shall certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical.

J. Sample Collection.

1. Except as indicated in subsection (J)(2) below, the industrial user must collect wastewater samples using flow proportional composite collection techniques. In the event flow proportional sampling is infeasible, the industrial pretreatment coordinator may authorize the use of time proportional sampling or through a minimum of four grab samples where the user demonstrates that this will provide a representative sample of the effluent being discharged. Batch discharges may collect one grab sample if this is representative of the batch being discharged;

2. Samples for oil and grease, temperature, pH, cyanide, phenols, sulfides, and volatile organic chemicals must be obtained using grab collection techniques.

K. Determination of Noncompliance. The industrial pretreatment coordinator may use grab samples to determine noncompliance with pretreatment standards.

L. Record Keeping. Industrial users shall retain, and make available for inspection and copying, all records and information required to be retained under this chapter. These records shall remain available for a period of at least three years. This period shall be automatically extended for the duration of any litigation concerning compliance with this chapter, or where the industrial user has been specifically notified of a longer retention period by the industrial pretreatment coordinator. (Prior code § 17-341)

Section 13.12.420 Monitoring facilities.

Sand Springs Code of Ordinances

A. The city shall require to be provided and operated at the user's own expense, monitoring facilities to allow inspection, sampling, and flow measurement of the building sewer or internal drainage systems. The monitoring facility should normally be situated on the user's premises, but the city may, when such a location would be impractical or cause undue hardship on the user, allow the facility to be constructed in the public street or sidewalk area and located so that it will not be obstructed by landscaping or parked vehicles.

B. There shall be ample room in or near such sampling manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling, and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the user.

C. Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the city's requirements and all applicable local construction standards and specifications. Construction shall be completed within ninety (90) days following written notification by the city. (Prior code § 17-342)

Section 13.12.430 Pretreatment.

A. Users shall provide necessary wastewater treatment as required to comply with this chapter and shall achieve compliance with all Federal Categorical Pretreatment Standards within the time limitations as specified by the Federal Pretreatment Regulations. Any facilities required to pretreat wastewater to a level acceptable to the city shall be provided, operated, and maintained at the user's expense. Detailed plans showing the pretreatment facilities and operating procedures shall be submitted to the city for review, and shall be acceptable to the city before construction of the facility. The review of such plans and operating procedures will in no way relieve the user from the responsibility of modifying the facility as necessary to produce an effluent acceptable to the city under the provisions of this chapter. Any subsequent changes in the pretreatment facilities or method of operation shall be reported to and be acceptable to the city prior to the user's initiation of the changes.

B. Whenever deemed necessary, the industrial pretreatment coordinator may require industrial users to restrict their discharge during peak flow periods, designate that certain wastewater be discharged only into specific sewers, relocate or consolidate points of discharge, separate sewage wastestreams from industrial wastestreams, and such other conditions as may be necessary to protect the POTW and determine the industrial user's compliance with the requirements of this chapter.

C. Where an owner of property leases premises to any other person as a tenant under any rental or lease agreement, if either the owner or the tenant is an industrial user, either or both may be held responsible for compliance with the provisions of this chapter. (Prior code § 17-343)

Section 13.12.440 Publication of industrial users in significant noncompliance.

The city shall publish annually, in the largest daily newspaper published in the municipality where the POTW is located, a list of the industrial users which, during the previous twelve (12) months, were in significant noncompliance with applicable pretreatment standards and requirements. The term "significant noncompliance" means:

A. Chronic violations of wastewater discharge limits, defined here as those in which sixty-six (66) percent or more of wastewater measurements taken during a six-month period exceed the daily maximum limit or average limit for the same pollutant parameter by any amount;

B. Technical review criteria (TRC) violations, defined here as those in which thirty-three (33) percent or more of wastewater measurements taken for each pollutant parameter during a six-month period equals or exceeds the product of the daily maximum limit or the average limit multiplied by the applicable criteria (1.4 for BOD, TSS, fats, oils and grease, and 1.2 for all other pollutants except pH);

C. Any other discharge violation that the city believes has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of city personnel or

Sand Springs Code of Ordinances

the general public);

D. Any discharge of pollutants that has caused imminent endangerment to the public or to the environment, or has resulted in the city's exercise of its emergency authority to halt or prevent such a discharge;

E. Failure to meet, within ninety (90) days of the scheduled date, a compliance schedule milestone contained in a wastewater discharge permit or enforcement order for starting construction, completing construction, or attaining final compliance;

F. Failure to provide within thirty (30) days after the due date, any required reports, including baseline monitoring reports, ninety-day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;

G. Failure to accurately report noncompliance; or

H. Any other violation which the city determines will adversely affect the operation or implementation of the local pretreatment program. (Prior code § 17-344)

Section 13.12.450 Emergency suspensions.

A. The city may immediately suspend a user's discharge (after informal notice to the user) whenever such suspension is necessary in order to stop an actual or threatened discharge which reasonably appears to present or cause an imminent or substantial endangerment to the health or welfare of persons. The city may also immediately suspend a user's discharge (after notice and opportunity to respond) that threatens to interfere with the operation of the POTW, or which presents or may present an endangerment to the environment.

1. Any user notified of a suspension of its discharge shall immediately stop or eliminate its contribution. In the event of a user's failure to immediately comply voluntarily with the suspension order, the city shall take such steps as deemed necessary, including immediate severance of the sewer connection, to prevent or minimize damage to the POTW, its receiving stream, or endangerment to any individuals. The city shall allow the user to recommence its discharge when the user has demonstrated to the satisfaction of the city that the period of endangerment has passed;

2. A user that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence to the city, prior to the date of any show cause or termination hearing under Section 13.12.480, show cause hearing.

B. Nothing in this section shall be interpreted as requiring a hearing prior to any emergency suspension under this section. (Prior code § 17-345)

Section 13.12.460 Revocation of permit.

A. Wastewater discharge permits may be revoked for the following reasons:

1. Failure to notify the city of significant changes to the wastewater prior to the changed discharge;

2. Failure to provide prior notification to the city of changed condition pursuant to subsection E of Section 13.12.410, report of changed conditions;

3. Misrepresentation or failure to fully disclose all relevant facts in the wastewater discharge permit application;

4. Falsifying self-monitoring reports;

5. Tampering with monitoring equipment;

6. Refusing to allow the city timely access to the facility premises and records;

7. Failure to meet effluent limitations;

8. Failure to pay fines;

9. Failure to pay sewer charges;

Sand Springs Code of Ordinances

10. Failure to meet compliance schedules;
11. Failure to complete a wastewater survey or the wastewater discharge permit application;
12. Failure to provide advance notice of the transfer of a permitted facility; or
13. Violation of any pretreatment standard or requirement, or any terms of the wastewater discharge permit or this chapter.

B. Wastewater discharge permits shall be voidable upon nonuse, cessation of operations, or transfer of business ownership. All wastewater discharge permits are void upon the issuance of a new wastewater discharge permit. (Prior code § 17-346)

Section 13.12.470 Notification of violation.

Whenever the city finds that any user has violated or is violating this chapter, wastewater contribution permit, or any prohibition, limitation or requirements contained herein, the city may serve upon such person a written notice stating the nature of the violation. (Refer to Enforcement Response Plan) (Prior code § 17-347)

Section 13.12.480 Show cause hearing.

Such notice may be served on any authorized representative of the user. Whether or not the user appears as ordered, immediate enforcement action may be pursued following the hearing date. A show cause hearing shall not be a prerequisite for taking any other action against the user. (Prior code § 17-348)

Section 13.12.490 Injunctive relief.

Whenever a user has violated a pretreatment standard or requirement or continues to violate the provisions of this chapter, wastewater discharge permits or orders issued hereunder, or any other pretreatment requirements, the public works director may petition the district court of Tulsa County, state of Oklahoma, through the city's attorney for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the wastewater discharge permit, order, or other requirement imposed by this chapter on activities of the industrial users. Such other action as appropriate for legal or equitable relief may also be sought by the city. A petition for injunctive relief need not be filed as a prerequisite to taking any other action. (Prior code § 17-349)

Section 13.12.500 Right of appeal.

Any discharger or any interested party shall have the right to request in writing an interpretation or ruling by the City Attorney on any matter covered by this chapter and shall be entitled to a prompt written reply. In the event that such inquiry is by a discharger and deals with matters of performance or compliance with this chapter, for which enforcement activity relating to an alleged violation is the subject, receipt of a discharger's request shall stay all enforcement proceedings pending receipt of the aforesaid written reply. Appeal of any final judicial order entered pursuant to this chapter may be taken in accordance with applicable state and local laws. (Prior code § 17-350)

Section 13.12.510 Civil penalties.

Any user who is found to have violated an order of the City Council or who wilfully or negligently fails to comply with any provision of this chapter, and the orders, rules, regulations and permits issued hereunder, shall be fined not to exceed one thousand dollars (\$1,000.00) or any greater amount as may be allowed by state law, including costs for each violation; provided however, the user

Sand Springs Code of Ordinances

may in addition thereto be assessed as additional civil penalty, the amount of any civil penalty incurred by the city, from the Environmental Protection Agency of the United States government or successor thereto as a result of users violation, and any cost associated therewith. Each day on which a violation shall occur or continue shall be deemed as separate and distinct violation. In addition to the penalties, provided herein, the city may recover reasonable attorneys' fees, court costs, court reporters' fees and other expenses of litigation by appropriate suit at law against the person found to have violated this chapter or the orders, rules, regulations, and permits issued hereunder. The penalty provided hereunder shall be deemed cumulative with any other enforcement provision contained in this chapter. (Prior code § 17-351)

Section 13.12.520 Falsifying information.

Any person who knowingly makes any false statements, representation or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this chapter, or wastewater contribution permit, or who falsifies, tampers with or knowingly renders inaccurate any monitoring device or method required under this chapter, shall, upon conviction, be punished as provided in Section 1.20.010 of this code and their permit may be ordered revoked. Each falsification shall be considered a separate offense. (Prior code § 17-352)

Section 13.12.530 Accepting jurisdiction.

Any person, firm or corporation who applies for and receives a permit under the provisions of this chapter and connects to the POTW thereby accepts the jurisdiction of the city to enforce the requirements and penalties set out, whether within or without the corporate limits. (Prior code § 17-353)

Section 13.12.540 Summary disconnection.

Any connection to the POTW made without a permit as required by this chapter shall be immediately disconnected and plugged without notice. (Prior code § 17-354)

Section 13.12.550 Criminal prosecution.

A. Any user that wilfully or negligently violates any provision of this chapter, any orders or wastewater discharge permits issued hereunder, or any other pretreatment requirement shall, upon conviction, be guilty of a misdemeanor, punishable as provided in subsection A of Section 1.20.010 per violation per day.

B. Any user that wilfully or negligently introduces any substance into the POTW which causes personal injury or property damage shall, upon conviction, be guilty of a misdemeanor and be subject to punishment as provided in subsection A of Section 1.20.010 of this code. This penalty shall be in addition to any other cause of action for personal injury or property damage available under state law.

C. Any user that knowingly makes any false statements, representations, or certifications in any application, record, report, plan or other documentation filed, or required to be maintained, pursuant to this chapter, wastewater discharge permit or order, or who falsifies, tampers with or knowingly renders inaccurate any monitoring device or method required under this chapter shall, upon conviction, be punished as provided in subsection B of Section 1.20.010 of this code.

D. In the event of a second conviction, a user shall be punished as provided in subsection A of Section 1.20.010 of this code per violation per day. (Prior code § 17-355)

Section 13.12.560 Affirmative defenses to discharge violations.

Sand Springs Code of Ordinances

A. Upset.

1. For the purposes of this section, "upset" means an exceptional incident in which there is unintentional and temporary noncompliance with categorical pretreatment standards because of factors beyond the reasonable control of the industrial user. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance, or careless or improper operation;

2. An upset shall constitute an affirmative defense to an action brought for noncompliance with categorical pretreatment standards if the requirements of subsection C are met;

3. An industrial user who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:

a. An upset occurred and the industrial user can identify the cause of the upset;

b. The facility was at the time being operated in a prudent and workmanlike manner and in compliance with applicable operation and maintenance procedures;

c. The industrial use has submitted the following information to the industrial pretreatment coordinator and treatment plant operator immediately after becoming aware of the upset if this information is provided orally, a written submission must be provided within five days:

i. A description of the indirect discharge and cause of noncompliance,

ii. The period of noncompliance, including exact dates and times or, if not corrected, the anticipated time the noncompliance is expected to continue, and

iii. Steps being taken or planned to reduce, eliminate and prevent occurrence of the noncompliance.

4. In any enforcement proceeding, the industrial user seeking to establish the occurrence of an upset shall have the burden of proof;

5. Industrial users will have the opportunity for a judicial determination on any claim of upset only in an enforcement action brought for noncompliance with categorical pretreatment standards;

6. The industrial user shall control production or all discharges to the extent necessary to maintain compliance with categorical pretreatment standards upon reduction, loss, or failure of its treatment facility until the facility is restored to an alternative method of treatment is provided. This requirement applies in the situation where, among other things, the primary source of power of the treatment facility is reduced, lost, or fails.

B. General/Specific Prohibitions. An industrial user shall have an affirmative defense to an enforcement action brought against it for noncompliance with the general and specific prohibitions in Section 13.12.070 of this chapter if it can prove that it did not know or have reason to know that its discharge, along or in conjunction with its discharges from other sources, would cause pass through or interference and that either:

1. A local limit exists for each pollutant discharged and the industrial user was in compliance with each limit directly prior to, and during, the pass through or interference; or

2. No local limit exists, but the discharge did not change substantially in nature or constituents from the use's prior discharge when the city was regularly in compliance with its NPDES permit and in the case of interference, was in compliance with applicable sludge use or disposal requirements.

C. Bypass.

1. Definitions are:

a. "Bypass" means the intentional diversion of wastestreams from any portion of an industrial user's treatment facility;

b. "Severe property damage" means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

2. An industrial user may allow any bypass to occur which does not cause pretreatment standards or requirements to be violated, but only if it also is for essential maintenance to assure efficient

Sand Springs Code of Ordinances

operation. These bypasses are not subject to the provision of subsections C and D of this section;

3. Notification:

a. If an industrial user knows in advance of the need for a bypass, it shall submit prior notice to the POTW, at least ten (10) days before the date of the bypass if possible;

b. An industrial user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards to the industrial pretreatment coordinator immediately after it becomes aware of the bypass. A written submission shall also be provided within five days of the time the industrial user becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass;

4. Bypass is prohibited, and the POTW may take enforcement action against an industrial user for a bypass, unless:

a. Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

b. There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventive maintenance; and

c. The industrial user submitted notices as required under subsection 3 of this section.

5. The POTW may approve an anticipated bypass, after considering its adverse effects, if the POTW determines that it will meet the three conditions listed in subsection 4 of this section. (Prior code § 17-356)

Director - the Director of the Public Works Department of the City of Sand Springs and/or their designated representative.

Equivalent Service Unit - two thousand six hundred fifty (2,650) square feet of impervious surface.

Impervious Surface - any hard surfaced area which prevents or retards the entry of water into the soil in the manner and to the extent that such water entered the soil under natural conditions, causing water to run off the surface in greater quantities or at an increased rate of flow than was present under natural conditions, such as but not limited to rooftops, asphalt or patio areas, storage areas, and gravel, oiled macadam or other surfaces which similarly affect the natural infiltration or run-off patterns of real property in its natural state.

Service Charge - the fee levied within the boundaries of the City for the use of the City's storm water drainage facilities.

Sand Springs Code of Ordinances

Undeveloped Real Estate - real estate unaltered by the construction or addition of any impervious surface which would change the hydrology of the property from its natural state.

Retention or Detention Facilities - facilities designed to hold storm water for a short period and then release it to the natural watercourse or to hold storm water for a sufficient lengthy of time to provide for it to be consumed by evaporation, infiltration into the soil or other natural means.

Residential Property - any property designed and used principally for residential single-family or duplex purposes and developed according to and meeting the bulk and area requirements for residential single-family or duplex zoned property as set forth in the Sand Springs Zoning Code at the time of development of such property.

Storm Water Drainage System - any facility, structure, improvement, development, equipment, property or interest therein, or other structural or nonstructural element made, constructed, used or acquired for the purpose of collecting, containing, storing, conveying and controlling storm water wherever located and including, but not limited to, storm sewers, conduits, natural and manmade channels, pipes, culverts and detention ponds whether public or private. (Ord 1080, 06/14/04)

(Ord 1080, Added, 06/24/2004, Added 13.16.020)

Section 13.16.030 Service Charges and Exemptions

A. There is hereby established a service charge for the use of the City's storm water drainage system at rates hereinafter established; provided, however, that the service charge shall not be imposed on the following types of property:

1. City streets, rights-of-way, parks and open space;
2. State of Oklahoma highway rights-of-way;
3. Railroad rights-of-way; or
4. Undeveloped parcels of land.

B. All proceeds from the service charge established herein shall be deposited to the Storm Water Utility Fund. (Ord 1080, 06/14/04)

(Ord 1080, Added, 06/14/2004, Added 13.16.030)

Section 13.16.040 Rate Schedule

The City Council of the City of Sand Springs shall establish rates for each Equivalent Service Unit assigned to a lot, tract or parcel of real estate, or portion thereof, as herein provided.

A. Residential Property - Residential Property within the corporate limits of the City is hereby assigned one Equivalent Service Unit for each developed lot, tract or parcel of record with the County Clerk. However, in the case of duplex development with two (2) dwelling units on the same lot, tract or parcel, an Equivalent Service Unit

will be assigned to each dwelling unit.

B. All Other Real Estate - The impervious surface of all other lots, tracts or parcels of developed real estate within the corporate limits of the City shall be measured to determine the Equivalent Service Unit(s) to be assigned to such lots, tracts or parcels.

C. Credit for Private Maintenance of Detention Facilities. Any property that is directly served by an approved on-site detention or retention facility may apply for and may receive an adjustment in monthly service charges for use of the City's storm water drainage system. The Director shall adjust the service charge for such properties according to the mitigative effect of the facility on annual maintenance and operation costs, provided that:

1. The owner remains responsible for all costs of proper operation and maintenance of the facility;
 2. The facility was constructed in compliance with City drainage standards;
- and
3. The owner obtained the proper permits from the City.
 4. The Director shall have the right to inspect the on-site facility at any reasonable time to determine if it is in compliance with the approved design and is capable of functioning properly. If the facility's performance might be affected because it fails to meet the proper operating standards, has been altered, or is in disrepair, the property owner shall pay the monthly service charge at the normal rate without benefit of reduction. Any property with an on-site detention facility, which is maintained by the Public Works Department, shall be charged normal service charge rates.

D. Additional Credits. In addition to the credits set forth in Paragraph C above, the Director shall have the right to grant additional credits as follows:

1. For any facility with an existing, valid, general NPDES permit, the Director shall grant a credit equal to 10-percent of the monthly fee.
2. For any facility with an existing, valid, individual NPDES permit that precludes discharge into the City of Sand Springs storm water drainage system, the Director shall grant a credit equal to 50-percent of the monthly fee.
3. For any facility that does not discharge storm water into the City of Sand Springs storm water drainage system, the Director may grant an additional credit not to exceed 10-percent of the monthly fee.

E. Total Credits. The total amount of credits allowed pursuant to this ordinance shall not exceed 50-percent of the monthly fee.

(Ord No. 1117, Amended, 10/10/2005, Amended Section 13.16.040; 1080, Added, 06/14/2004, Added 13.16.040)

Section 13.16.050 Collection of Service Charge

The service charges herein established for the use of the City's storm water

Sand Springs Code of Ordinances

drainage system shall be billed to each user monthly, along with a bill for water or other utility services and such penalties as are now or may hereafter be established for water service bills. All collecting agencies authorized by the City to accept payment of City utility bills are hereby directed to advise customers of the provisions of this section. In the event that any person, firm or corporation shall tender as payment of water service, sewer service, collection of solid waste service and/or service charge for the use of the City's storm water drainage system an amount insufficient to pay in full all of the charges so billed, credit shall be given first to the service charge for the use of the City's storm water drainage system, second to the charges for collection of solid waste, third to the charge for sanitary sewer service and last to the charges for water service. The City shall have the right and privilege of discontinuing water service to any premises for insufficient payment.

In the event that any utility account shall become delinquent, water services may be terminated by the City until all charges for the use of the City's storm water drainage system, collection of solid water service, sanitary sewer service and water service shall be paid in full. The provisions for collection provided herein shall be in addition to any rights or remedies which the City may have under the laws of the State of Oklahoma.

In the case of users of real estate who are not billed for water, sanitary sewer or collection of solid waste, the owner or the real estate or agent of the owner shall be billed monthly for the service charges herein established.

The invalidity of any provision, clause or portion of this section or the invalidity of the application thereof to any person or circumstances shall not affect the validity of the remainder of this section or the validity of its application to other persons or circumstances.

(1080, Added, 06/14/2004, Added 13.16.050)

Section 13.16.060 Adjustment of Charge, Appeal

Section 15.04.050 Administration and enforcement.

The provisions of this chapter shall be administered and enforced by the inspections department of the city. The inspections department is hereby empowered to cause any building, structure, or lot, parcel or tract of land to be inspected and examined and to order in writing the remedying of any condition found to exist therein, or thereon, in violation of any provision of this part. After such order has been delivered to the violator or posted on the premises where such violation exists, no work or use shall proceed on or in any building, other structure, or on any lot, parcel or tract of land covered by such order, except to correct any such violation or to comply with an order of the inspections department. (Prior code § 5-124)

Section 15.04.060 Certificate of occupancy required.

A. A new building shall not be occupied and no change in the use of a building or part of a building or lot, parcel or tract of land shall be made until after the building official shall have issued a certificate of occupancy therefor.

B. The certificate of occupancy shall be issued by the inspections department only after satisfactory evidence of the applicant's compliance with the provisions of this part. (Prior code § 5-125)

Section 15.04.070 Temporary use permit.

A. Upon request by the building permit holder, the building official may issue a temporary use permit for a building or structure, or part thereof, before the entire work covered by the building permit shall have been completed and the final inspections required obtained; provided that such portion or portions thereof will be occupied safely prior to the full completion of the building or structure without endangering life or public welfare. Such request from the permit holder shall be in writing and contain, as a minimum:

1. Address of the building or structure;
2. Number of the building permit;
3. Description of use area, planned use thereof, and any limitations or restrictions;
4. Time period for which the temporary use permit is being requested. Each temporary use permit shall be limited to a period not to exceed thirty (30) calendar days from the date of issue. Not more than two temporary use permits shall be granted for each building or structure;
5. Description of work to be completed and reason why work cannot be completed prior to occupancy;
6. A statement of the permit holder attesting to the validity of the information contained on the request and acknowledging that all final inspections shall be obtained prior to the expiration of this permit; and
7. A statement signed by the proposed occupant that he or she is aware that the required final inspections have not been completed on the building or structure and that he or she is aware of the limitations or restrictions imposed by this permit. Further, that the occupant shall not alter, remove, repair or change anything covered by applicable codes as adopted by the city and acknowledges that the required final inspections shall be obtained prior to the expiration of this permit.

B. Upon receipt of request, the building official, code enforcement officer and/or any party of the city with an interest in the occupancy of said building or structure shall review the temporary use permit and render a determination whether the building may be occupied without detriment to the health, safety or welfare of the occupant(s) or the general public.

C. Upon granting of a temporary use permit, the building permit holder shall remit a fee of fifty dollars (\$50.00) to the City Clerk of the city prior to issuance of said permit.

D. Any requests and actions related to a temporary use permit are separate from the granting

Sand Springs Code of Ordinances

of a certificate of occupancy as required in Section 15.04.060 of this chapter. A certificate of occupancy must be issued prior to the expiration of a temporary use permit, or the building or structure vacated. (Prior code § 5-126; Ord. 900, § 1, eff. August 26, 1996)

B. A hearing shall be held by the City Manager to determine if the property is dilapidated and has become detrimental to the health, safety or welfare of the general public and the community, or if said property creates a fire hazard which is dangerous to other property.

C. Pursuant to a finding that the condition of the property constitutes a detriment or a hazard and that the property would be benefited by the removal of such conditions, the City Manager may cause the dilapidated building to be torn down and removed. The City Manager shall fix reasonable dates for the commencement and completion of the work. The City Clerk shall immediately file a notice of dilapidation and lien with the County Clerk of the county in which the property is situated describing the property, the findings of the City Manager at the hearing, and stating that the city claims a lien on said property for the destruction and removal costs and that such costs are the personal obligation of the property owner from and after the date of filing of said notice.

D. The agents of the city are granted the right to entry on the property for the performance of the necessary removal duties as a governmental function of the city if the work is not performed by the property owner within dates fixed by the City Manager, or City Council under circumstances hereinafter provided. (Prior code § 8-803; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.040 Determination and assessment of costs.

The City Manager shall determine the actual cost of the dismantling and removal of a dilapidated building and any other expenses that may be necessary in conjunction with the dismantling and removal of the building, including the cost of notice and mailing. The City Clerk shall forward a statement of the actual cost attributable to the dismantling and removal of the building and a demand for payment of such costs, by mail to the property owner. In addition, a copy of said statement shall be mailed to any mortgage holder. At the time of the mailing of the statement of costs to any property owner or mortgage holder, the city shall retain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the name and address of the mailee. If the city dismantles or removes any dilapidated building, the cost to the property owner shall not exceed the actual cost of the labor, maintenance and equipment required for the dismantling and removal of the dilapidated building. If dismantling and removal of the dilapidated building is done on a private contract basis, the contract shall be awarded to the lowest and best bidder. (Prior code § 8-804; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.050 Lien on the property, civil remedy.

A. When payment is made to the city for costs incurred, the City Clerk shall file a release of lien, but if payment attributable to the actual cost of the dismantling and removal of the buildings is not made within six months from the date of the mailing of the statement to the owner of such property, the City Clerk shall forward a certified statement of the amount of the cost to the County Treasurer of the county in which the property is situated. Said costs shall be levied on the property and collected by the County Treasurer as are other taxes authorized by law. Until finally paid, the costs and the interest thereon shall be the personal obligation of the property owner from and after the date the notice of dilapidation and lien is filed with the County Clerk. In addition, the cost and the interest thereon shall be a lien against the property from the date the notice of the lien is filed with the County Clerk. Said lien shall be coequal with the lien of ad valorem taxes and all other taxes and special assessments and shall be prior

Sand Springs Code of Ordinances

and superior to all other titles and liens against the property. The lien shall continue until the cost is fully paid.

B. At any time prior to collection as provided for herein, the city may pursue any civil remedy for collection of the amount owing and interest thereon including an action in personam against the property owner and an action in rem to foreclose its lien against the property. A mineral interest, if severed from the surface interest and not owned by the surface owner, shall not be subject to any tax or judgment lien created pursuant to this section. Upon receiving payment, the City Clerk shall forward to the County Treasurer of the county wherein the property is situated a notice of such payment and shall direct discharge of the lien. (Prior code § 8-805; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.060 Exemption from liability--Restrictions.

The officers, employees or agents of the city shall not be liable for any damages or loss of property due to the removal of dilapidated buildings performed pursuant to the provisions of this section or as otherwise proscribed by law. (Prior code § 8-806; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.070 Unsecured building--Notice and hearing.

The City Manager may cause an unsecured building to be boarded and secured in accordance with the following procedures:

A. Before the City Manager orders such action, at least ten (10) days' notice that such unsecured building is to be boarded and secured shall be given by certified mail to any property owner or mortgage holder. A copy of the notice shall also be posted on the property to be affected. However, if neither the property owner nor mortgage holder can be located, notice may be given by publication in a newspaper of general circulation as proscribed by state law. Such notice shall be published one time, not less than ten (10) days prior to any hearing or action by the city pursuant to the provisions of this section.

B. The owner of the property may give his or her written consent to the city authorizing the boarding and securing of such unsecured building and to the payment of any costs incurred thereby. By giving said written consent, the owner waives his or her right to a hearing by the City Manager and any appeal to the City Council

C. If the property owner does not give his or her written consent to such actions, a hearing may be held by the City Manager to determine whether the boarding and securing of such unsecured building would promote and benefit the public health, safety or welfare. In making such determination, the City Manager shall apply the following standard:

1. That boarding and securing of an unsecured building would make such building less available for transient occupation;
2. Decrease a fire hazard created by such building; or
3. Decrease the hazard that such building would constitute an attractive nuisance to children. (Prior code § 8-807; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.080 Notice of lien--Boarding and securing.

Upon making a determination that an unsecured building exists as defined in this section, the City Manager may order the boarding and securing of the building as follows:

A. Upon issuance of the City Manager's order, the City Clerk shall immediately file a notice of unsecured building and lien with the County Clerk of the county wherein a property is situated describing the property, stating the findings of the hearing at which such building was determined to be unsecured, and stating that the city claims a lien on said property for the costs of boarding and securing such building and that such costs are the personal obligation of the property owner from and after the date of filing said notice.

Sand Springs Code of Ordinances

B. Pursuant to the order of the City Manager, agents of the city are granted the right of entry on the property for the performance of the boarding and securing of such building and for the performance of all necessary duties as a governmental function of the city. (Prior code § 8-808; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.090 Determination and assessment of costs.

A. After an unsecured building has been boarded and secured, the City Manager shall determine the actual costs of such actions and any other expenses that may be necessary in conjunction therewith including the cost of the notice and mailing. The City Clerk shall forward a statement of the actual costs attributable to the boarding and securing of the unsecured building and a demand for payment of such costs, by mail to any property owners and mortgage holders. At the time of mailing of the statement of costs to any property owner or mortgage holder, the city shall obtain a receipt of mailing from the postal service, which receipt shall indicate the date of mailing and the address of the mailee.

B. If the city boards and secures an unsecured building, the cost to the property owner shall not exceed the actual cost of the labor, materials and equipment required for the performance of such actions. If such actions are done on a private contract basis, the contract shall be awarded to the lowest and best bidder. (Prior code § 8-809; Ord. 899, § 3 (part), eff. August 12, 1996)

Section 15.36.100 Lien on the property, civil remedy.

A. When payment is made to the city for costs incurred, the City Clerk shall file a release of lien but if payment attributable to the actual costs of the boarding and securing of the unsecured building is not made within thirty (30) days from the date of the mailing of the statement to the owner of such property, the City Clerk shall forward a certified statement of the amount of the costs to the County Treasurer of the county in which the property is situated. Said costs shall be levied on the property and collected by the County Treasurer of the county wherein the property is situated as are other taxes authorized by law. Until fully paid, the costs and the interest thereon shall be the personal obligation of the property owner from and after the date the notice of unsecured building and lien is filed with the County Clerk. In addition to the costs and the interest thereon shall be a lien against the property from the date the notice of the lien is filed with the County Clerk. Said lien shall be coequal with the lien of ad valorem taxes and all other taxes and special assessments and shall be prior and superior to all other titles and liens against the property. The lien shall continue until the costs and interest are fully paid.

B. At any time prior to collection as provided for in this section, the city may pursue any civil remedy for collection of the amount owing and interest thereon including an action in personam against the property owner and an action in rem to foreclose its lien against the property. A mineral interest if severed from the surface owner, shall not be subject to any tax or judgment lien created pursuant to this section. Upon reviewing payment, the City Clerk shall forward to the County Treasurer a notice of such payment and shall direct discharge of the lien. (Prior code § 8-810; Ord. 899, § 3 (part) eff. August 12, 1996)

Section 15.36.110 Summary boarding and securing.

A. If the City Manager or City Council causes a structure within the corporate limits to be boarded and secured, any subsequent need for boarding and securing within a six month period constitutes a public nuisance and may be summarily boarded and secured without further prior notice to the property owner or the mortgage holder in accordance with state law.

B. At the time of such summary boarding and securing, the city shall notify the property owner and mortgage holder of the boarding and securing and the costs thereof. The notice shall state that the property owner may request an appeal with the City Clerk within ten (10) days after the mailing of the

Such appeal shall be taken by filing written notice of appeal with the City Clerk within ten (10) days after the City Manager's order is rendered.

B. Said notice of appeal shall serve to stay all orders related thereto until a hearing is held before the City Council.

C. Notice of a hearing before the City Council shall be mailed to the property owner and the mortgage holder no less than ten (10) days prior to the scheduled hearing date. (Prior code § 8-812; Ord. 899, § 3 (part), eff. August 12, 1996)

11.1 Processing by City Engineer. The City Engineer shall either approve or disapprove the submitted grading plan or earth change permit application. Approval of a submitted grading plan shall only constitute acceptance by the City Engineer of the certification of the submitting engineer, and such acceptance shall not operate to remove any requirement of Sand Springs' adopted drainage standards which are not specifically considered in the approved plan. A grading plan which meets the requirements of the Ordinance and which conforms to all requirements of the adopted City Grading Standards shall be approved and earth change permit application which is consistent with the policies and which meets the standards established by the Ordinance shall be approved. If a submitted grading plan or permit application is disapproved, the certifying engineer or applicant, as applicable, shall be advised in writing of the disapproval. If the required findings cannot be based upon the information contained in the submitted plan or permit application, the general nature of such additional information as is required by the City Engineer to make such determination will be identified. In the event that the information deficiency is of a technical nature, the City Engineer may also request an engineering conference with the submitting engineer.

11.2 Administrative Appeals. All rulings, requirements, decisions, or interpretations of the City Engineer shall be final and binding upon all parties thereto unless appealed to the City Council. Any person aggrieved thereby shall perfect an appeal by filing a written notice of appeal in the office of the City Clerk of the City of Sand Springs within ten (10) days from the date of the action appealed. The notice of appeal shall specify the grounds for the appeal and contain a brief summary of all facts which the aggrieved party deems material to his appeal. A hearing on the appeal shall be heard by the City Council no later than thirty (30) days from the date of filing the required notice of appeal.

11.3 Stay of Proceedings. An appeal to the City Council shall stay the enforcement of any ruling, decision, or requirement of the City Engineer, unless the City Engineer certifies to the City Council that by reason of the facts stated in the certificate of the engineer, a stay would in his opinion cause an immediate public hazard or impair life or property; in such case, enforcement shall not be stayed other than by a restraining order issued by a court of competent jurisdiction upon due and sufficient cause shown.

11.4 Variance by City Council. The City Council may grant in a particular instance such a variance or modification of the terms of this Ordinance or City Grading Standards adopted pursuant thereto as will not cause detriment to the public good,

safety, or welfare, or be contrary to the spirit, purpose and intent of this Ordinance where, by reason of unique and exceptional physical circumstance or condition of a particular property, the literal enforcement of the adopted City Grading Standards or the requirements of this Ordinance will result in an unreasonable hardship.

The responsible parties shall have such time as may be allowed in writing by the City Engineer to correct all noted deficiencies. Such order may order a work stoppage on all construction activity on buildings or structures and all appurtenances thereto, including electrical, plumbing, mechanical and street work, storm sewers, sanitary sewers, gal lines, and all utilities including gas, electric, telephone, and cable holder, either personally or by certified mail, addressed to the permit holder at the address given on the permit application filed with the City.

F. To insure that public facilities and utilities are available that will have sufficient capacity to serve the proposed subdivision while providing for the orderly development of the general community;

G. To consider the natural beauty and topography of the City of Sand Springs and to encourage appropriate development with regard to all natural features; and

Section 16.04.040 Jurisdiction.

These regulations shall apply to the subdivision of all land within the corporate limits of the city as established by law now in effect or as may be amended from time to time. These regulations shall apply to the following forms of land subdivision:

A. The division of land into two or more tracts, lots, sites, parcels, units, plots, or interests for the purpose of sale, lease or development, any one of which when subdivided shall contain five acres or less in area;

B. The division of land previously subdivided or platted into tracts, lots, sites, parcels, units, plots, or interests of five acres or less in area; and

C. The dedication of any street or alley through any tract of land. (Subdivision Regulations § 1.4)

Where any provision of these regulations imposes restrictions different from those imposed by any other ordinance, rule, regulation, or other provision of law, whichever provision is more restrictive shall control.

B. Private Provisions. These regulations are not intended to interfere with, abrogate, or annul any easement, covenant, or any other private agreement or restriction, provided that where these regulations are more restrictive, or impose higher standards or regulations than such easement, covenant, or other private agreement or restriction, the requirements of these regulations shall control. (Subdivision Regulations § 1.5)

Section 16.04.060 Saving provision.

These regulations shall not be construed as abating any action now or pending under, or by virtue of, prior existing regulations, or as discontinuing, abating, or modifying or altering any penalty accruing or about to accrue, or as affecting the liability of any person, firm, or corporation, or as waiving any right of the city under any section or provision existing at the time of adoption of these regulations, or as vacating or annulling any rights obtained by any person, firm or corporation, by lawful action of the city, except as expressly provided in these regulations. (Subdivision Regulations § 1.7)

(Subdivision Regulations § 1.9)

Section 16.04.090 Subdivision requirements.

B. Site Characteristics. Each subdivision plat shall, to the extent practical, be designed to retain the natural topography and vegetation of the site in the building and recreational areas.

C. Parks and Open Spaces. B. Access.

1. Each lot in a proposed subdivision shall be provided with access to a public street, highway or approved private street or access way to assure the convenience of the lot owner, and including but not limited to access for the following public purposes: For adequate and convenient open spaces for traffic, utilities, solid waste collection, access of fire fighting apparatus, police and other emergency vehicles, parking lots, parks, light and air, and for the avoidance of congestion.

2. Reserve strips controlling access to streets shall be prohibited except where the control of such reserve strips is placed with the City of Sand Springs under conditions reviewed by the planning commission and approved by the City Council.

3. Where a subdivision abuts or contains an existing or planned arterial street:

a. Nonaccess provisions controlling ingress and egress to such arterial streets may be required by the planning commission in accordance with adopted standards to assure traffic safety and to relieve congestion at intersections;

b. The planning commission may require reverse frontage lots with limits of access or nonaccess reservations along the rear property line or such other treatment as may be necessary for adequate protection of residential properties affording separation of arterial traffic from ingress and egress to individual lots.

C. Border Streets. Where a subdivision borders or contains a railroad right-of-way, drainage way, park, open space area or limited access highway, the planning commission may require a street (see Figure 8 in the Figures section at the end of this title) approximately parallel to and on each side of such right-of-way or areas at a suitable distance while providing for the appropriate use of the intervening land, such as for park or open space uses in residential districts, or for commercial or industrial purposes in appropriate districts. Such distances shall also be determined with due regard for the requirements of approach grade and future grade separations.

D. Marginal Access Streets. Where a residential street abuts or contains an existing or proposed street and the subdivider elects to design lots that front the arterial street, the planning commission may require marginal access streets for adequate protection of these properties and to afford separation of arterial traffic from the ingress and egress to individual residential lots.

E. Dedication of Right-of-Way. Whenever an existing major street is located adjacent to the outer edge of a subdivision, one-half of the right-of-way shown on the Sand Springs major street and highway plan shall be dedicated. Half-street dedications on minor streets are not permitted.

F. Alignment.

1. The design speed of residential streets and minimum distance between the centerlines of intersecting streets shall be in accordance with the engineering design criteria.

2. The City Engineer may require that streets be connected by a curve or diagonal in such a

Sand Springs Code of Ordinances

manner that hazardous turning movements will be eliminated.

G. **Right-of-Way Widths.** Street right-of-way widths of all proposed streets shall be in accordance with the Sand Springs major street and highway plan (see Figure 9 in the Figures section at the end of this title) and where not designated therein, the minimum width shall not be less than the following:

Type of Street	Right-of-Way
Freeway/Beltway	As per ODOT and City of Sand Springs standards
Primary Arterial	120 feet*
Secondary Arterial and Secondary Arterial Alternate	100 feet**
Commercial Collector/Industrial Collector, Commercial/Industrial Street with Open Drainage, Commercial Business District Street	80 feet
Residential Collector, Residential Street with Open Drainage, Commercial/Industrial Street	60 feet
Residential or Minor Street	50 feet
Alleys	
Commercial and Industrial	20 feet
Residential	20 feet

* One hundred thirty (130) feet minimum right-of-way is required for a right turn lane at the intersections of all primary arterials to extend a distance of three hundred eighty-eight (388) feet paralleling the right side of said street. See Figure 10 in the Figures section at the end of this title.

** One hundred ten (110) feet minimum right-of-way is required for a right turn lane at the intersections of all secondary arterials to extend a distance of three hundred eighty-eight (388) feet paralleling the right side of said street. See Figure 10 in the Figures section at the end of this title.

1. If green ways or drainage ways influenced by topographical features, streams or ponds, ravines, wooded areas or other natural features are to be provided within the proposed plat, then the width and location of the right-of-way shall be ultimately determined by the city as may be deemed necessary to preserve such features.

2. The pavement width, standards for street surfacing, curb and guttering, storm sewer design or open space drainage shall be in accordance with the engineering design criteria.

H. **Cul-de-sacs.** As a general rule, cul-de-sacs shall not exceed five hundred (500) feet in length, measured from the entrance to the center of the turn-around, and shall have a turn-around radius at the property line of not less than fifty (50) feet. When topography or other physically limiting factors and the needs of specific situations make changes to cul-de-sac design standards necessary to secure the best overall design, a variance from these regulations by the planning commission, upon a recommendation

Sand Springs Code of Ordinances

from the technical advisory committee, may be allowed.

- I. Intersections. Street intersections shall be designed as follows:
 1. Streets shall be designed to intersect at right angles as permitted by topography and other limiting factors;
 2. Four-way intersections shall be avoided. Three-way T-intersections shall be used for minor interior streets wherever practicable. Any conflict with other applicable design principles and standards should be avoided. See Figure 11 in the Figures section at the end of this title;
 3. Street jogs with centerline offsets of less than one hundred twenty-five (125) feet shall be avoided;
 4. Points of access to arterial streets should be limited in number;
 5. Minor street intersections with arterial streets should be no closer than six hundred (600) feet from the intersection of other minor and arterial streets;
- J. Grades. Street grades shall be designed as follows:
 1. The maximum grade for nonarterial streets shall be in accordance with the engineering design criteria;
 2. All changes in grade shall be connected by vertical curves and designed for safe stopping sight distances and otherwise be in accordance with the engineering design criteria;
 3. The maximum grade of a residential street when intersecting an arterial street shall be in accordance with the engineering design criteria;
 4. The maximum grade of residential streets at intersections with other residential streets shall be in accordance with the engineering design criteria;
 5. Street grades shall be established in such a manner as to avoid excessive grading or removal of tree growth whenever possible.
- K. Curvature. The radius of curvature on the centerline of all streets shall be designed to reflect the associated design speed and be in accordance with the engineering design criteria.
- L. Street Names and Numbers.
 1. No names shall be used that will duplicate or be confused with the names of existing streets. All north and south thoroughfares shall be designated "Avenues"; all east and west thoroughfares shall be designated "Streets". Numbering shall be in accordance with the adopted policy of the City of Sand Springs. Where a street or avenue is an extension of an existing street or avenue, new names or numbers may be used subject to the approval of the planning commission and City Council.
 2. Lot address numbers shall be assigned by the planning department and shown on an address plat prepared by the city. (Subdivision Regulations § 4.2)

Section 16.20.030 Sidewalks.

The relationship to existing and planned streets, topography, public convenience and safety, and the proposed use of the land being subdivided shall be considered in determining the requirement, arrangement, character, extent, width, grade and location of all sidewalks. Sidewalks shall be constructed in accordance with the engineering design criteria and as follows:

- A. Sidewalks shall be constructed in accordance with the engineering design criteria within the dedicated right-of-way and shall be required in accordance with these regulations;
- B. All sidewalk layouts and designs for primary and secondary arterial streets, the central business district and other commercial and industrial areas shall be furnished by the City Engineer;
- C. Sidewalks shall be required on both sides of all primary and secondary arterial streets, commercial and industrial collectors and on both sides of minor and collector streets serving a residential subdivision except where the typical pavement section provides for a shoulder and borrow ditch (no curb) or where residential estates (RE) zoning has been allowed;
- D. Sidewalks shall provide for safe and convenient access for persons with disabilities, including those persons in a wheelchair. Curb ramps shall be constructed in accordance with standard

Sand Springs Code of Ordinances

details provided by the City Engineer;

E. The planning commission may require (in order to facilitate pedestrian access to schools, parks, playgrounds) perpetual unobstructed easements of not more than ten (10) feet wide to provide adequate pedestrian circulation. Such easements shall be shown on the plat. (Subdivision Regulations § 4.3)

Section 16.20.040 Alleys.

Alleys shall be designed and provided as follows:

A. Alleys shall be provided in commercial and industrial districts, except that the planning commission may waive this requirement where other definite and assured provision is made for service access, such as off-street loading, unloading and parking, that is consistent with and adequate for the intended uses.

B. The right-of-way width for alleys serving commercial and industrial areas shall be not less than twenty (20) feet.

C. Alleys are not required for residential areas, but when provided, the right-of-way width for residential alleys shall not be less than twenty (20) feet. (Subdivision Regulations § 4.4)

Section 16.20.050 Blocks.

The length, width and shape of blocks shall be suited for the planned use of the land, be consistent with zoning requirements and the need for convenient access, control and safety of street traffic and the limitations of the topography. Block length and width shall be designed as follows:

A. Length. Block lengths in residential areas shall not be greater than fifteen hundred (1,500) feet. In those cases where length of the block exceeds one thousand (1,000) feet, the planning commission may require easements for pedestrian ways through the block which shall have a minimum width of ten (10) feet and a paved sidewalk constructed in accordance with the engineering design criteria and these regulations.

B. Width. Blocks for residential areas shall have sufficient width to provide for two tiers of lots of appropriate depth except on the boundaries of the subdivision or as required to separate residential development from other types of through traffic. Blocks intended for commercial or industrial uses should be of a width suitable for the intended use, with due allowance for off-street parking and loading facilities. Blocks for such uses should not normally exceed six hundred (600) feet. (Subdivision Regulations § 4.5)

Section 16.20.060 Lots.

Lots shall be designed as follows:

A. Configuration. The size, shape, and orientation of lots shall be appropriate for the location of the subdivision and the proposed type of development.

B. Access. Every lot shall have frontage on and abut a dedicated public street, or abut a publicly approved private street in a planned unit development, or have other publicly approved access.

C. Zoning Requirements. Lot dimensions, yards, building setback lines and lot area shall conform to the minimum requirements of the zoning code unless varied by the board of adjustment or superseded and specified to be otherwise in a planned unit development.

D. Private Sewer and/or Private Water. Where a proposed subdivision is not served by a public sewer and/or public water system, lot dimensions and area shall conform to the requirements of the Oklahoma Department of Environmental Quality.

E. Corner Lots. Lots at the intersections of streets should exceed the minimum zoning code lot area requirements to provide adequate building areas and building setbacks from intersecting streets.

Sand Springs Code of Ordinances

F. Lot Depth. Excessive lot depth in relation to lot width is discouraged. A proportion of 1:1 or 2:1 will normally be considered appropriate.

G. Lot Lines. Side lot lines should be at approximately right angles to straight street lines or radial to curved street lines.

H. Parking and Loading. Commercial and industrial lots should be of an appropriate size and shape to provide adequate off-street parking and loading facilities.

I. Double Frontage and Reverse Frontage. Double frontage and reverse frontage lots should be avoided except where necessary to provide separation of residential development from through traffic or to overcome disadvantages of terrain and orientation.

J. Acre Lot Subdivisions. When land is subdivided into one acre lots or greater, consideration should be given to the opening of future streets and further subdivision. (Subdivision Regulations § 4.6)

Section 16.20.070 Easements.

Proposed subdivisions shall provide for easements (see Figure 12 in the Figures section at the end of this title) and right-of-way as follows:

A. General. Easements shall be provided and dedicated in accordance with the engineering design criteria and these regulations. Regarding the dedication of required easements, the subdivider shall stipulate that no building, structure, or other above or below ground obstruction shall be placed, erected, installed or permitted on such easement in a manner that will, in the judgment of the City of Sand Springs, interfere with installation, operation, maintenance, repairing, removing, or replacing of utilities.

B. Width. Easements, where necessary, shall be of a minimum width of twenty-two (22) feet, eleven (11) feet on each side of all rear lot lines and seventeen and one-half (17.5) feet for perimeter easements or of a width and location as specified by the technical advisory committee and when necessary, be provided along other lot lines for poles, wires, conduits, sanitary sewers, gas, water, power, communications and other utility lines.

C. Drainage Easements. Suitable drainage easements, as required by the engineering design criteria, shall be required on all proposed subdivisions.

D. Technical Advisory Committee Review. The location, width and alignment of all easements shall be subject to review and recommendation by the technical advisory committee and planning commission prior to approval and acceptance by the city.

E. Standard Location of Underground Utilities. The standard location of underground utilities shall be in accordance with Figure 12 of these regulations found in the Figures section at the end of this title. (Subdivision Regulations § 4.7)

Section 16.20.080 Floodplain areas.

Lands that are identified on the official maps of the City of Sand Springs as being subject to flooding hazards and periodic inundation, shall not be subdivided into lots, tracts or parcels for any use which would be incompatible with such flooding hazards except as follows:

A. Improvements meeting the standards and requirements of the city designed to render such land safe for residential or other uses are made, or satisfactorily guaranteed on such land meeting the approval of the City Engineer as being in accordance with the engineering design criteria; and

1. The intended use of the land is permitted by the adopted ordinances and regulations of the city because such use has a low flood damage potential and will not otherwise obstruct the flow of flood water or increase the flooding hazard to property already developed; or

2. The intended use of the land is permitted by a special exception variance, or by other adopted policy of the City of Sand Springs. (Subdivision Regulations § 4.8)

Sand Springs Code of Ordinances

Section 16.20.090 Stormwater drainage and detention facilities.

Stormwater drainage and detention facilities shall be required in accordance with these and other city regulations and policies as follows:

A. The stormwater drainage system shall be designed and constructed in accordance with the standards and requirements of the engineering design criteria to receive and to pass the runoff from a one hundred (100) year frequency rainstorm under conditions of full urbanization. Full urbanization is defined as the total development that is anticipated. The entire flow shall be contained within such stormwater drainage system.

B. Stormwater detention facilities, when required, shall be designed and constructed in accordance with the engineering design criteria. (Subdivision Regulations § 4.9)

Section 16.20.100 Park and recreation fee or an option to require dedication of park land in-lieu-of payment of a fee.

A. As land is developed for residential use, the need for additional park land and improved recreational facilities to serve the community is created. In order to provide funds for this need, a park and recreation fee shall be imposed on each residential building permit. Solely at the option of the city, an option to require dedication of park land in-lieu-of payment of the park and recreation fee shall be imposed as specified in the Appendix.

B. The park and recreation fee shall be assessed and paid as follows:

1. Applicability and Amount of Fee. Before a residential building permit is issued to construct any residential dwelling unit the park and recreation fee shall be paid with the building permit application in the following amount:

Dwellings/Units	Fees
Single-Family	\$75.00 + \$25.00 per bedroom
Duplex	\$150.00 + \$25.00 per bedroom
Multifamily	\$250.00 per dwelling unit
Mobilehome	\$250.00 per lot or space

2. Determination of the Fee.

a. The number of bedrooms in each proposed dwelling unit shall be determined from the building plans filed with the building permit application and shall include as bedrooms, all rooms however labeled on the plans (other than living rooms, dining rooms, dens, kitchens, and bathrooms) that are suitable for conversion to bedrooms. The number of bedrooms attributable to a unit shall include not only those areas labeled as bedrooms on the plans, but may include any area in the dwelling unit that (because of its size, location, facilities or relationship to other areas of the dwelling unit) is deemed divisible so as to create one or more additional bedrooms.

b. In the case of mobilehomes, the two hundred fifty dollar (\$250.00) fee per lot or space shall be paid at the platting stage of the development. The appropriate fee will be required to be paid before the final plat is signed and released for recording.

c. The total amount of the park and recreation fee shall be determined by the building inspector of the City of Sand Springs based upon the plans submitted with the building permit application. If the applicant does not agree with the required fee as determined by the building inspector, the decision of the building inspector may be appealed to the board of adjustment.

3. Exemptions From the Park and Recreation Fee.

The fees imposed by the above sections shall not apply to the following types of construction:

a. Reconstruction of a dwelling unit or portion thereof that has been damaged or destroyed by fire, flood or other causes over which the owner has no control; or

Sand Springs Code of Ordinances

b. Expansion, remodeling and/or alteration of a dwelling unit where an additional bedroom is created.

4. Park and Recreation Fund. The proceeds of the park and recreation fee shall be set aside in a fund entitled the "Park and Recreation Fund" to be used exclusively for the acquisition of new park land and/or improvements thereon as follows:

a. At such time as the City Council, based upon the recommendation of the park board (as to the desirability of the tract) and planning commission (as to the appropriateness of the intended land use), determines that sufficient funds have been accumulated in the park and recreation fund from and for a certain area for the purchase of new park land and/or to make improvements thereon, the City Council shall initiate the necessary procedures for such expenditures to be made.

b. Expenditures from the park and recreation fund shall be made only to purchase new park land and/or to make improvements thereon that will reasonably serve those areas paying such fees. (Subdivision Regulations § 4.10)

Section 16.20.110 Oil and gas extraction sites--Residential subdivisions.

Subdivision plats shall show the following information as it pertains to oil and gas drilling:

A. Existing operative and inoperative wells:

2. Documentation is required that all abandoned or inactive wells have been properly plugged;

3. Shall be setback a minimum distance of three hundred (300) feet from a surface property line or structure in existence at the time of commencement of drilling, if applicable, unless the location of the well is approved by the City Council;

4. Residences shall be setback a minimum distance of one hundred fifty (150) feet from any existing well unless such well is properly plugged, or unless permission is given by the City Council;

5. Residences shall be setback a minimum distance of fifty (50) feet from any well that is properly plugged;

6. All ingress or egress to oil and gas drilling sites shall be from section line roads unless otherwise approved by the City Council; and

7. Oil and gas drilling is not permitted in any city park unless approval of the Sand Springs City Council is given.

B. In any event and at a minimum, a certificate or clearance shall be obtained from the Oklahoma Corporation Commission as to the existence of any wells reflected in their records. Evidence of research of other oil and gas well service records may be required by the city to properly evaluate and document drilling activity, past and/or present, to protect the public health, safety and welfare in the platting of land under these regulations.

C. All subdivision plats shall be prepared in accordance with the standards and requirements of the oil and gas drilling regulations of the city presently in effect and as amended, and be otherwise in compliance with these regulations, the zoning code and all other applicable regulations and requirements of the city. (Subdivision Regulations § 4.11)

Section 16.20.120 Sewage disposal and water supply.

A. General Requirements.

1. All subdivisions shall utilize a public water supply approved by the Oklahoma Department of Environmental Quality and the city or other appropriate authority.

B. Sanitary Sewage Systems. The subdivider shall provide an internal sanitary sewer collection system that is available to each lot within the subdivision. The system shall be designed and constructed as approved by the Oklahoma Department of Environmental Quality and in accordance with these regulations, the engineering design criteria and all other applicable regulations of the city. The following additional requirements shall apply:

1. Where an approved public sanitary sewer system is not available to the subdivision, as determined by the city regulations, and in order to allow development during the time required to extend the public sanitary system into these areas, a central treatment plant may be allowed on a temporary basis. The plant shall meet all applicable water quality criteria and be designed, constructed and approved by the Oklahoma Department of Environmental Quality and the city and otherwise meet all other applicable standards and specifications of the City.

2. In those cases where the development is planned to initially utilize septic tank sewage disposal systems, the developer shall submit soil percolation test results (as required by the Oklahoma Department of Environmental Quality) to the city for each lot in the subdivision to be served by said system demonstrating a soil percolation test rate in accordance with the regulations of the Oklahoma Department of Environmental Quality.

3. Restrictive covenants shall be approved and with the subdivision plat that the use of said systems shall only be in accordance with these regulations and all other applicable regulations of the city or other approving authority.

4. Private sewage systems shall be installed and maintained in accordance with the standards and specifications of the Oklahoma Department of Environmental Quality, the city and other approving authority.

C. Where a public sanitary sewer system is not available to the subdivision, but where plans for the installation of sanitary sewers in the vicinity of the subdivision have been prepared and approved by the Oklahoma Department of Environmental Quality and the city, the developer shall install such sewers in conformity with the plans. If immediate connection to that system is not possible and until such time as a connection can be made, the use of private sewage systems may be permitted. (Subdivision Regulations § 4.12)

Section 16.20.130 Hillside development.

The development of hillside areas or any areas with a slope greater the eight percent shall be designed to minimize grading and filling and in such a manner as to retain the maximum feasible amount of natural ground cover. Areas with slopes in excess of twenty (20) percent shall be utilized as open space or developed as a planned unit development in accordance with the applicable provisions of the zoning code and these regulations. (Subdivision Regulations § 4.13)

Section 16.20.140 Planned unit development.

A. When a subdivision is to be developed as a planned unit development (see Figure 13 in the Figures section at the end of this title) in accordance with the applicable provisions of the zoning code and these regulations, the planning commission and the City Council may vary the requirements of these regulations in order to allow the subdivider more freedom in the arrangement of the subdivision. However, all such development must be done in a manner so as to protect the public health, safety and welfare and future residents of the area, while being consistent with the spirit and intent of these

Sand Springs Code of Ordinances

regulations and the comprehensive plan. Any and all variances from these regulations shall only be granted in accordance with the procedural requirements as provided herein.

B. Private streets and mutual access easements may be allowed in planned unit developments. All such streets shall be reviewed, inspected and built to the same standards as public streets and be maintained by the owners of land within such subdivisions. Private streets and mutual access easements shall always remain open to police, fire, and other official vehicles of all municipal, county, state and federal agencies. The following additional requirements shall apply:

1. Prior to the sale of any land within subdivisions where private streets and mutual access easements have been approved, the subdivider shall erect signs and otherwise assure the maintenance of such signs at all entrances to the subdivision and within the private drive and street right-of-way and mutual access easement indicating that such street is a private street. The manner in which the sign is constructed and installed shall be subject to the approval of the City Engineer.

2. No deed of conveyance shall ever be filed of record for any land within said subdivision unless said deed clearly states that "all property owners within this subdivision shall automatically become a member of a homeowners association, whose responsibility shall include development, complete maintenance and replacement of all private streets and common areas within the planned unit development."

3. In order to assure that private streets and common areas are properly installed and inspected, no building permit shall be issued for any lot in said subdivision until all improvements, public and private, have been installed in compliance with the approved plan or said installation is assured to the satisfaction of the City Council. (Subdivision Regulations § 4.14)

Section 16.20.150 Monuments.

Monuments must be set in sufficient number and be of such durability as not to be readily disturbed, to assure that together with monuments already existing, the perpetuation or re-establishment of any line or point in the survey. Monuments shall be constructed of material capable of being detected with conventional instruments for finding ferrous or magnetic objects. Monuments shall further be in accordance with the following standards and criteria:

A. Be placed at each point in the boundary of the subdivision and be a minimum of fifteen (15) inches long with a minimum diameter of one-half inch and be made from iron pipe or bar or be made of such other materials and be of a size as approved by the City Engineer.

D. In such cases where the placement of a required monument at the required location is impractical as determined by the City Engineer, a witness corner or reference monument must be placed, preferably on a line of survey, with the data given to show its location upon the ground in relation to the subdivision boundary or lot corner.

E. Benchmarks for vertical control shall be established in accordance with the provisions of the engineering design criteria. Vertical control monuments must be placed at an interval of one brass cap per twenty (20) acres or part thereof and spaced proportionately throughout the subdivision. (Subdivision Regulations § 4.15)

Section 16.20.160 Change of limits of access.

A. Intent. When land has been platted under these regulations, or under other applicable law,

Sand Springs Code of Ordinances

and the owner of all land affected by the proposal seeks to add limits of access to the plat, or to remove or otherwise alter said limits of access on the plat, such action shall not require replatting nor shall it require vacation of the existing plat.

B. Application. The property owner, or the owner's agent with written permission from the owner shall submit the change of limits of access application which shall include, at a minimum, the following information:

1. Drawings. Ten (10) copies of a scaled drawing which should not be of a greater size than 8 1/2 inches x 11 inches and be drawn on forms provided with the application.

C. Processing.

1. Planning Staff Review. The planning commission staff and the City Engineer shall review and evaluate the impact of the proposed changes on traffic flow, utility easements, and the implementation of the various plans as adopted by the city, or on the flow of traffic on private streets and adjacent or abutting property owned by persons other than the applicant. Staff comments shall be forwarded to the technical advisory committee.

2. Technical Advisory Committee Review. The planning commission staff shall present the application to the technical advisory committee for review and comment. The recommendation of said committee shall be compiled with that of the planning commission staff and City Engineer and transmitted to the planning commission.

3. Planning Commission Review. The planning commission shall review the proposed change and either recommend approval, approval with conditions, or denial. The recommendation of the planning commission shall be subject to final approval by the City Council.

4. City Council Review and Approval. The City Council shall review the proposed change of access and either approve, approve with conditions or disapprove the application.

5. Filing of the Final Document. The owner or the owner's agent, upon satisfaction of any conditions of approval, or upon receiving an unconditional approval from the City Council, shall file the approved documents with the County Clerk of the county in which the property is located and return a certified copy of the filed document to the City Clerk of the city. (Subdivision Regulations § 4.16)

All connections shall be subject to the approval of the City Engineer and be in accordance with the regulations of the Oklahoma Department of Environmental Quality and the engineering design criteria.

2. Where a public sanitary sewer system is not reasonably accessible but where plans for the installation of sanitary sewers in the vicinity of the subdivision have been prepared and approved by the Oklahoma Department of Environmental Quality, the subdivider shall install sewers in conformity with such plans. Section 16.24.030 Plans and improvements required.

A. Three sets of prints of the proposed final construction plans and specifications for all improvements required by these regulations and the engineering design criteria shall be prepared by a qualified registered engineer and submitted to the City Engineer. The City Engineer shall approve or require modification of those construction plans.

B. The subdivider shall be required to participate in a preconstruction meeting with the appropriate city staff.

C. Following the approval of the final construction plans, the subdivider shall complete in a manner satisfactory to the City Engineer all required improvements and said improvements shall be free and clear of all liens, claims and encumbrances, except or unless as agreed to in the "Agreement Guaranteeing Installation of Improvements" as required by the engineering design criteria.

D. The final plat may then be approved and released by the city for filing in the office of the County Clerk in which the property is located. (Subdivision Regulations § 5.3)

Section 16.24.040 Inspections and certifications.

The City Engineer shall inspect or otherwise secure the inspection of the construction of the required improvements for conformance with the approved plans and specifications. Upon completion of the improvements, the City Engineer shall file with the City Council a statement either certifying that the improvements have been completed in accordance with these regulations and the engineering design criteria or that the improvements are defective, listing the defects. (Subdivision Regulations § 5.4)

Section 16.24.050 Record drawings.

A. Upon completion of the improvements, the subdivider and his or her engineer shall file with the City Engineer one mylar set of record drawings, certified and signed by a registered engineer for said improvements. The record drawings shall be filed with the city prior to the issuance of building permits in the platted area or within a schedule of time agreed to by the developer and the City Council.

Sand Springs Code of Ordinances

The record drawings shall certify:

1. That all required improvements are complete;
2. That the subdivision improvements are in compliance with these regulations and the engineering design criteria; and
3. That the improvements have been constructed in accordance with the approved plans and specifications.

B. Subdividers with the capabilities of generating record drawings as computer layouts and system drawings for plats, water, sanitary sewer, street, drainage, grading, etc., shall provide the City Engineer's office with computer files of such drawings. (Subdivision Regulations § 5.5)

Section 16.24.060 Improvements acceptance or forfeiture.

The City Council shall accept by formal recorded action any or all improvements before such improvements become public property, provided that all statements and agreements specified above have been received and that record drawings have been submitted. The maintenance bond shall begin with the acceptance by the City Council. Approval of the record drawings by the City Engineer shall not be construed to mean that the maintenance bond is void. No building construction shall be permitted on any lot to, or on which, improvements have not been completed, or said completion guaranteed in accordance with the provisions of these regulations and the engineering design criteria and no municipal utility service will be furnished to such lot until the approved record drawings have been received by the city. (Subdivision Regulations § 5.6)

Section 16.24.070 Maintenance bond.

Prior to acceptance of these improvements by the City Council, the subdivider shall obtain a maintenance bond or irrevocable letter of credit from a surety bonding company authorized to do business in the state of Oklahoma. The bond shall be filed with the City Clerk and shall be payable to the city. The amount of the bond shall be equal to one hundred (100) percent of the entire cost of said improvements including all water lines, sanitary sewer lines, streets, grading and drainage improvements. The duration of the maintenance bond for streets and drainage improvements shall be two years from the date of acceptance of said street and drainage improvements by the City Council. The duration of the maintenance bond for all other improvements shall be one year from the date of acceptance of said improvements by the City Council. (Subdivision Regulations § 5.7)

Section 16.28.010 Authority.

The planning commission, pursuant to the powers and jurisdiction vested through Title 11, Oklahoma State Statutes, Section 45, does hereby exercise the power and authority to review, approve and disapprove transfer of land hereinafter referred to as lot splits. (Subdivision Regulations § 6.1)

Section 16.28.020 Intent and purpose.

The provisions contained in this section are intended to establish minimum procedures and standards for lot splits in order to accomplish the policy and purposes set forth in these regulations. (Subdivision Regulations § 6.2)

Section 16.28.030 Procedure.

The following procedure shall be followed in processing lot splits:

A. A lot split application shall be filed with the planning commission staff and the appropriate fee paid in accordance with the following requirements:

1. Where the application is to be reviewed by the planning commission alone, four copies of a scaled drawing shall accompany the lot split application. Where possible, the drawing should be placed in the space provided on the application form;

2. Where review will include other agencies or companies, in addition to the planning commission staff, eight copies of a scaled drawing shall accompany the application;

3. The drawing itself shall include all existing and proposed lot lines, all existing buildings and improvements and distances from lot lines, adjacent streets and street widths, existing access limitations, a north arrow and scale; and

4. In all cases where drawings are attached on separate sheets, the subdivider is encouraged to limit the drawing to a maximum size of 8-1/2 inches by 14 inches.

B. During the lot split review process the planning commission staff shall:

1. Distribute copies of the application form and drawing to the technical advisory committee, and other appropriate officials, agencies, or departments;

2. Field check the area being lot split;

3. Review the application for conformance with the comprehensive plan, zoning code or planned unit development conditions, board of adjustment actions, and these regulations; and

4. Prepare recommendations including comments of other officials, agencies or departments contacted and the technical advisory committee.

C. For those lot splits that involve acquiring easements or in the staff's opinion, that require review by additional companies or agencies, but do not involve a waiver of a zoning or subdivision regulation requirement, the following procedure shall be followed:

1. A copy of the application and drawing shall be sent to the utility companies and/or the

Sand Springs Code of Ordinances

public works department by the planning commission staff;

2. After each company or agency to which the application was referred has notified the planning commission staff of all requirements, the staff shall in turn notify the subdivider;

3. If the lot split is on a tract that is utilizing or will utilize a private sewage disposal system, a copy of the application form and drawing shall be given to the subdivider, who in turn shall deliver it to the City-County Health Department. The City-County Health Department shall notify the staff of the approval or disapproval of the lot split; and

4. When approvals from all companies or agencies involved are received, the City Planner shall place the lot split on the agenda of the planning commission.

D. For the lot splits that involve a waiver of any provision of these regulations, the following procedure shall apply:

1. A cut-off date shall be observed, such date to coincide with that of subdivision plats;

2. The subdivider shall describe on the lot split application the exact nature of the requested waiver and describe why compliance with these regulations is not possible;

3. A copy of the lot split application shall be sent to the utility companies, the public works department, and to the City-County Health Department, if required. The planning commission staff shall indicate on the application the date of the technical advisory committee meeting at which the application shall be reviewed and that it is a request for a waiver of these regulations;

4. The planning commission staff shall present the application at a technical advisory committee meeting where the lot split will be reviewed by that committee;

5. The findings and recommendations of the technical advisory committee shall be compiled with the planning commission staff recommendation and the application shall be heard at the next planning commission meeting; and

6. The planning commission shall review the requested lot split and either approve or disapprove the requested waiver as provided by these regulations. If approved by the planning commission the lot split approval may be further subject to the approval of the board of adjustment if a waiver or variance of a zoning code requirement is involved. If the application is disapproved by the board of adjustment the applicant may appeal the decision of the board of adjustment to the district court.

E. If the planning commission denies a lot split, the denial may be appealed to the City Council within ten (10) days of the planning commission meeting. The action of the City Council shall be final except as otherwise subject to applicable state statutes. (Subdivision Regulations § 6.3)

Section 16.28.040 Certificate of approval.

A. Approval shall be shown by certification on the instrument of transfer as required by state statute. The certification shall be signed by the chairperson, vice-chairperson, or secretary of the Sand Springs planning commission.

B. The subdivider may then file the instrument with the County Clerk of the county in which the property is located. The approved instrument shall be an official document that will be contained in the abstract of the property being split. (Subdivision Regulations § 6.4)

Section 16.28.050 Approval guidelines.

Approval or disapproval of a lot split shall be based upon the following guidelines:

A. Lots.

1. Lot dimensions shall conform to the zoning code and these regulations. In the event that the tract to be split does not lie within the force and effect of an existing zoning ordinance, it is deemed desirable that a single-family residential lot be a minimum of sixty (60) feet in width and six thousand nine hundred (6,900) square feet in area with thirty (30) feet of frontage on a public roadway.

2. In the case of lots not served by public sanitary sewers and/or public water, such lots

Sand Springs Code of Ordinances

shall exceed the requirements set forth above with sufficient additional area to properly accommodate a suitable private sewage disposal device. Appropriate tests shall be made accordingly, with an adequacy determination to be made by the City-County Health Department. The determination of adequacy shall subsequently be reported to the planning commission for consideration during the review of the lot split application.

3. Corner lots should have such extra width and area beyond the minimum requirements for other lots as may be necessary to permit appropriate setbacks on both streets while insuring that adequate buildable space remains.

B. Easements and Utilities. Where a lot split will result in a lot having inadequate access to utility easements, dedication of easements shall be required in accordance with the requirements of the applicable utility company or companies, these regulations and the engineering design criteria.

C. Access and Streets.

1. Where a tract to be split is controlled by nonaccess provisions, no lot shall be approved where such provision will preclude access for said lot.

2. The splitting of land shall provide each lot with access to a public street or highway, so that the convenience of the lot owner or user is assured, and that the layout of utilities, garbage and waste removal, fire protection and public health and safety will also thereby adequately be provided for.

3. Where land to be split contains, within its boundaries, areas designated for street right-of-way on the major street and highway plan, the lot split shall not be approved where the street right-of-way fails to conform to said plan except upon a finding by the City of Sand Springs that:

a. All utilities are in place and the additional right-of-way is not required for utility placement; and

b. The public has, by virtue of statutory easement or suitable roadway dedication, right-of-way sufficient to allow the placement of pavement for streets and sidewalks of a width necessary to meet the standards of these regulations, the major street and highway plan and the engineering design criteria for the particular improvement involved; and

c. Development made possible by the lot split itself will not measurably increase the burden of traffic on an adjacent street to such an extent that it would adversely affect the public health, safety and welfare; or

d. Existing structures lie in the right-of-way proposed by the major street and highway plan and otherwise preclude the extension of said right-of-way and street.

D. Sewage Disposal.

1. Where a tract to be split abuts a public sanitary sewer, no split shall be permitted to create a lot which is cut off from said sewer unless the approval of the City Engineer, public works director or other appropriate agency is obtained.

2. Within the unincorporated area of Tulsa and Osage County and within the annexation fenceline of the city not served by sanitary sewer within three hundred (300) feet of the nearest property line, these regulations shall apply for lots that plan to utilize septic tank disposal systems except a core sample is not required. A public sewer collection system is not required.

3. Lot size requirements will be the same as those for subdivisions provided that an exception to lot size may be granted by the city based upon data from the City-County Health Department, if all lots created have existing structures and the lot split does not, in effect, change the density, and proper documentation can be provided showing attempted transfer of ownership prior to January 1, 1974.

4. A public water supply serving each lot is required.

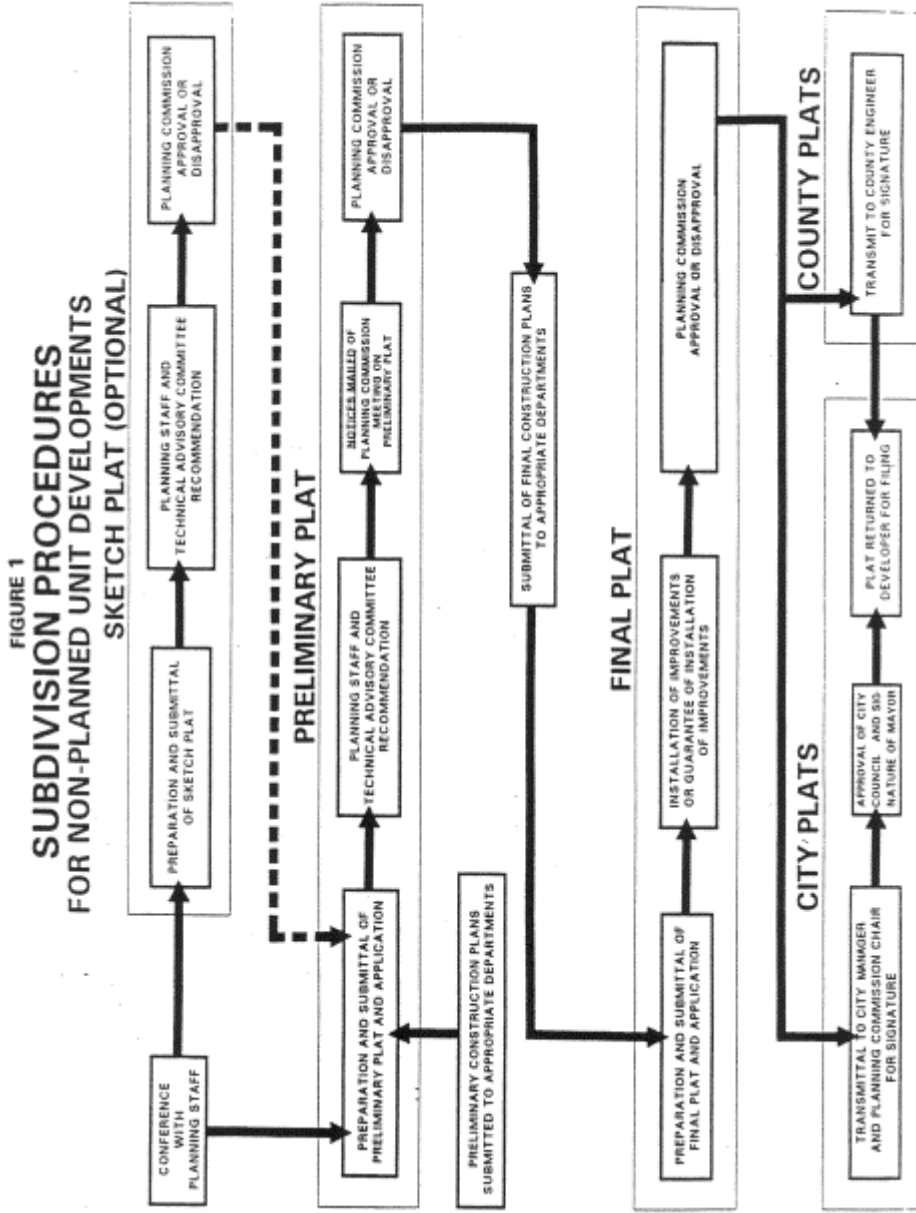

5. A passing soil percolation test shall be required for each lot created as required for subdivisions. (Subdivision Regulations § 6.5)

OPTION TO REQUIRE DEDICATION OF PARK LAND IN-LIEU-OF PAYMENT OF THE PARK AND RECREATION FEE

As land is developed for residential use, the need for park land is created. In order to provide land for this need, there is hereby established, a procedure whereby land may be required in-lieu-of payment of a Park and Recreation Fee as otherwise described in the body of these Regulations. The administration of this optional procedure is as follows:

1. Applicability and Option to Require Dedication of Land.
 - a. All residential subdivision plats, having a dwelling unit density greater than one (1) dwelling unit per acre shall adhere to the provisions set forth in this Appendix if and only if it is determined by the City Council of Sand Springs based upon the recommendation and advice of the Park Board (as to the desirability of the tract) and the Planning Commission (as to the appropriateness of the intended land use), that the requirement for park land dedication shall be acceptable to the City of Sand Springs in-lieu-of payment of the Park and Recreation Fee.
 - b. All persons, firms, or corporations subdividing land under the provisions of these Regulations for residential purposes within the incorporated boundaries of the City of Sand Springs shall, prior to the signing and release of the final plat and subject to other provisions hereinafter set out, dedicate land to be used for park and/or open space as an alternative to payment of a Park and Recreation Fee.
2. Standards for Park Land to be Dedicated.
 - a. Each dedication shall be of suitable size, dimension, topography and general character, and have adequate road access for park and recreation purposes. The area to be dedicated shall be designated on the preliminary and final plat as "Public Park and Recreation Purposes." The location of the land to be dedicated shall be approved by the City of Sand Springs prior to the signing and release of the final plat.
 - b. The amount of land to be dedicated shall be determined on the basis of either one acre per one-hundred (100) dwelling units or five (5) percent of the area contained within the subdivision plat (excluding therefrom only streets and reserve areas) whichever is greater. All calculations of the area to be dedicated and the area in streets and reserve areas shall be initially provided by the subdivider for review by the City. The dedication requirements for multi-family development shall be based on the maximum number of dwelling units per acre as permitted by the existing zoning of the site, regardless as to what intensity the tract is developed.
 - c. Private parks may be accepted as credit toward the park land dedication option only when included within an approved Planned Unit Development and only upon approval of the City Council after review and recommendation by the Park Board and Planning Commission.
3. Location and Character of Land to be Dedicated.
 - a. Any land to be dedicated to meet the requirements of this section shall be suitable, reasonably located and adaptable for use as land for a park and recreation facility. Such determination shall be subject to the final approval of the City Council based upon the review and recommendation of the Park Board and Planning Commission.
 - b. The City Council may require that the land to be dedicated be located on the edge of the

Sand Springs Code of Ordinances

subdivision so additional land may be added to the tract at a future date.

c. Existing features which add value to residential development or to the City as a whole, such as trees, watercourses, historic sites and similar irreplaceable natural assets, shall be preserved in the design of the subdivision and be considered as land to be dedicated for park purposes.

4. Form of the Dedication of Park Land.

Land required for dedication under this optional procedure shall be conveyed by any of the following methods:

a. By dedication within the plat filed for record in the Office of the County Clerk of Tulsa or Osage County; or

b. By warranty deed transferring the property in fee simple title to the City of Sand Springs; or

c. By credit for private park and/or open space. Where a private park and/or open space for park and recreational purposes is provided in a proposed subdivision that is included within an approved Planned Unit Development and such area is to be privately owned and maintained by the future residents of the subdivision, these areas may be credited against the requirement for dedication of park land and/or open space as set forth in this Appendix provided that the City Council, upon the review and recommendation of the Park Board and Planning Commission, finds it is in the public interest to grant such credit. The following standards must be met:

(1) That yards, setbacks and other open areas required to be maintained by the zoning and building regulations shall not be included in the computation of such private park and/or open space area; and

(2) That the private ownership and maintenance of said park area is provided for by recorded covenants that have been approved by the City and to which the City is a party at interest; and

(3) That the use of the private park and/or open space is restricted to park and recreational purposes by the recorded covenants which run with the land in favor of the future owners of property within the tract and the City of Sand Springs and said covenants cannot be eliminated without the consent of owners of all property within the subdivision and the City Council; and

(4) That the proposed private park and/or open space adds value to the residential development or to the City as a whole and is suitable and reasonably adaptable for use for park and recreational purposes taking into consideration such factors as size, shape, topography, geology, access, trees, watercourses, historic sites and similar irreplaceable natural assets, and location; and

(5) That facilities proposed for park and open space are in substantial accordance with the provisions of the recreational element of the Comprehensive Plan and are approved by the City Council, and, further, that the installation, maintenance and replacement of any planned improvements is guaranteed to the satisfaction of the City of Sand Springs.

In permitting such work to be done and in doing such work, Grantor shall not be liable to Grantee for any damages unless they are negligently, willfully or unnecessarily occasioned by Grantor.

B. Whenever by reason of establishing a grade or changes in the grade of any street, or in the location or manner of construction of any public way, cables, electric conduits, fiber optic conduits, water, gas or other underground structures, it shall be deemed necessary by Grantor to alter, change, adapt or conform the plants and systems of Grantee, or any part thereof, such alterations or changes shall be made within a reasonable time by Grantee, as directed in writing by Grantor, without any claim for reimbursement or compensation for damages against Grantor, or any agency, trust or authority formed for, by, or for the benefit of Grantor.

C. If Grantor shall require Grantee to adapt or conform its plants and systems, or any part thereof, or to in any way alter, relocate or change its property to enable any other person, firm, corporation or entity (whether public or private), other than Grantor, to use the public ways, Grantee shall be entitled to reimbursement by the person, firm, corporation or entity desiring or occasioning such change, alteration or relocation. "Person," "firm," "corporation," and "entity," as used in this section, shall not include regular departments of Grantor, or any trust or authority formed by or for the benefit of Grantor for public utility purposes, or whose revenues are subsidized by or contribute to the general funds

Sand Springs Code of Ordinances

of Grantor, but shall include any other agency or authority of the City of Sand Springs, whether acting in a governmental or non-governmental capacity, including, but not limited to any agency or authority which as a part of its program clears whole tracts of land within the city limits and relocates citizens for the purpose of urban development or similar aims.

D. In the event Grantee ceases completely to use its plants or systems, or any portion thereof, for any of the purposes for which a franchise is granted herein, and Grantee is not required by law or by provisions of a legally-imposed contract to make the use of such plants and systems available to any other person or entity, Grantee will, within ninety (90) days of the date when it and any other such persons or entities cease all such use, remove any such plants and systems located upon the public ways of Grantor.

SECTION 8. LOCATION OF PLANTS AND SYSTEMS AND TRANSMISSION OF ENERGY AND RELATED SERVICES

In performing the terms and provisions of this ordinance, franchise and contract, Grantee is hereby given the continuing right, privilege and option to manufacture, control and store electric energy within the corporate limits of Grantor, and/or to transmit such electric energy over transmission lines from other plants and wholesale suppliers and to distribute same from some central location or locations at proper voltage; together with the right to transmit electric energy from any source to, from and through said City to other localities. Grantee is also given the continuing right to use its plants and systems to provide transmission and distribution services to other wholesale suppliers of electrical energy as Grantee is authorized or required to provide under applicable law. Grantee is hereby authorized to allow others, having a permitted right granted by the City of Sand Springs, or as may otherwise be authorized or required by applicable law, to attach telecommunications and cable facilities to its poles and structures or to place such telecommunications and cable facilities within, upon or adjacent to its underground ducts and conduits, on such conditions as it deems just and reasonable and in compliance with applicable law; provided, to the extent that applicable law does not establish such conditions and should the parties be unable to agree to such conditions, the City Council of the City of Sand Springs shall determine such conditions as are just and reasonable, which shall be binding upon all parties.

SECTION 9. USE AND REPAIR OF THE PUBLIC WAYS

A. Grantee's plants and systems shall be installed, operated and maintained in such a manner as will, consistent with reasonable necessity, least interfere with other public uses of the public ways, including those prescribed by the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.).

B. Before Grantee commences any installation, operation or maintenance work which may interfere with normal public use of a public way, Grantee shall, except in the case of emergency, give at least forty-eight (48) hours written notice thereof, together with a schedule of activity, to the Public Works Director of the City of Sand Springs, or any other proper authority designated in writing by Grantor to receive such notice. After such work is completed, Grantee shall, with due diligence and reasonable dispatch, place the public ways where such work was performed in a condition in compliance with Grantor's reasonable standards and specifications; provided, that Grantor shall not impose standards and specifications which are in conflict with any standards and specifications of the Corporation Commission of the State of Oklahoma or by any other regularly constituted regulatory authority, which are applicable to Grantee, within this jurisdiction.

C. In the event Grantee fails to commence or complete any construction, maintenance, installation, restoration or repair work required by this Ordinance with due diligence and reasonable dispatch and in accordance with any mutually agreed upon schedule of activity, Grantor may cause such work to be performed after written notice to Grantee, given so as to afford Grantee an opportunity to commence and complete such work within a reasonable time. The cost of such work incurred by Grantor upon Grantee's failure to perform shall then be charged and collected from Grantee.

D. To the extent that they are not in conflict with applicable state or federal law, Grantor reserves the right to make and enforce reasonable regulations and construction standards concerning the

Sand Springs Code of Ordinances

installation, operation and maintenance of Grantee's plants and systems located along, across, over, or under the public ways of Grantor and to reasonably designate where such plants and systems shall be placed.

E. Grantor agrees that in the event it requires installation of any portion of Grantee's plants and systems contrary to Grantee's current urban installation, operation and maintenance or replacement procedures ("procedures"), Grantor shall pay and reimburse Grantee for the difference between the reasonable cost of such required procedures and the reasonable cost of Grantee's current procedures. Provided, however, that Grantor shall not be required to reimburse Grantee for such expenses to the extent that Grantee is allowed to include such expenses as an element to be considered by the Corporation Commission of the State of Oklahoma or other regularly constituted regulatory authority in establishing the rates which Grantee may charge its ultimate consumers.

SECTION 10. REASONABLE RATES AUTHORIZED

During the life of this franchise and for and in consideration of the acceptance hereof by Grantee, it is agreed that Grantee may charge and collect from Grantor, its inhabitants and the consumers therein, a rate or rates, which shall at all times be compensatory and reasonable, subject to such rules, regulations and orders as are now in effect or that may hereafter be lawfully made by the Corporation Commission of the State of Oklahoma, or by any other regularly constituted regulatory authority.

SECTION 11. SALE OF POWER TO CITY

During the life of this franchise, Grantee shall provide plants and systems for all electric energy required by Grantor for municipal purposes, including wastewater treatment, water and stormwater pumping, and lighting of its streets, and shall sell and deliver to Grantor, and Grantor shall have the option to purchase and receive from Grantee, all electric energy requested by Grantor for municipal purposes.

SECTION 12. FEES

A. From and after the date of acceptance of this Ordinance, as consideration for the granting of this franchise, for use of the public ways, and as a compensation for the rights and privileges enjoyed hereunder, Grantee agrees to pay to Grantor a franchise fee that is equal to two percent (2%) of Grantee's gross receipts from the retail sale of electric energy within the City of Sand Springs, including any revenues, fees or payments received by Grantee for the lease or use of its plants and systems for the distribution and/or transmission of electric energy which is sold to an ultimate consumer by any other person or entity within the City of Sand Springs.

B. The franchise fee shall be payable monthly on or before the 20th day of each month, on receipts of Grantee for the preceding calendar month, and shall be in lieu of all concessions, charges, excise, franchise, licenses, occupation, privilege and permit fees, or taxes, except assessments for special improvements and ad valorem taxes and any fees approved by the voters of the City of Sand Springs in accordance with the provisions of Subsection 12(D), below.

C. Should Grantee accept a franchise from any other city or town in which it agrees to pay a franchise fee that is a higher percentage of gross revenues than the percentage provided for in Subsection 12(A), above, or any revision of the franchise fee provided for in Subsection 12(D) of this ordinance, then and in that event Grantee shall forthwith and without demand inform Grantor's governing body of such occurrence. Thereafter, at the sole discretion of Grantor's governing body and pursuant to such process as it deems appropriate, Grantee may be directed by Grantor's governing body to increase the percentage of gross receipts to be paid to Grantor hereunder to such higher percentage to the extent such increase is allowed by the City Ordinance of the City of Sand Springs or other applicable law.

D. At the end of the fifth, tenth, fifteenth and twentieth years from the date of acceptance of this franchise, Grantor shall have an option to present to the voters of the City of Sand Springs the issue of whether the franchise fee provided for in Subsection 12(A) should be revised. In order to exercise such option, Grantor must, within the thirty (30) day period immediately preceding the end of the fifth, tenth,

Sand Springs Code of Ordinances

fifteenth and twentieth years from the date of acceptance of the franchise, provide Grantee written notification of Grantor's intent to submit the issue of revision of the franchise fee for election. If Grantor provides such written notification to Grantee in a timely manner, Grantor is then responsible for taking all action necessary to present the issue of revision of the franchise fee for election by the qualified voters of the City of Sand Springs to be held not less than two (2) months nor more than six (6) months from the date of such written notification. Grantor shall be responsible for all costs of such election. If either the above-described written notification is not provided or the above-described election is not held within the periods set forth in this Subsection 12(D), Grantor will be deemed to have waived its right to exercise the option to which such notification and election apply. Any proposed revision of the franchise fee shall be for fees that in their total amount are not less than two percent (2%) and not more than four percent (4%) of the gross receipts from the retail sale of electric energy by Grantee and the sale by other persons or entities to ultimate consumers within the City of Sand Springs to the extent that such electric energy is transmitted over the plants and systems of Grantee which are located within the City of Sand Springs, with such gross receipts determined and paid in the manner provided in Subsections 12(A) and [B], above. Such franchise fee, as revised, shall continue to be in lieu of all concessions charges, excise, franchise, licenses, occupation, privilege and permit fees, or taxes, except assessments for special improvements and ad valorem taxes. If the issue of revision of the franchise fee is submitted for election in accordance with the provisions of this Subsection 12(D) and a majority of the qualified electors of the City of Sand Springs voting thereon vote in favor of such revision, the franchise fee shall be revised accordingly at the end of the calendar year in which such election is held. If a majority of the qualified electors of the City of Sand Springs voting thereon vote against revision of the franchise fee, the franchise fee then in effect will continue in full force and effect until the end of the term provided for in Section 3, above, or until such franchise fee is revised in accordance with the provisions of this Subsection 12(D).

E. Grantor shall have the option, at any time during the term of this franchise, to present to the voters of the City of Sand Springs the issue of whether in addition to the franchise fee provided for in Subsection 12(A), above, Grantee should also pay to Grantor a facilities fee that is equal to one percent (1%) of Grantee's gross receipts from the retail sale of electric energy within the City of Sand Springs, including any revenues, fees or payments received by Grantee for the lease or use of its plants and systems for the distribution and/or transmission of electric energy which is sold to an ultimate consumer by any other person or entity within the City of Sand Springs. The facilities fee provided for in this Subsection 12(F), if approved by the voters, will be for the purpose of providing Grantor a source of revenue that shall be used by Grantor to pay costs it occurs in connection with these purposes, namely (1) the underground installation of Grantee's plants and systems required by Grantor pursuant to the provision of Subsection 9(E) above, (2) the relocation at Grantor's expense of facilities which are necessary due to the construction or expansion of the public streets, and (3) for the construction of public infrastructure which is necessary or helpful in promoting economic development with the City of Sand Springs. In order to exercise such option, Grantor must provide Grantee written notification of Grantor's intent to submit this issue for election by the qualified voters of the City of Sand Springs to be held not less than two (2) months nor more than six (6) months from the date of such written notification. Grantee shall be responsible for all costs of the election in which this issue may first be presented to the voters for decision. Subsequent elections on the same issue, if any, shall be at Grantor's expense. If the issue of whether a facilities fee of the type described in this Subsection 12(F) is submitted for election in accordance with the provisions hereof and a majority of the qualified electors of the City of Sand Springs voting thereon vote in favor of such facilities fee being paid by Grantee to Grantor, such facilities fee shall go into effect at the end of the calendar year in which such election is held, to be thereafter paid by Grantee in accordance with the provisions of Subsection 12(B), above, and shall be in lieu of all concessions, charges, excise, franchise, licenses, occupation, privilege and permit fees, or taxes, except assessments for special improvements, ad valorem taxes and the fees provided for in Subsection 12(A), above, and any revisions thereof approved pursuant to Subsection 12(D), above. If a majority of the qualified electors of the City of Sand Springs voting thereon vote against the fee, the franchise fee provided for in Subsection 12(A), above, together with any revisions thereof made in accordance with

Sand Springs Code of Ordinances

Subsection 12(D), above, will continue in full force and effect until the end of the term provided for in Section 3, above.

F. Grantor agrees that the total of the percentage rates used to calculate the fee paid by Grantee to Grantor, including any revision of such franchise fee, shall in no event exceed the percentage rate used to calculate any fee or tax paid to Grantor by any other person or entity if such fee or tax paid to Grantor by such other person or entity if such fee or tax is based in any way on the amount of revenues from sales of electric energy by such other person or entity to ultimate consumers within the City of Sand Springs.

SECTION 13. MAINTENANCE AND INSPECTION OF RECORDS

A. Grantee shall at all times make and keep full and complete plats, maps and other records showing the location, nature and size of all of Grantee's plants and systems within the corporate limits of the City of Sand Springs. This expressly includes current maps of the City Limits of Sand Springs, as those limits are changed from time to time hereafter, and Grantee will update its billing and collection procedures not less often than quarterly to assure the collection and remittance of appropriate fees from customers in recently annexed territory.

B. For the purpose of affording Grantor the opportunity to enforce and collect the franchise fee imposed by this ordinance and franchise, Grantee shall further permit Grantor to inspect and audit, during regular business hours and at Grantor's expense, the relevant books and records kept by Grantee in the ordinary course of business.

SECTION 14. RIGHT OF CITY TO PURCHASE PROPERTY

A. Grantor shall have the right any time after twenty-four (24) years after the date of acceptance of this franchise to purchase all, but not less than all, of the properties of Grantee which comprise the plants and systems of Grantee that are used for or related to the manufacture, transmission, distribution, sale and control of electricity which are located within the corporate limits of the City of Sand Springs at the time such right to purchase is exercised and to terminate this franchise if such purchase and termination are approved by a majority of the qualified electors of the City of Sand Springs voting thereon at a special or general election held in accordance with the provisions of this Section 14. At any time after the right to purchase such properties of Grantee shall have accrued under the terms of this Subsection 14[A], and the fair market value of such properties has been determined in accordance with Subsection 14(B), below, the question of the purchase of such properties and termination of this franchise may be submitted by the City Council of the City of Sand Springs to the qualified electors of the City for approval. The question of the acquisition of such properties and the termination of this franchise may also be submitted to the qualified electors of the City of Sand Springs upon the petition to the City of twenty-five percent (25%) of the qualified electors of the City presented after the right to purchase such properties of Grantee shall have accrued under this Subsection 14 [A]. In the event such a petition is so presented, the question of the acquisition of such properties and the termination of the franchise may also be submitted at the next succeeding election in the City of Sand Springs after the fair market value of such properties has been determined in accordance with Subsection 14(B), below, or at a special election called for such purpose.

B. Grantee shall be compensated by Grantor for the purchase of the above-described properties by payment to Grantee of the fair market value of such properties located within the City of Sand Springs, which shall include consideration of the services provided by means of such properties and any legal obligations or commitments which Grantee has which are directly related to such properties. Such value shall be determined by the majority of three (3) appraisers, one (1) to be selected by the Mayor of the City of Sand Springs, one (1) by Grantee, and the third by the first two appraisers. The appraisers shall be persons of recognized skill, ability and experience with respect to the appraisal and evaluation of properties of the character and type which City is entitled to purchase pursuant to this section and of services provided by means of such properties. If Grantee shall refuse to select an appraiser for thirty (30) days after an appraiser has been selected by the Mayor, the fair market value of the

Sand Springs Code of Ordinances

properties described above, taking into consideration the services provided by means of such properties, shall be fixed by the vote of a majority of the City Council. If the two (2) appraisers appointed by the Mayor and by Grantee shall fail to agree upon the third appraiser within thirty (30) days after their appointment, the third appraiser, upon the application of either Grantor or Grantee, shall be appointed by the Presiding Judge of the District Court of Tulsa County, Oklahoma, or if such Judge shall fail or refuse to make such appointment for any reason, then the Corporation Commission of the State of Oklahoma, upon ten (10) days notice to the adverse party, may appoint such third appraiser. The fair market value of the properties described above shall be determined by the appraisers within ninety (90) days after the appointment of the third appraiser.

C. After the fair market value of the properties described above has been determined by the appraisers in accordance with the provisions of Subsection 14(B), above, the question of the acquisition of such properties by payment to Grantee of the fair market value of such properties as so determined and termination of this franchise shall be submitted to the qualified electors of the City of Sand Springs at the next succeeding special or general election. In the event a majority of such qualified electors voting thereon approve the question of such acquisition and termination, Grantor shall have ninety (90) days from its receipt of the official results of such election within which to pay Grantee in cash the fair market value of all of such properties as determined by the appraisers and submitted to the qualified electors at the election. Until such payment, Grantee may continue to operate its plants and systems and provide services pursuant to the terms of this franchise; provided, that if between the date of the appraisal of such properties and the date of payment therefor, reasonable and necessary additions, betterments and replacements shall have been made by Grantee to its plants and systems or services within the City of Sand Springs, Grantor shall pay in addition to the value established by the appraisers, the reasonable cost of such additions, betterments, and replacements. If Grantor fails to pay the appraised amount plus any additions, betterments and replacements thereto as provided for herein to Grantee within the ninety (90) day period set forth above, then the right of purchase granted to Grantor by this section shall expire and become void.

D. For the purpose of aiding the appraisers in determining the fair market value of the properties described above, including consideration of the services provided and obligations and commitments directly related to such properties, all of the relevant books, records, contracts and other information in the possession of the Grantee shall be open and accessible to the appraisers during the time their appraisal is being made, and the appraisers may take into consideration any other factors appropriately presented to them in determining said fair market value.

E. In the event City purchases properties of Grantee pursuant to this section, City agrees that it will, for a reasonable fee, make the use of such properties available to Grantee as is necessary for the efficient operation by Grantee of the remaining portions of its plants and systems for the transmission, distribution, provision and sale of electric energy and related services.

SECTION 15. ELECTION REQUIRED - ACCEPTANCE BY GRANTEE

This ordinance and franchise shall be in full force and effect from and after the date of its acceptance as hereinafter provided, upon its passage and approval by a vote of a majority of the qualified electors residing within the City of Sand Springs, who shall vote thereon at a special election called under or pursuant to the provisions hereof. If this ordinance fails to be so approved at said election, it shall be wholly void and of no effect.

The Mayor of the City of Sand Springs is hereby authorized to sign a proclamation calling for such election in the manner and form provided by the laws of the State of Oklahoma for the calling of special elections, to be held on November 9, 1999, giving such notice and preparing such proclamation, ballot title and call therefor as provided by law, for the purpose of submission to the qualified electors residing within the City of Sand Springs the proposition of approval or refusal of this ordinance and the franchise hereby granted; and the proper officers of said City are hereby directed to do all things that may be necessary for the holding of said election and for the submission of said question, and shall, in all things, comply with the laws of the State of Oklahoma, in designating November 9, 1999, as the day,

Sand Springs Code of Ordinances

month and year of said election, the hours of opening and closing the polls, the voting places within said City in which said election shall be held and the proper persons within the respective precincts of said City for the purpose of holding said election.

It is understood and agreed that in the event said franchise be approved at such election the Grantee shall, within thirty (30) days after the result of such election is declared as provided by law, file with the City Clerk of the City of Sand Springs an acceptance in writing duly executed according to law, accepting this ordinance and franchise.

SECTION 16. REPEAL OF PREVIOUS FRANCHISE AGREEMENT

Upon the filing by the Grantee of the acceptance of this ordinance as hereinabove provided, all rights, privileges and obligations of any other ordinance and franchises, or portions thereof, under which said Grantee may now be exercising its privileges of use of the public ways in the City of Sand Springs and particularly Ordinance No. 420 of the City of Sand Springs, as published October 13, 1977, and all other ordinances and parts of ordinances in conflict herewith, shall be and thereafter remain canceled, annulled and repealed.

SECTION 17. EMERGENCY CLAUSE

Whereas an immediate necessity exists in order that the inhabitants of Grantor may be provided an adequate supply of electricity for heating, lighting, cooling and power purposes and for the purpose of providing light, heat, cooling and power for the streets, alleys, public grounds, parks and other public places and institutions of Grantor, and for the preservation of the public health, peace and safety, an emergency is hereby declared to exist by reason whereof this ordinance shall be in full force and effect from and after its passage, approval and publication; and same shall be submitted at a special election.
